

# **More Corroborating Evidence : Overwhelming Evidence and Irrefutable Evidence**

**August to December 2022**

**Top scientists and medical doctors compiled an Expert Report on covid19 vaccines and comparison to other vaccines using government databases in many countries. This clearly shows that the covid19 vaccines are not safe.**

This report was prepared by the World Council for Health (WCH). The report was prepared to determine whether sufficient pharmacovigilance data exists on WHO VigAccess, CDC VAERS, EudraVigilance, and UK Yellow Card Scheme to establish a safety signal on Covid-19 vaccines. The Report provides irrefutable evidence which shows the covid19 vaccines are the most dangerous vaccines ever given to the general public.

Report at

<https://worldcouncilforhealth.org/wp-content/uploads/2022/08/Pharmacovigilance-Report-1.pdf>

News report at <https://worldcouncilforhealth.org/news/independent-pharmacovigilance-report-recall-of-covid-19-vaccines>

**More Corroborating Evidence of the toxic and dangerous ingredients in the covid19 vaccines from German Laboratories and top German Scientists and Laboratories around the world. Vaccine ingredients not disclosed to vaccine recipients and the general public. Thus no informed consent was given by vaccine recipients to have these dangerous substances and toxins injected into their bodies.**

The German Working Group for COVID Vaccine Analysis is an interdisciplinary working group that has undertaken the task of analysing the contents and the effects of the novel COVID-19 vaccines. The group consists of independent scientists, including physicians, physicists, chemists, microbiologists, pharmacologists and alternative health practitioners, supported by lawyers, psychologists, analysts and journalists.

See Report at

<https://anamihalceamdphd.substack.com/api/v1/file/ee2cdead-884d-4ff8-9c09-5888f39345a2.pdf> And news report at <https://anamihalceamdphd.substack.com/p/alarming-new-report-from-working>

Corroborated by the scientific findings of Dr. Daniel Nagase, a medical doctor and scientist from Canada. He used high powered microscopes. He also found bizarre types of parasites and rare metals in samples of the vaccines.

Dr, Nagase's scientific analysis of the Pfizer and Moderna vaccines on

<https://rumble.com/v11go0d-watch-dr.-nagase-reviews-images-from-covid-vaccines-shows-no-elements-of-li.html>

and transcript at <https://expose-news.com/wp-content/uploads/2022/05/Transcript-Dr.-Daniel-Nagase.pdf>

Dr. Shimon Yanowitz, an Israeli scientist and engineer has found nano-structures, nano circuitry, nano networks and worm structures in vials of the covid19 vaccine and also Bluetooth being transmitted from vaccinated people.

<https://rumble.com/v1oghsl-nano-structures-exposed-in-the-vaxx-engineer-deconstructs-frozen-vaxx-vials.html>

This evidence continues to be corroborated internationally. I refer you to Dr. Ricardo Delgado and his research team, Quina Columna, who are scientists based in Spain and their scientific findings of graphene oxide, nano-structures, nano circuitry, nano networks and bluetooth signals in the covid vaccines and in vaccinated people.

<https://odysee.com/@StopTheCrime:d/Breaking-News-SHOCKING---Here-is-What-Really-is-in-the-Vaccines:d>

Their web site is at <https://www.laquintacolumna.net>

A question has been officially presented to the EU Parliament about this

[https://www.europarl.europa.eu/doceo/document/P-9-2022-000303\\_EN.html](https://www.europarl.europa.eu/doceo/document/P-9-2022-000303_EN.html)

Dr. David Nixon provides footage never before seen anywhere in the world - real time footage of the nanotechnology inside the COVID-19 injections assembling robotic arms that guide the nanotechnology development. This shows nano-circuits and nano-networks being constructed inside the vaccine. The video speed was increased by 100 times to reveal this activity.

<https://rumble.com/v1prv94-world-first-robotic-arms-assembling.html>

The graphene oxide in the covid vaccines is causing blood to coagulate and form large clots according to scientists who viewed the blood of vaccinated people under microscopes. These large clots are causing many types of health problems and illnesses and deaths in people.

News report at <https://expose-news.com/2022/10/27/drs-find-graph-ene-shed-vax-to-unvax/>

Argentina's Dr Martin Monteverde and other researchers carried out microscopic analyses of vials from the five "vaccine" types. He found these same nano technologies in the vaccines. He then sent these images to Corona2Inspect for further analysis. Corona2Inspect returned the images with their comments identifying what objects the images were showing.

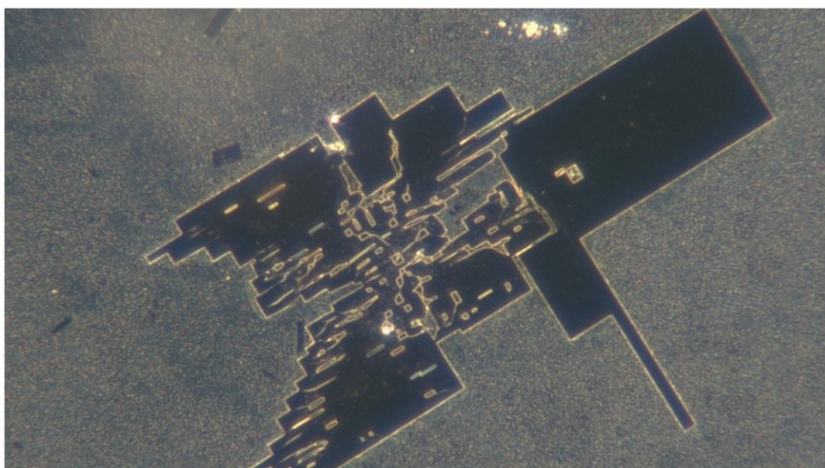

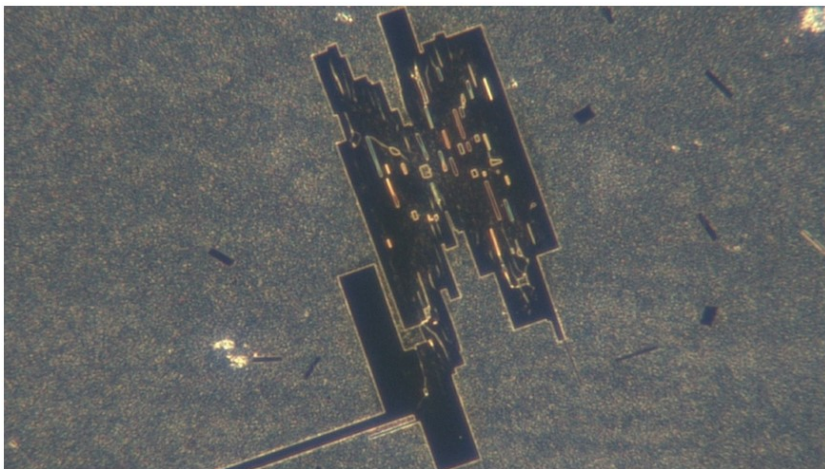

<https://www.docdroid.net/LotSygr/analisis-argentino-de-los-viales-astrazeneca-pfizer-sinopharm-compressed-pdf>

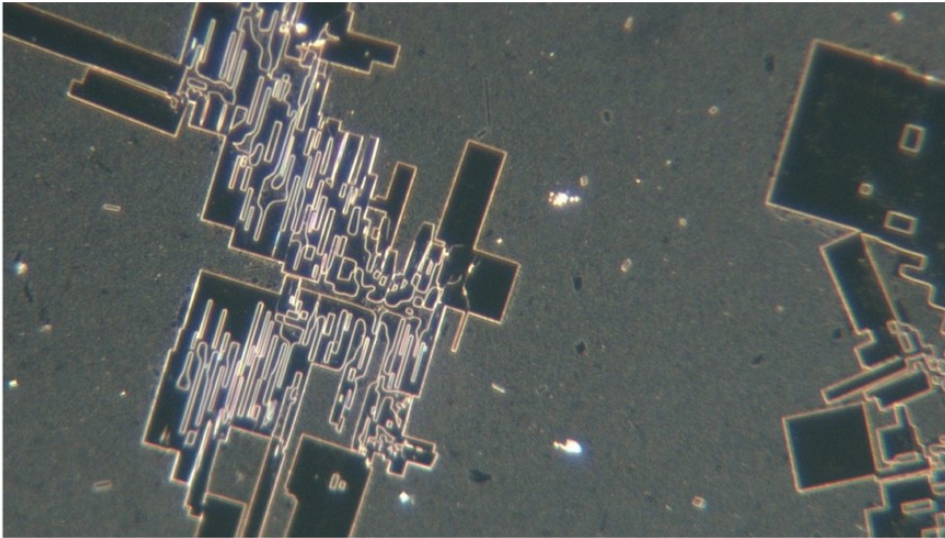

video presentation at <https://www.orwell.city/2022/01/microtechnology-in-vials.html?ysclid=l9zqzpmrwn173071953>

