

More Criminal Evidence for the ongoing criminal case against certain politicians, the CMO Tony Holohan, NPHET and RTE in the criminal courts. Will the DPP prosecute crimes in Ireland ?

March 2022

More Evidence about deaths, injuries, illnesses and disabilities caused by covid19 vaccines which corroborates the evidence in our previous Books of Evidence submitted to Gardai and the DPP

Medical doctors around Ireland are seeing evidence of covid19 vaccine injuries, illnesses and deaths. A medical doctor in Ireland, Dr. Patrick Morrissey has provided a sworn affidavit attesting to this fact for an upcoming High Court case. This affidavit will also be used in the criminal case. The risks and dangers to children and adults far outweigh the non-existent benefits. A court in the USA has ordered Pfizer to release its documents about the covid19 vaccine and one can view them on the following web site - <https://phmpt.org/pfizers-documents/> . I refer the DPP to the Pfizer document at <https://phmpt.org/wp-content/uploads/2021/11/5.3.6-postmarketing-experience.pdf> and pages 30 - 38 of that document which show the terrible injuries and illnesses and disabilities caused by the covid19 vaccines. And also show 42,000 case reports and 158,000 adverse events and 1,223 deaths by February 28, 2021, less than 3 months into the vaccination of the general public. This is official Pfizer data from their own internal documents. This corroborates our evidence in prior books of evidence. Pages 30 – 38 attached to this document.

This is shocking and distressing and was not communicated to parents and guardians of children and to teenage children and to adults in general prior to them getting the covid19 vaccines in Ireland. They were not given the essential information to make an informed decision and provide their informed consent for getting these covid19 vaccines. In addition to this the official HPRAs evidence is showing deaths to hundreds of people and thousands of injuries, illnesses and disabilities from these covid19 vaccines in Ireland. And we have provided evidence of a massive rise in excess mortality and actual mortality in Ireland after the introduction of these covid19 vaccines in January 2021. All detailed in previous books of evidence submitted to you. These are crimes against those adults and children who got the covid19 vaccines in Ireland.

These crimes must be prosecuted in the Irish criminal courts in the interests of justice for the Irish people and nation and in the interests of due process and fair procedure in law and in the courts. The requirement to prosecute these crimes is stated in Articles 38 and 40 of the Irish Constitution and

Article 6 of the European Convention on Human Rights and in the Criminal Justice Acts. Failure or refusal to prosecute these crimes is a breach of these Constitutional Articles and the Criminal Justice Acts and is a perversion of the course of justice.

A scientific study using statistical analysis and data analysis and cost-benefit analysis by MIT experts shows the risks and dangers of covid19 vaccines for different age groups -

COVID Vaccines Causing Miscarriages, Cancer and Neurological Disorders Among Military, DOD Data Show. News report at <https://childrenshealthdefense.org/defender/covid-vaccines-miscarriages-cancer-neurological-disorders-military/>

MP's in British Parliament and British government have admitted that the covid19 vaccines have caused mass injuries, illnesses and disabilities and deaths in Britain

There is a video link to an important recent debate in the British Parliament. The British MP's are debating the **Covid19 Vaccine Damage Bill**, and one MP who supports this Bill outlines the reasons for passing this Bill into law. Most MP's in the British parliament accept that there have been mass injuries, illnesses, disabilities and deaths caused by the covid19 vaccine. In fact it has caused more injuries and illnesses than all of the other vaccines combined over the last 20 years. The most shocking part of this is that many governments and health authorities, including the Irish, knew about these risks and dangers from the covid19 vaccines but refused to tell the public about it, and this was a criminal act. It exposed the general public to serious dangers including death and serious illness, while deliberately concealing this from the general public. This is a matter for the criminal courts in Ireland and other countries.

More corroborating evidence that covid19 vaccines change and damage Human DNA and that these facts are being covered up and not being given to the general public

Human DNA is quite fragile and any damage to it normally leads to illnesses, cancers, disabilities, deformities and early death according to the scientific evidence worldwide.

More forensic autopsy evidence showing how the covid vaccines are killing people from top German Pathologists

Dr. Arne Burkhardt, a German Pathologist and his team in Germany have updated their pathology findings on dead covid19 vaccinated people showing how the spike proteins are killing people. This corroborates our evidence in prior books of evidence showing that the covid19 are killing, injuring and disabling large number of Ireland in many countries including Ireland. This is more evidence of serious crimes. These findings have been passed on to all Coroners and the State Pathologist in Ireland.

Damage to ovaries and Women's Health and Link to Rise in Ovarian Cancer

The scientific study 'A Tissue Distribution Study of a [3H]-Labelled Lipid Nanoparticle-mRNA Formulation Containing ALC-0315 and ALC-0159 Following Intramuscular Administration in Wistar Han Rats' in the released Pfizer documents show a high concentration of mRNA in the ovaries of women. This is related to a sudden and large rise in ovarian cancers in Britain in 2021 and 2022.