Scientists in New Zealand have also found this in the covid19 vaccines

<https://robinwestenra.blogspot.com/2022/01/new-zealand-scientists-have-found.html>

Some pictures of these nano technologies found in covid19 vaccines and in vaccinated people

Listings of scientific studies and findings from around the world

<https://ebmcsquared.org/statement-lab-testing-on-vaccine-content>

**Expert Scientific Report compiled by scientists and a laboratory in Britain detailing the ingredients of the covid19 vaccines. This includes graphene and other items not disclosed to the general public.**

[https://ukcitizen2021.org/Case\\_Briefing\\_Document\\_and\\_lab\\_report\\_Ref\\_AUC\\_101\\_Report%20.pdf](https://ukcitizen2021.org/Case_Briefing_Document_and_lab_report_Ref_AUC_101_Report%20.pdf)

Graphene oxide in the covid vaccines is causing blood to coagulate and form large clots according to scientists who viewed the blood of vaccinated people under microscopes. These large clots are causing many types of health problems and illnesses and deaths in people. In addition, Graphene oxide damages the internal organs of human bodies, the central nervous system, the mitochondria, the cells of the body, the reproductive system, the DNA, and can trigger chronic inflammation and cancers.

It is a poison. The giving of poison to people without their informed consent is both a criminal offence and a civil offence.

**More Corroboration of our Evidence - Expert Report prepared by top Australian medical doctors and scientists for courts and judges regarding covid19 vaccines**

The Time of COVID

A Report by Phillip M. Altman BPharm(Hons), MSc, PhD Clinical Trial & Pharmaceutical Regulatory Affairs Consultant 9 August 2022

[https://8630368.fs1.hubspotusercontent-na1.net/hubfs/8630368/AMPS/Altman%20Report%20Final%20Version%2011-8-22%20\(1\).pdf?utm\\_source=hs\\_email&utm\\_medium=email&hsenc=p2ANqtz-xjQ4yMhGSvS8df2ZONWTM\\_ADj08\\_oeqhLx5TUDvBguoqJ4XQkAsxR5SbdeemLRLFJ8As](https://8630368.fs1.hubspotusercontent-na1.net/hubfs/8630368/AMPS/Altman%20Report%20Final%20Version%2011-8-22%20(1).pdf?utm_source=hs_email&utm_medium=email&hsenc=p2ANqtz-xjQ4yMhGSvS8df2ZONWTM_ADj08_oeqhLx5TUDvBguoqJ4XQkAsxR5SbdeemLRLFJ8As)

and Open Letter by Dr. Professor Christopher Neil to many medical organizations in relation to this Report <http://npaq-8630368.hs-sites.com/covid-19-an-update-of-evidence-based-information>

## **A new Report prepared for the Liberal Party of Canada shows that the vaccines have no benefit for those under 60**

<https://www.skirsch.com/covid/LiberalPartyReport.pdf>

## **COVID-19 vaccines – An Australian Review**

Turni et al. September 2022

<https://opastpublishers.com/open-access/covid-19-vaccines-an-australian-review.pdf>

This scientific paper provides a devastating scientific critique of the covid19 vaccines and their lack of safety and efficacy and of misguided government policies.

The review also looks at the long-term effects of mRNA “vaccines” listing the long-term risks of vaccination – predicted by scientists and many already validated by scientists and doctors – as:

- vaccine-induced autoimmunity,
- pathogenic priming,
- multisystem inflammatory disease and autoimmunity,
- antibody-dependent enhancement (“ADE”),
- activation of latent viral infections,
- neurodegeneration and prion disease,
- increased thrombosis,
- cardiomyopathy and other vascular events following vaccination,
- babies suffering enduring adverse consequences,
- mRNA reverse transcribing intracellularly into the DNA, and
- death due to autoimmune disease long after vaccination.

## **More evidence showing covid19 deaths were over-stated and over-counted**

**and that most people died of several co-existing illnesses. Lies were used to promote fear, panic and lockdowns and covid vaccine uptake.**

The CSO figures in Ireland now show that a total of 183 deaths (or 3.4%) reported Covid-19 as the single cause of death. 5,201 (or almost 97%) of deaths with Covid-19 deaths were certified as having had Covid-19 and at least one other medical condition on the death certificate. Four in five deaths from Covid-19 had at least three medical conditions mentioned on the death record with 4.2 conditions being the average per person according to data release. Most deaths were in the over 75 years age group and had co-existing illnesses.

Source: CSO and Journal.ie, <https://www.thejournal.ie/covid-deaths-pneumonia-conditions-5841803-Aug2022/> . These important facts were covered up by the Irish press and media and by the state bodies and government in 2020 and 2021 so as to increase public fear and panic around covid19.

### **Published scientific study confirms that covid19 deaths were over counted**

Data reporting flaw in plain sight distorting COVID-19 mortality statistics

Wilson Sy, 2022

[https://www.academia.edu/85597731/Data\\_reporting\\_flaw\\_in\\_plain\\_sight\\_distorting\\_COVID\\_19\\_mortality\\_statistics](https://www.academia.edu/85597731/Data_reporting_flaw_in_plain_sight_distorting_COVID_19_mortality_statistics)

### **Was there a Pandemic ? Was Covid19 over hyped and over-estimated ? The Evidence and Facts**

The most recent research by Dr. John Ioannidis one of the top Epidemiologists in the world and a Professor of Medicine, Health Research and Policy, and of Biomedical Data Science in Stanford University in the USA, shows the following data for covid19

The average Infection Fatality Rate for covid19 was:

- 0.0003% at 0-19 years
- 0.003% at 20-29 years
- 0.011% at 30-39 years
- 0.035% at 40-49 years
- 0.129% at 50-59 years
- 0.501% at 60-69 years.

Age-stratified infection fatality rate of COVID-19 in the non-elderly informed from pre-vaccination national seroprevalence studies

Ioannidis et al. 2022

<https://www.medrxiv.org/content/10.1101/2022.10.11.22280963v1>

These figures do not show a pandemic and did not justify lockdowns, masks, vaccine mandates and other restrictions. These findings are similar to others and by the CDC.

## **More Corroborating Scientific and Medical Evidence that the covid19 vaccines are NOT safe and NOT effective**

**Including Statistics showing that covid19 vaccinated people are dying at higher rates than unvaccinated people. And excess mortality rates are very high and at historical records. The evidence points to covid19 vaccines playing a major role in this excess mortality.**

- **Pfizer admitted that the covid19 vaccine does not stop the spread of the virus. This means the vaccine passports, discrimination, and mandates were not backed by scientific and medical evidence and were illegal, fraudulent and unconstitutional, and caused harm, injury and loss to many people in Ireland and other countries. This carries both criminal liability and civil liability for those people involved in promoting the vaccine passports, discrimination and mandates.**

A senior Pfizer executive, Janine Small, admitted to the European Parliament on October 11, 2022 that there was no evidence to show the covid19 vaccine stopped the spread of the virus. The vaccine was never tested to see if it stopped transmission of the virus. This meant that the reason for covid19 vaccine passports, discrimination and mandates was based on lies and fraud.

Video from the EU Parliament - <https://rumble.com/v1nk7fg-in-covid-hearing-pfizer-director-admits-vaccine-was-never-tested-on-prevent.html>

News reports

<https://www.news.com.au/technology/science/human-body/pfizer-did-not-know-whether-covid-vaccine-stopped-transmission-before-rollout-executive-admits/news-story/f307f28f794e173ac017a62784fec414>

<https://www.youtube.com/watch?v=mnxlxxoZx0&t=0s>

<https://www.youtube.com/watch?v=2jTgDj7uiX8>

<https://www.youtube.com/watch?v=J6Vbl8gOnUM>

Lies and misinformation by politicians, medical doctors, scientists, healthcare leaders, government advisors, news readers and news anchors, and journalists stating that the covid19 vaccines stop spread or transmission

<https://twitter.com/CristianTerhes/status/1580710466808328192>

This fraud and lies led to loss of many lives and injury and disability to many people and to financial losses and this carries both criminal liability and civil liability for those people involved in promoting the vaccines, the vaccine passports, discrimination and mandates.

- **EU Parliament uncovers a cover up and conflict of interest which has led to loss, injuries and deaths for many people in the EU, including Ireland, which is a serious crime in the EU.**  
Hundreds of pages about covid19 vaccines, trials and contracts supplied from Pfizer to 6 European MEPs were redacted or blacked out. This important information should have been made available to the MEP's as they are part of the EU Parliament and government. And it should have been made available to elected members of the national parliaments in EU countries. Many lives have been lost and many injuries and disabilities caused by this vaccine in the European Union and there needs to be full accountability, not hundreds of redacted documents and evidence of a cover up. In addition, evidence has been produced by these MEP's that the Pfizer CEO used text messages to the EU President Ursula Van Leyen and other EU officials to lobby for covid19 vaccines. This was not disclosed and kept secret. This raises conflicts of interest charges. This is a strong indication of a cover up and a conflict of interest which has led to loss, injuries and deaths for many people in the EU, including Ireland, which is a serious crime in the EU.

Video of 6 MEP's - <https://www.youtube.com/watch?v=2jTgDj7uiX8>

and Mr. Kolakusic MEP <https://twitter.com/mislavkolakusic/status/1580132343758540800>

- **New Scientific Study in Thailand shows a rate of Myocarditis of 1 in 43 for covid19 vaccinated children. This is 23,000 per million.**

Cardiovascular manifestation of the BNT162b2 mRNA COVID-19 Vaccine in Adolescents

Mansanguan et al. August 2022

<https://www.mdpi.com/2414-6366/7/8/196>

This new scientific study from Thailand shows a high risk of children developing Myocarditis or other heart conditions and diseases after covid19 vaccinations. **A rate of 1 in 43 is very high, furthermore 29% of children developed various heart abnormalities and conditions, some subclinical.** This is serious as this lasts for the rest of their lives and indicates higher risk of early death or premature death. The high numbers of young people under 18 dying suddenly in Ireland since Summer 2021 and

into 2022, especially of heart conditions, bleeding and haemorrhages, and published on [www.rip.ie](http://www.rip.ie) corroborates the scientific findings in many scientific studies. And also the grim findings found in the Pfizer trial of the covid19 vaccine, released under Federal Court order in the USA. And in 2021 many American schools introduced defibrillators for children due to the growing rate of heart illnesses in American children. And defibrillators are being put into all English schools from 2021 onwards. This is a new, strange, unexpected and unprecedented development of children getting heart attacks after covid19 vaccinations in 2021 and this threat will continue into the future.

Source: <https://www.theguardian.com/education/2022/jul/17/defibrillators-to-be-installed-in-all-english-state-schools-by-end-of-next-school-year>

A comprehensive review and meta-analysis of published research confirm that young adults (40 years old and younger) have an elevated risk for myocarditis or pericarditis after mRNA COVID-19 vaccination. The analysis is reported in a new study in the *American Journal of Preventive Medicine*, published by Elsevier.

and

### **Comparative Safety of the BNT162b2 Messenger RNA COVID-19 Vaccine vs Other Approved Vaccines in Children Younger Than 5 Years**

Toepfner et al. JAMA 2022

<https://jamanetwork.com/journals/jamanetworkopen/fullarticle/2797451>

This study published in *The Journal of the American Medical Association*, included 7,806 children aged five or younger who were followed for an average of 91.4 days after their first Pfizer vaccination. The study showed that one in 500 children under five years of age who received a Pfizer mRNA—messenger ribonucleic acid—COVID vaccine were hospitalised with a vaccine injury, and one in 200 had symptoms ongoing for weeks or months afterwards.

This was debated in the British Parliament in October 2022

<https://hansard.parliament.uk/Commons/2022-10-24/debates/FF880636-BC3B-4BDB-A5E0-D6D4B82B2888/Covid-19VaccinesSafety?highlight=excess%20deaths#contribution-76C612FC-E196-4082-8B1B-1E5ACC5D54BF>

and

### **Serious adverse events of special interest following mRNA COVID-19 vaccination in randomized trials in adults**

Fraiman, Doshi, et al. August 2022

<https://www.sciencedirect.com/science/article/pii/S0264410X22010283>

#### **Results**

Pfizer and Moderna mRNA COVID-19 vaccines were associated with an excess risk of serious adverse events of special interest of 10.1 and 15.1 per 10,000 vaccinated over placebo baselines of 17.6 and 42.2 (95 % CI -0.4 to 20.6 and -3.6 to 33.8), respectively. Combined, the mRNA vaccines were associated with an excess risk of serious adverse events of special interest of 12.5 per 10,000 vaccinated (95 % CI 2.1 to 22.9); risk ratio 1.43 (95 % CI 1.07 to 1.92). The Pfizer trial exhibited a 36 % higher risk of serious adverse events in the vaccine group; risk difference 18.0 per 10,000 vaccinated (95 % CI 1.2 to 34.9); risk ratio 1.36 (95 % CI 1.02 to 1.83). The Moderna trial exhibited a 6 % higher risk of serious adverse events in the vaccine group: risk difference 7.1 per 10,000 (95 % CI -23.2 to 37.4); risk ratio 1.06 (95 % CI 0.84 to 1.33). Combined, there was a 16 % higher risk of serious adverse events in mRNA vaccine recipients: risk difference 13.2 (95 % CI -3.2 to 29.6); risk ratio 1.16 (95 % CI

0.97 to 1.39).

### **Analysis**

They found that the Pfizer and Moderna mRNA vaccines were associated with an increased risk of serious adverse events of special interest: 10.1 events per 10,000 vaccinated for Pfizer and 15.1 events per 10,000 for Moderna. When combined, the mRNA vaccines were associated with an increased risk of 12.5 per 10,000 vaccinated.

The research stated that this level of increased risk post-vaccine is greater than the risk reduction in COVID-19 hospitalization in both Pfizer and Moderna trials, which was 2.3 per 10,000 participants for Pfizer and 6.4 per 10,000 for Moderna. This means that on this measure, the Pfizer vaccine results in a net increase in serious adverse events of 7.8 per 10,000 vaccinated and the Moderna vaccine of 8.7 per 10,000 vaccinated.

- **Another scientific study showing that the covid19 vaccines rapidly lose effectiveness and are ineffective. Published in New England Journal of Medicine**

Effects of Vaccination and Previous Infection on Omicron Infections in Children

Lin et al. September 2022

<https://www.nejm.org/doi/full/10.1056/NEJMc2209371>

- In July 2022, British government data showed that Britain had the highest number of covid19 cases ever in July 2022. The vast majority are covid19 vaccinated people. This corroborates scientific evidence showing that the covid19 virus has mutated to avoid the vaccine. This has made the vaccine ineffective and useless. Vaccinating in the middle of a pandemic was condemned by many top scientists and doctors for this very reason in 2021 and 2022. Rapid virus mutations and Antibody Dependent Enhancement is occurring and is creating new covid19 cases. This verifies and corroborates the evidence in our prior books of evidence.

**Sources :** <https://health-study.joinzoe.com/data> and

<https://www.youtube.com/watch?v=dAyUJ5uA3sE>

- **International Medical Crisis Declared by 400 medical doctors and scientists due to Unprecedented Illnesses, Disabilities and Deaths from Covid19 Vaccines**

At a press conference on September 10<sup>th</sup> 2022, over 400 doctors and scientists from more than 34 countries declared an international medical crisis due to diseases and deaths associated with Covid19

injections. The Declaration originated among concerned medics and professionals in Asia from a group called the Universal Health Organisation.

Declaration - <http://medicalcrisisdeclaration.com/>

Press Release - <https://jamesroguski.substack.com/api/v1/file/095a906c-5c46-4a7f-895c-47faca997698.pdf>

Video of Press Conference - <https://www.youtube.com/watch?v=k0nwcI2P4yE>

Universal Health Organisation web site - <https://uho.org.in/index.html>

News report at <https://jamesroguski.substack.com/p/medical-crisis-declaration>

An excerpt from the Declaration

‘ We, the medical doctors and scientists from all over the world, declare that there is an international medical crisis due to the diseases and deaths co-related to the administration of products known as “COVID-19 vaccines” .

We are currently witnessing an excess in mortality in those countries where the majority of the population has received the so called “COVID-19 vaccines” . To date, this excess mortality has neither been sufficiently investigated nor studied by national and international health institutions.....’