Increased Myocarditis Risk after covid19 vaccinations

Myocarditis Cases Reported After mRNA-Based COVID-19 Vaccination in the US From December 2020 to August 2021

Oster et al. 2022. Journal of American Medical Association

<https://jamanetwork.com/journals/jama/fullarticle/2788346>

Results Among 192 405 448 persons receiving a total of 354 100 845 mRNA-based COVID-19 vaccines during the study period, there were 1991 reports of myocarditis to VAERS and 1626 of these reports met the case definition of myocarditis. Of those with myocarditis, the median age was 21 years (IQR, 16-31 years) and the median time to symptom onset was 2 days (IQR, 1-3 days). Males comprised 82% of the myocarditis cases for whom sex was reported. The crude reporting rates for cases of myocarditis within 7 days after COVID-19 vaccination exceeded the expected rates of myocarditis across multiple age and sex strata. The rates of myocarditis were highest after the second vaccination dose in adolescent males aged 12 to 15 years (70.7 per million doses of the BNT162b2 vaccine), in adolescent males aged 16 to 17 years (105.9 per million doses of the BNT162b2 vaccine), and in young men aged 18 to 24 years (52.4 and 56.3 per million doses of the BNT162b2 vaccine and the mRNA-1273 vaccine, respectively). There were 826 cases of myocarditis among those younger than 30 years of age who had detailed clinical information available; of these cases, 792 of 809 (98%) had elevated troponin levels, 569 of 794 (72%) had abnormal electrocardiogram results, and 223 of 312 (72%) had abnormal cardiac magnetic resonance imaging results. Approximately 96% of persons (784/813) were hospitalized and 87% (577/661) of these had resolution of presenting symptoms by hospital discharge. The most common treatment was nonsteroidal anti-inflammatory drugs (589/676; 87%).

Conclusions and Relevance Based on passive surveillance reporting in the US, the risk of myocarditis after receiving mRNA-based COVID-19 vaccines was increased across multiple age and sex strata and was highest after the second vaccination dose in adolescent males and young men. This risk should be considered in the context of the benefits of COVID-19 vaccination.

Chart below shows increased risk of myocarditis for covid vaccinated people in different age groups

Table 2. Reports to VAERS After mRNA-Based COVID-19 Vaccination That Met the CDC's Case Definition for Myocarditis Within a 7-Day Risk Interval per Million Doses of Vaccine Administered

	Reported cases of myocarditis within a 7-d risk interval per million doses of vaccine administered (95% CI) ^a				Expected cases of myocarditis in a 7-d risk interval per million doses (95% CI) ^c
	Vaccination with BNT162b2		Vaccination with mRNA-1273 ^b		
	First dose	Second dose	First dose	Second dose

More corroboration of the crime of blocking of Ivermectin for the treatment of covid19 and use of it as a preventative

NPHT and the CMO Tony Holohan and the head of the HSE and the Irish Medical Council opposed and blocked the use of Ivermectin in the treatment of covid19 in 2020 and 2021 in Ireland. Its use as a preventative was also blocked. Dr. Tess Lawrie a medical doctor and PHD Scientist in Britain who has published many research papers in the past openly promoted Ivermectin as an effective and safe treatment for covid19 in a video message to British Prime Minister Boris Johnson in January 2021. And she and others had published scientific research and medical evidence to prove that Ivermectin was very effective. Yet medical authorities and NPET in Ireland and SAGE in Britain and governments in both countries refused to authorise Ivermectin for treatment of covid19. This led to many deaths from covid19 in Britain and Ireland.

More corroborating evidence that the covid19 virus was man made and created for vaccine profit purposes

On February 23, 2022 the Daily Mail ran an article showing that Moderna has patented the 19 base letter (nucleotide) sequence which codes for the Furin Cleavage site in Covid-19.

Daily Mail article <https://www.dailymail.co.uk/news/article-10542309/Fresh-lab-leak-fears-study-finds-genetic-code-Covids-spike-protein-linked-Moderna-patent.html>

They cited a Paper by Scientists in India, Switzerland, Italy and the US, [cautiously entitled: MSH3 Homology and Potential Recombination Link to SARS-CoV-2 Furin Cleavage Site](#) in which they calculated that the chances of a 19 nucleotide sequence patented by Moderna randomly appearing in Covid-19 in circumstances where it does not appear anywhere else in nature are 1 in 3 trillion. This genetic sequence played the main role in making the virus more infectious for humans. Scientific paper at

<https://www.frontiersin.org/articles/10.3389/fviro.2022.834808/full#B10>

This has been verified on the NIH BLAST database in the USA. This evidence shows that the covid19 virus was man made and that Moderna has the patent. They got this patent a few years before the covid19 pandemic in 2020. Moderna made billions of euros in profits from covid19 vaccines in 2021 and 2022. Another news report at <https://dailyexpose.uk/2022/03/14/documents-published-confirming-moderna-created-covid/>