They made eight urgent demands:

1. A worldwide ‘stop’ to the national inoculation campaigns with the products known as “Covid-19 vaccines.”
2. Investigation of all sudden deaths of people who were healthy previous to the inoculation.
3. Implementation of early detection programmes of cardiovascular events which could lead to sudden deaths with analysis such as D-dimer and Troponin, in all those that were inoculated with the products known as “Covid-19 vaccines,” as well as the early detection of serious tumours.
4. Implementation of research and treatment programmes for victims of adverse effects after receiving the so-called “Covid-19 vaccine.”
5. Undertaking analyses of the composition of vials of Pfizer, Moderna, Astra Zeneca, Janssen, Sinovac, Sputnik V and any other product known as “Covid-19 vaccines,” by independent research groups with no affiliation to pharmaceutical companies, nor any conflict of interest.
6. Studies to be conducted on the interactions between the different components of the so-called “Covid-19 vaccines” and their molecular, cellular and biological effects.
7. Implementation of psychological help and compensation programmes for any person that has developed a disease or disability as a consequence of the so-called “Covid-19 vaccines.”

8. Implementation and promotion of psychological help and compensation programmes for the family members of any person who died as a result of having been inoculated with the product known as “Covid-19 vaccines.”

- **Pro covid vaccine doctor and cardiologist becomes anti covid vaccine based on the scientific and medical evidence**

### **Important Published Scientific papers by top Cardiologist in Britain in September 2022**

Curing the pandemic of misinformation on COVID-19 mRNA vaccines through real evidence-based medicine - Part 1

Dr. Aseem Malhotra, Cardiologist, Britain.

Journal of Insulin Resistance | Vol 5, No 1 | a71 | DOI: <https://doi.org/10.4102/jir.v5i1.71> | © 2022

Aseem Malhotra | This work is licensed under [CC Attribution 4.0](#)

Submitted: 10 June 2022 | Published: 26 September 2022

**Results:** In the non-elderly population the “number needed to treat” to prevent a single death runs into the thousands. Re-analysis of randomised controlled trials using the messenger ribonucleic acid (mRNA) technology suggests a greater risk of serious adverse events from the vaccines than being hospitalised from COVID-19. Pharmacovigilance systems and real-world safety data, coupled with plausible mechanisms of harm, are deeply concerning, especially in relation to cardiovascular safety. Mirroring a potential signal from the Pfizer Phase 3 trial, a significant rise in cardiac arrest calls to ambulances in England was seen in 2021, with similar data emerging from Israel in the 16–39-year-old age group.

**Conclusion:** It cannot be said that the consent to receive these agents was fully informed, as is required ethically and legally. A pause and reappraisal of global vaccination policies for COVID-19 is long overdue.

Curing the pandemic of misinformation on COVID-19 mRNA vaccines through real evidence-based medicine - Part 2

Dr. Aseem Malhotra, Cardiologist, Britain.

Journal of Insulin Resistance | Vol 5, No 1 | a72 | DOI: <https://doi.org/10.4102/jir.v5i1.72> | © 2022

Aseem Malhotra | This work is licensed under [CC Attribution 4.0](#)

Submitted: 10 June 2022 | Published: 26 September 2022

**Background:** Authorities and sections of the medical profession have supported unethical, coercive, and misinformed policies such as vaccine mandates and vaccine passports, undermining the

principles of ethical evidence-based medical practice and informed consent. These regrettable actions are a symptom of the 'medical information mess': The tip of a mortality iceberg where prescribed medications are estimated to be the third most common cause of death globally after heart disease and cancer.

**Aim:** To identify the major root causes of these public health failures.

**Methods:** A narrative review of both current and historical driving factors that underpin the pandemic of medical misinformation.

**Results:** Underlying causes for this failure include regulatory capture – guardians that are supposed to protect the public are in fact funded by the corporations that stand to gain from the sale of those medications. A failure of public health messaging has also resulted in wanton waste of resources and a missed opportunity to help individuals lead healthier lives with relatively simple – and low cost – lifestyle changes.

**Conclusion:** There is a strong scientific, ethical and moral case to be made that the current COVID vaccine administration must stop until all the raw data has been subjected to fully independent scrutiny. Looking to the future the medical and public health professions must recognise these failings and eschew the tainted dollar of the medical-industrial complex. It will take a lot of time and effort to rebuild trust in these institutions, but the health – of both humanity and the medical profession – depends on it.

Dr Malhotra says: "Pharmacovigilance systems and real-world safety data, coupled with plausible mechanisms of harm, are deeply concerning, especially in relation to cardiovascular safety.

Dr Malhotra stated

In all, nearly 500,000 adverse events had been reported to the Yellow Card system when Malhotra wrote this paper, which he points out is "unprecedented in the modern medical era and equals the total number of reports received in the first 40 years of the Yellow Card reporting system (for all medicines — not just vaccines) up to 2020."

#### **Informed Consent argument for the courts in Ireland and abroad**

"It cannot be said that the consent to receive these agents was fully informed, as is required ethically and legally."

"Authorities and sections of the medical profession have supported unethical, coercive and misinformed policies such as vaccine mandates and vaccine passports, undermining the principles of informed consent."

"These regrettable actions are a symptom of the 'medical misinformation mess'"

Dr. Malhotra says the covid19 vaccine “is causing serious adverse effects in 1 in 800” and needs to be withdrawn.

- **The real and nefarious reason for vaccinating children which has not been disclosed to the general public**

The Pfizer covid19 vaccine got emergency use authorisation and this gave the company liability protection under the Prep Act and Cares Act in the USA and similar laws in the EU. To get full approval for the vaccine and liability protection, the vaccine must be given to children, even if many children die or are injured or disabled by this vaccine. The evidence and facts show the covid vaccine causes a high and rising death rate for children and high rates of illness and disability. This serves profit interests, it does not serve the Public Interest and the Common Good. In fact it goes against the Public Interest and the Common Good.

- **More Evidence from Israeli government and scientists proves that the covid19 vaccines are unsafe and caused deaths, and serious illnesses and disabilities for many people**

Data, statistics, official reports, and government meetings with top scientists provide strong evidence that the covid19 vaccines were unsafe and caused deaths, and serious illnesses and disabilities for large numbers of people. The Israeli Ministry of Health (MoH) was informed by their own hand-selected outside expert group headed by Prof. Mati Berkowitz that the COVID vaccines are not as safe as the MoH had been claiming to the Israeli people. This is causing great concern for the Israeli government and health officials and scientists and medical doctors in Israel. Illegal attempts to cover up this have also been exposed. Dr. Steve Kirsch provides the facts and evidence in a scientific review at :

<https://stevekirsch.substack.com/p/exclusive-proof-that-the-top-israeli>

and a separate news report by an Israeli journalist confirms the above

- As of Sep 2, 2022, the vaccination rate in Israel is now just 2.4% according to official government sources. They used to be one of the world's most vaccinated countries. Today, very few people in Israel are considered to be vaccinated. If the vaccines are so beneficial, why has nearly the entire country shifted from extremely pro-vax to extremely anti-vax in such a short period of time?
- **Statistics and data showing 5 - 12 million people killed by the covid19 vaccines by August 2022. The high rate of excess mortality worldwide since 2021 corroborates this.**

Dr. Steve Kirsch and Matthew Crawford, statisticians and data analysts

- **Vaccine Ineffectiveness confirmed by official UKHSA statistics in England**

From data published by the UK Health Security Agency we are able to use the same calculation that was used to calculate the alleged 95% effectiveness of the Pfizer vaccine, to calculate the real-world effectiveness of the Covid-19 vaccines. All are in minus figures for effectiveness, then there is some short lived improvement in effectiveness due to boosters and then they become ineffective within weeks. This ineffectiveness worsens over time. This means the vaccines increase the risk of covid19 infections.

**Immune System Boost / Degradation among all Triple/Double Vaccinated

- **On COVID vaccines: why they cannot work, and irrefutable evidence of their causative role in deaths after vaccination**

by Dr. Sucharit Bhakdi, MD and Dr. Arne Burkhardt, MD

<https://doctors4covidethics.org/wp-content/uploads/2021/12/end-covax.pdf>

and

Bhakdi/Burkhardt pathology results show 93% of people who died after being vaccinated were killed by the vaccine

News reports at <https://stevekirsch.substack.com/p/bhakdiburkhardt-pathology-results>

- **Causality**

Dr. Michael Palmer and Dr. Sucharit Bhakdi at Doctors for Covid Ethics have set out what they deem “irrefutable proof of causality” that mRNA vaccines are causing vascular and organ damage. From studies and autopsy evidence the medical experts show:

1. mRNA vaccines don't stay at the injection site but instead travel throughout the body and accumulate in various organs;
2. mRNA-based Covid vaccines induce long-lasting expression of the SARS-CoV-2 spike protein in many organs;
3. Vaccine-induced expression of the spike protein induces autoimmune-like inflammation;

4. Vaccine-induced inflammation can cause grave organ damage, especially in vessels, sometimes with deadly outcome.

They explain that autopsy evidence shows that “the strong expression of spike protein in heart muscle after vaccination correlates with significant inflammation and tissue destruction”. They add that “vaccine-induced vascular damage will promote blood clotting, and clotting-related diseases such as heart attack, stroke, lung embolism are very common in the adverse events databases”.

<https://doctors4covidethics.org/vascular-and-organ-damage-induced-by-mrna-vaccines-irrefutable-proof-of-causality/>

- **80 young, fit, and healthy Canadian medical doctors died suddenly after being fully vaccinated with the covid19 vaccines from June 2021 to October 2022. This experimental covid19 vaccine was the common factor in all of these sudden deaths of young people. A leading medical doctor, Dr. William Makis, wrote 2 open letters about this to the Canadian Medical Association.**

Second Letter is at

<https://canadahealthalliance.org/wp-content/uploads/2022/10/deaths-doctors-80-canadian-william-makis-2022-10-15-CMA-Letter-FINAL.pdf>

also at [www.data-analytica.org/letter-canada.pdf](http://www.data-analytica.org/letter-canada.pdf)

First letter is at <https://canadahealthalliance.org/doctors-call-for-end-to-vaccine-mandates-in-healthcare-after-deaths-of-at-least-32-canadian-doctors-due-to-covid-vaccination/>

First letter cited below

Dear CMA Presidents **Dr. Alike Lafontaine** (2022-23) and **Dr. Katharine Smart** (2021-22)

**Re:** Sudden deaths of 32 young Canadian doctors since rollout of COVID-19 vaccines

CMA’s Mission Statement is: “*Empowering and caring for patients*”. CMA’s Vision Statement is: “*A vibrant profession and a healthy population*”. Since the rollout of COVID-19 Vaccines in Canada starting in December 2020, CMA has aggressively and unethically promoted the use of experimental COVID-19 Vaccines in populations where risks of serious vaccine injury far outweighed any potential benefits (including children of all ages, teens, pregnant women, healthy adults < age 70).

CMA also supported illegal and unscientific COVID-19 Vaccine mandates that were forced upon Canada’s 92,000 doctors by corrupt health bureaucrats. CMA did so in violation of its own **CMA Code**

**of Ethics**, and both of you participated in these ethics violations. You betrayed not only your physician members but the Canadian public that CMA serves. This is unprecedented in CMA's 155-year history.

I am attaching photos and information of 32 young Canadian doctors who died suddenly and unexpectedly in the past 16 months, all of whom were double, triple or quadruple COVID-19 vaccinated. Each of these deaths is highly suspicious for COVID-19 Vaccine Injury, as these previously healthy doctors died suddenly while engaging in regular physical activity, died unexpectedly in their sleep, suffered heart attacks, strokes, unusual accidents, or developed sudden onset aggressive cancers.

Pfizer and Moderna may not be legally liable for their defective pharmaceutical products, but in publicly promoting their forceful use on Canada's doctors, you are both legally liable, and so is CMA.

You cannot stay silent while illegally mandated COVID-19 Vaccines may be killing dozens of young Canadian doctors and putting thousands of doctors at high risk of severe injury and death. I am urging you to remember your ethics and Oath, and use your platform as Presidents of CMA to publicly call for the immediate termination of all COVID-19 Vaccine mandates in Canada's healthcare, and call for urgent Investigations and Public Inquiries into what is killing fully COVID-19 vaccinated young Canadian doctors.

Thank you,

Dr. William Makis MD, FRCPC

3 September, 2022

- **A video of an important debate in the House of Commons in Britain in November 2022 regarding deaths, illnesses and disabilities caused by the covid19 vaccines.**

This issue of covid19 vaccine deaths, injuries, illnesses and disabilities was the subject of debate in the House of Commons in Britain in November 2022. A few MP's have raised the issue of the high number of deaths, injuries, illnesses and disabilities caused by the covid19 vaccines in Britain and included mention of Coroners reports about this. International scientific findings on this were also presented to the British Parliament. For example, the Paul Eherlich Institute in Germany which monitors vaccines found 1 in 5000 people suffered a serious adverse effect after vaccination, and after a fourth dose of vaccine the rate is 1 in 1,250. And 1 in every 10 can expect a some adverse effect from taking the boosters. These are very high figures. This issue is of great interest to many MP's in the House of Commons as many of their constituents and voters are suffering the adverse effects and illnesses and deaths caused by these vaccines and we will be seeing major new laws, and legal and regulatory changes there to address these crimes.

### UK Government data confirms COVID Vaccination INCREASES risk of Death in all Age-Groups

The Office of National Statistics in the UK has released figures comparing all cause mortality for covid vaccinated against those who are unvaccinated. The all cause mortality for vaccinated is far higher than that for the unvaccinated. This is very significant.

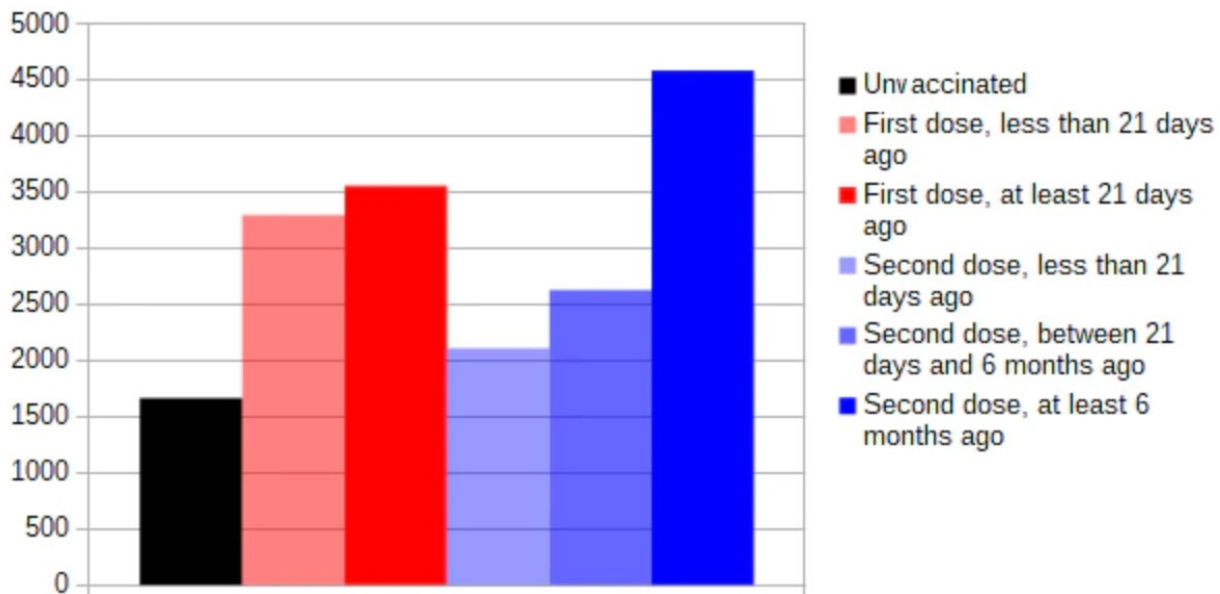

Source:

<https://www.ons.gov.uk/peoplepopulationandcommunity/birthsdeathsandmarriages/deaths/datasets/deathsbyvaccinationstatusengland>

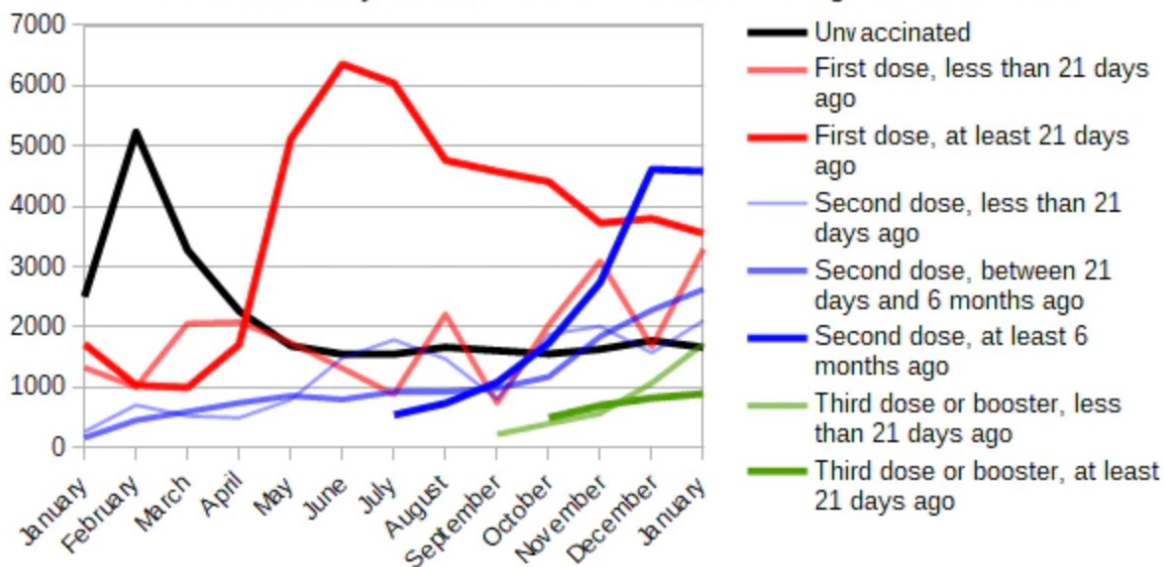

The charts below compare the covid19 vaccinated to the unvaccinated.

### All-Cause Mortality Annual Rate Per 100,000 - England January 2022

### All-Cause Mortality Annual Rate Per 100,000 - England 2021-2022

A news report about this at <https://expose-news.com/2022/10/09/gov-confirms-covid-vaccination-increases-risk-death/>

- **Pfizer trial data, released under a Federal Court order in 2022 show that 1,223 vaccinated people died and 42,000 vaccinated people suffered injuries, serious illnesses and disabilities within 90 days of vaccination. Most of these were young, healthy and fit people prior to being admitted to the Pfizer vaccine trial.**

Page 7 of the following Pfizer trial document -

[https://phmpt.org/wp-content/uploads/2022/04/reissue\\_5.3.6-postmarketing-experience.pdf](https://phmpt.org/wp-content/uploads/2022/04/reissue_5.3.6-postmarketing-experience.pdf)

## **V-Safe data from CDC released under Federal Court order in October 2022. Court case taken by Mr. Del Bigtree and the Informed Consent Network in the USA.**

This data can be accessed on <https://www.icandecide.org/v-safe-data/>

The V-Safe data from the CDC has records of 10 million people who received the covid19 vaccines in the USA. Information was transferred by phone app or computer app to the CDC and stored on their databases and on an Oracle database. This data was released under a Federal Court order in October 2022. The Court case taken by Mr. Del Bigtree and the Informed Consent Network in the USA. The CDC had planned never to release this data to the general public as the findings are quite shocking and it would expose too many inconvenient truths.

These are the main findings of this V-Safe data:

33% suffered serious adverse effects after vaccination

1.2 million people unable to perform normal daily activities. That is 12% or 1 in 8 unable to perform normal daily activities.

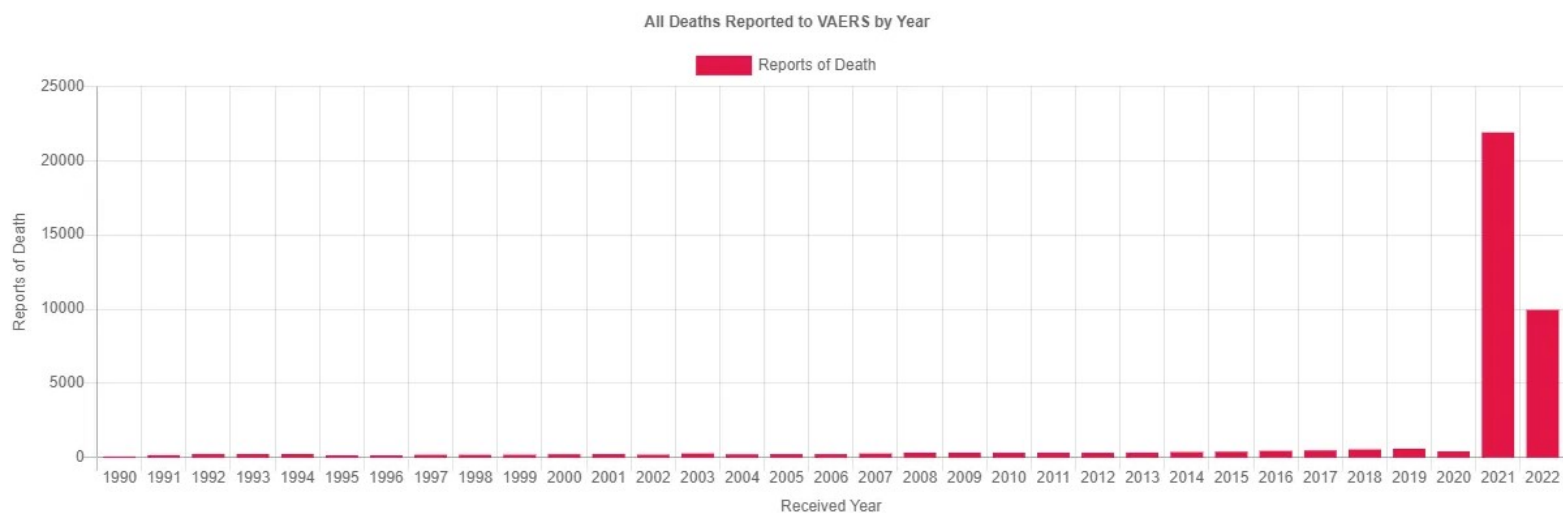

782,913 or 7.8% or 1 in 13 required medical care or hospitalization

1.34 million people, that is 13.4% or 1 in 7 of those vaccinated missed work or school due to adverse reactions.

An estimated 230 million Americans received at least one dose of the vaccine. When one applies the V-Safe figures to this covid vaccinated population we get 76.6 million people suffering serious adverse effects, and 17.9 million people requiring hospitalisation or medical care, and 27 million people unable to perform daily activities. These are truly shocking figures. We can see now why the CDC and other health authorities in other countries tried desperately to cover up all of this. This evidence here clearly shows that the covid vaccines were NOT safe and corroborates the VAERS data and other government databases around the world.

- **Can the Court Judges and the lawyers and barristers of the court and the government officials and the general public spot the most dangerous vaccine in modern history ?**

The VAERS chart from the CDC below shows deaths from all vaccines since 1990. There was a massive increase in deaths in 2021 and 2022 immediately after covid19 vaccinations.

## VAERS COVID Vaccine Adverse Event Reports

data

1,447,520 Reports Through October 21, 2022 <sup>?</sup>

Sources: VAERS of CDC and <https://openvaers.com/>

### VAERS data is under reported by a factor of 10 to 100 according to scientific studies

The VAERS system is a US Government vaccine monitoring system which tracks vaccine deaths and injuries in the USA. This system identifies 10% of vaccine deaths and 1% of vaccine caused injuries, side effects, disabilities and new illnesses according to a Harvard Medical School study in 2010.

' Adverse events from drugs and vaccines are common, but underreported. Although 25% of ambulatory patients experience an adverse drug event, less than 0.3% of all adverse drug events and 1 - 13% of serious events are reported to the Food and Drug Administration (FDA). Likewise, fewer than 1% of vaccine adverse events are reported. Low reporting rates preclude or slow the identification of "problem" drugs and vaccines that endanger public health. New surveillance methods for drug and vaccine adverse effects are needed.'

Harvard Medical School study 2010

Source: [Electronic Support for Public Health–Vaccine Adverse Event Reporting System \(ESP:VAERS\)](#) and <https://digital.ahrq.gov/ahrq-funded-projects/electronic-support-public-health-vaccine-adverse-event->

[reporting-system/final-report](#)

This scientific research by Harvard University Medical School means Reports to VAERS will need to be multiplied by 100 and that deaths and serious injuries / disabilities / new illnesses multiplied by 10 to get accurate statistics for injuries and deaths caused by covid19 vaccines in the USA.

A recent scientific study on the covid19 vaccines found anaphylaxis occurred at a rate of 2.47 per 10, 000 vaccinations which is 247 per million and is 10 times higher than officially reported.

Source: <https://jamanetwork.com/journals/jama/fullarticle/2777417>

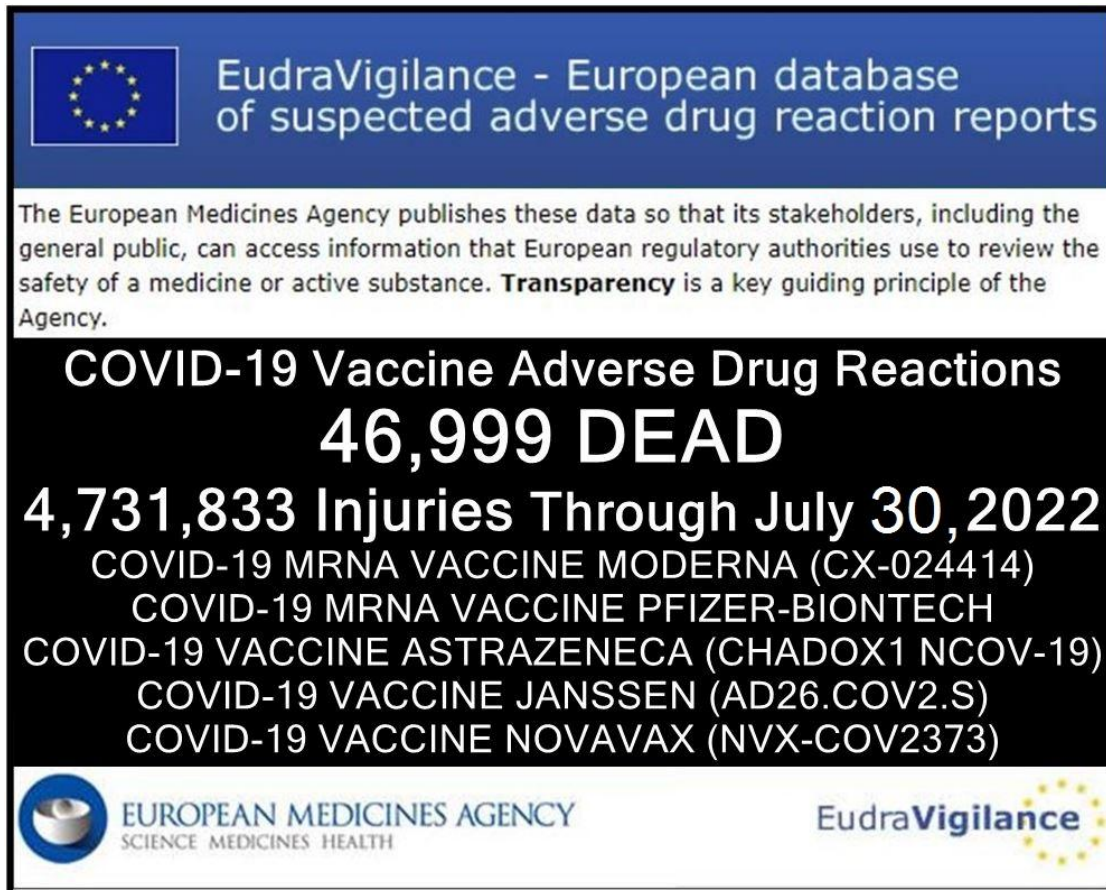

A scientific study by Dr. Jessica Rose and Mathew Crawford and Steve Kirsch in the USA found in 2021 that there is under-reporting to VAERS and the most credible estimate for deaths and illnesses is 41 times the rate reported to VAERS. This means the real figures are 41 times higher. This gives 7.2 million hospitalisations, 1.2 million deaths, 2.3 million permanently disabilities and 2.1 million cases of myocarditis. Underreporting factor of 41 is scientifically presented on

<https://www.skirsch.com/covid/Deaths.pdf>

EudraVigilance

- Statistics from the MHRA system in Britain which tracks covid19 vaccine deaths, injuries, illnesses and disabilities shows 1,517,540 injuries, illnesses and disabilities, many of them serious. The total number of deaths reported is 2,272. There are over 100,000 people with new illnesses or disabilities as a result of these vaccines in Britain. This is truly shocking. Up to September 28th, 2022 the MHRA reports a total of 4,459 adverse events for children, comprising 4,121 Pfizer, 266 AstraZeneca, 37 Moderna . This includes 83 reported cases with Pfizer of myocarditis/pericarditis, suggesting a current reported risk of 12 cases per million for first doses and 9 per million for second dose for this age group.

- **COVID-19 Vaccines Proven to Cause More Harm than Good Based on Pivotal Clinical Trial Data Analyzed Using the Proper Scientific Endpoint, “All Cause Severe Morbidity”**

Dr. Classen MD

<https://www.scivisionpub.com/pdfs/us-covid19-vaccines-proven-to-cause-more-harm-than-good-based-on-pivotal-clinical-trial-data-analyzed-using-the-proper-scientific--1811.pdf>

- **Eurostat an official body of the European Union found an excess mortality of 16% for 2022 in the EU. The excess mortality for Europe ranges from 10% to 55% for 2022. The data shows low excess mortality for lowly covid vaccinated countries and high excess mortality figures for highly covid vaccinated countries**

‘ Excess mortality in the EU climbed to +16% in July 2022 from +7% in both June and May. This was the highest value on record so far in 2022, amounting to around 53,000 additional deaths in July this

year compared with the monthly averages for 2016-2019. This was an unusually high value for this month.'

Source: <https://ec.europa.eu/eurostat/web/products-eurostat-news/-/ddn-20220916-1>

### **High Excess Mortality in EU countries with high covid19 vaccination rates**

Ireland + 16.3%  
Iceland, + 55.8%  
Spain +37%  
Cyprus +33%  
Greece +31%  
Portugal +28.8%  
Switzerland +25.9%  
Italy + 24.9  
Austria + 17.5%  
Slovenia + 16.5%  
Germany +15.2  
Norway + 14.8%  
Netherlands + 14.7%  
Croatia + 14.6%  
France + 14.1%  
Estonia + 12.3%  
Luxemburg + 11.%%  
Denmark +10.3%

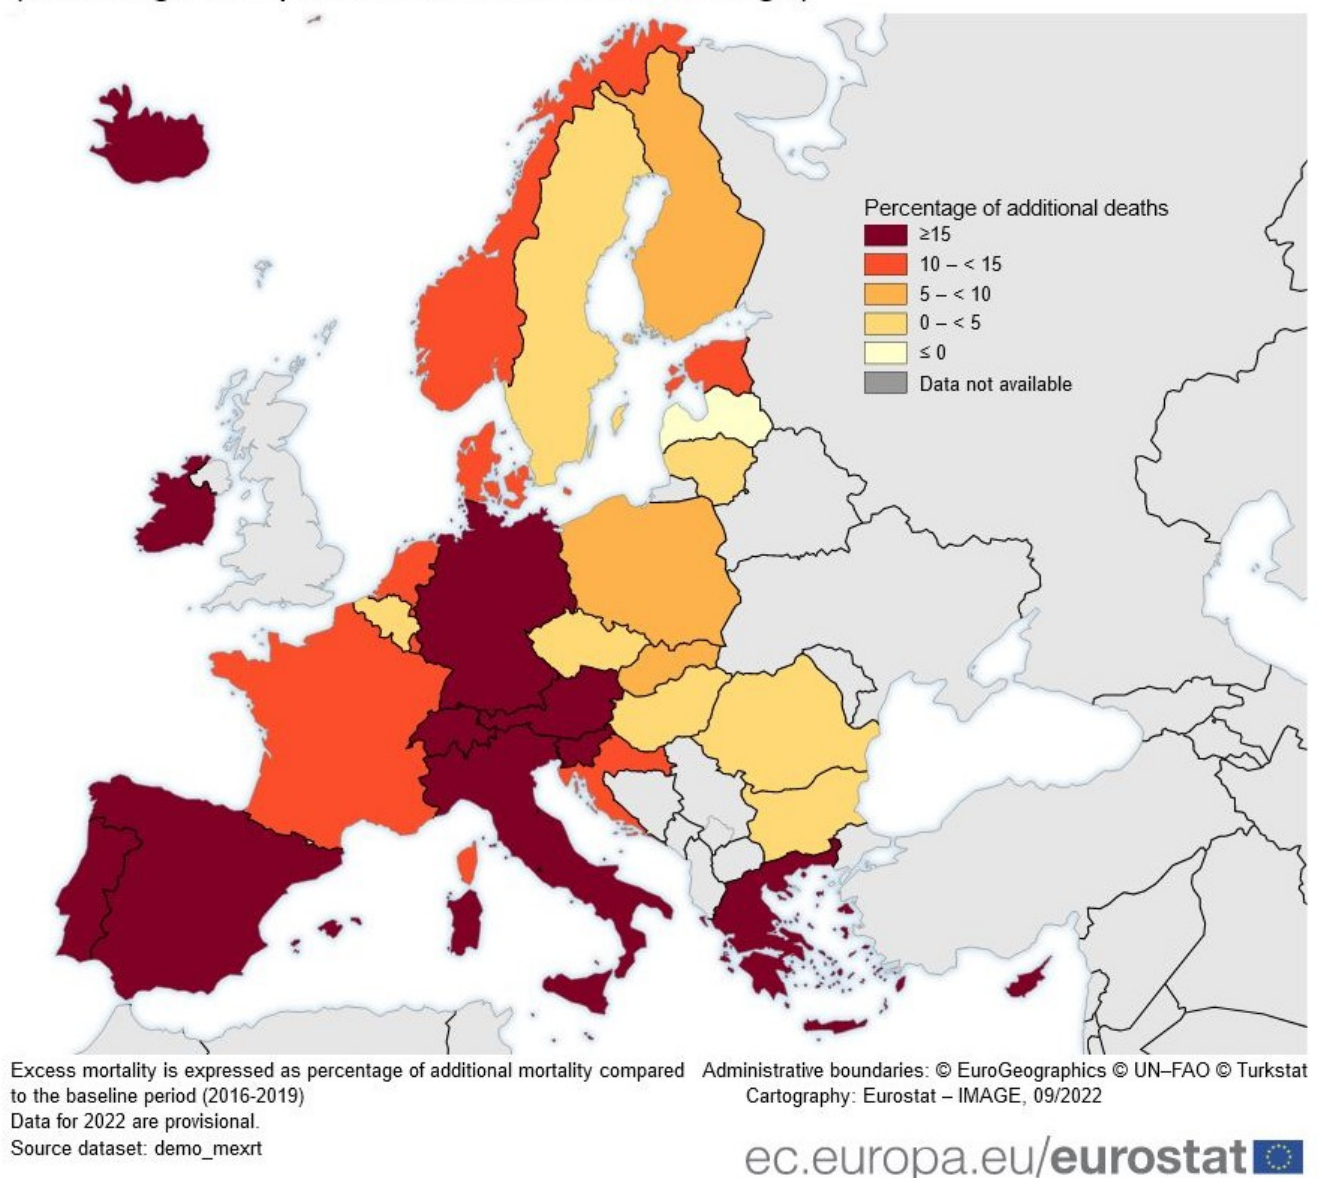

### **Very Low Excess Mortality in countries with very low covid19 vaccination rates**

Bulgaria + 1.4%  
Romania + 2.4%

Chart below illustrates this point

## Excess Mortality in July 2022

(% change compared with 2016-2019 average)

In August 2022, the excess mortality in Ireland rose to 16.8% according to Eurostat

[https://ec.europa.eu/eurostat/statistics-explained/index.php?title=Excess mortality - statistics](https://ec.europa.eu/eurostat/statistics-explained/index.php?title=Excess_mortality_statistics)

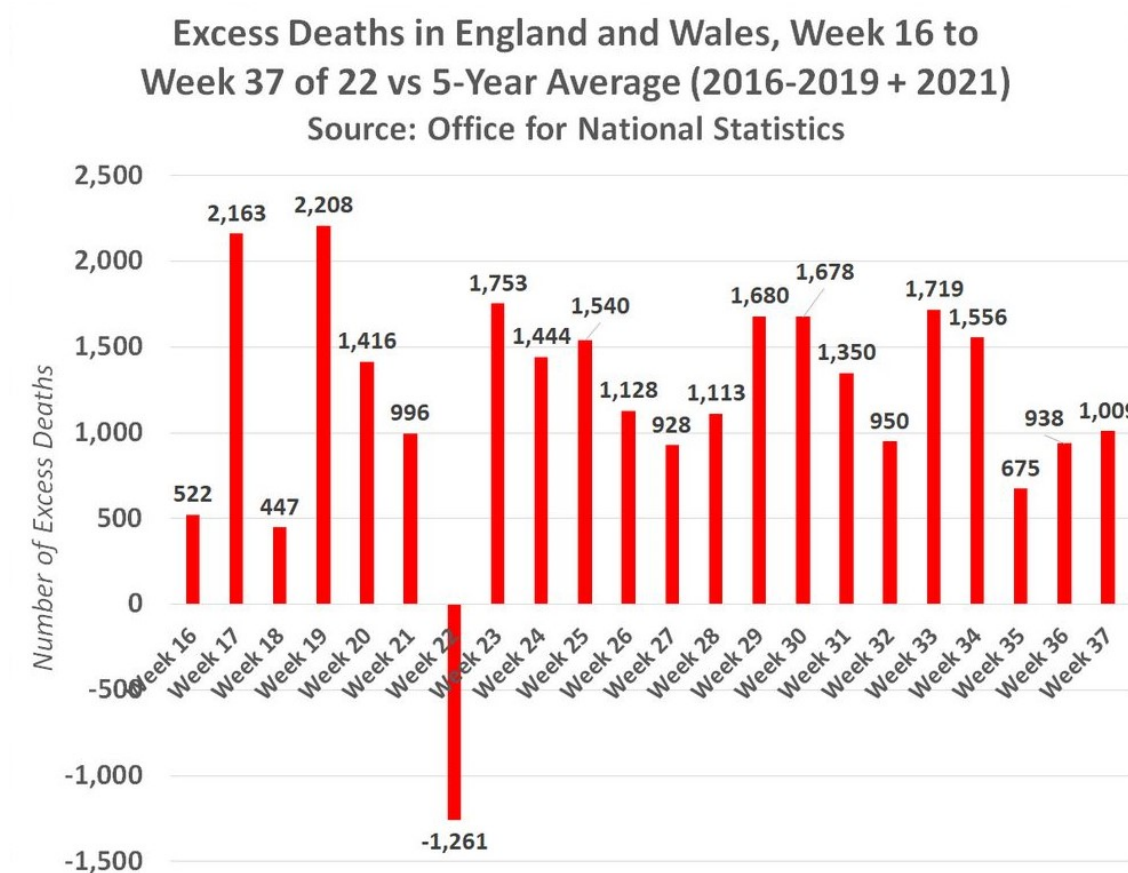

In November 2021, the excess mortality across the EU was 26% according to Eurostat. This corresponds to the rollout of covid19 vaccines from Spring 2021 onwards

[https://ec.europa.eu/eurostat/statistics-explained/index.php?title=Excess mortality - statistics](https://ec.europa.eu/eurostat/statistics-explained/index.php?title=Excess_mortality_statistics)

### British Excess Mortality figures for 2022 corroborates this rise in excess mortality in the EU and EU countries

The only week England and Wales did not record any excess deaths in the 22 weeks between 16th April and 16th September is week 22. This is most likely due to underreporting of deaths due to this

week being the extended bank holiday weekend for the late Queen Elizabeth II's Platinum Jubilee.  
25,952 excess deaths in total. Over 12% increase in excess mortality so far this year.

Source: Office of national Statistics (ONS) in Britain

<https://www.ons.gov.uk/visualisations/dvc2161/fig1/datadownload.xlsx>

- **Statistical Evidence shows that 1 in every 73 vaccinated people died after getting the vaccine in the UK. The comparable figure for the unvaccinated is 1 in 172.**

606,537 vaccinated people died from all causes after getting the covid19 vaccine.

Source:

<https://www.ons.gov.uk/peoplepopulationandcommunity/birthsdeathsandmarriages/deaths/datasets/deathsbyvaccinationstatusengland>

and 44.4 million people got at least one dose of the covid19 vaccine

Source:

[https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment\\_data/file/1088929/Weekly\\_Flu\\_and\\_COVID-19\\_report\\_w27.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/1088929/Weekly_Flu_and_COVID-19_report_w27.pdf)

This means that 1 in every 73 vaccinated people died after getting the vaccine in the UK. This includes those people who died of covid vaccine injuries and illnesses caused by the vaccine and those who died of covid19 and all other causes.

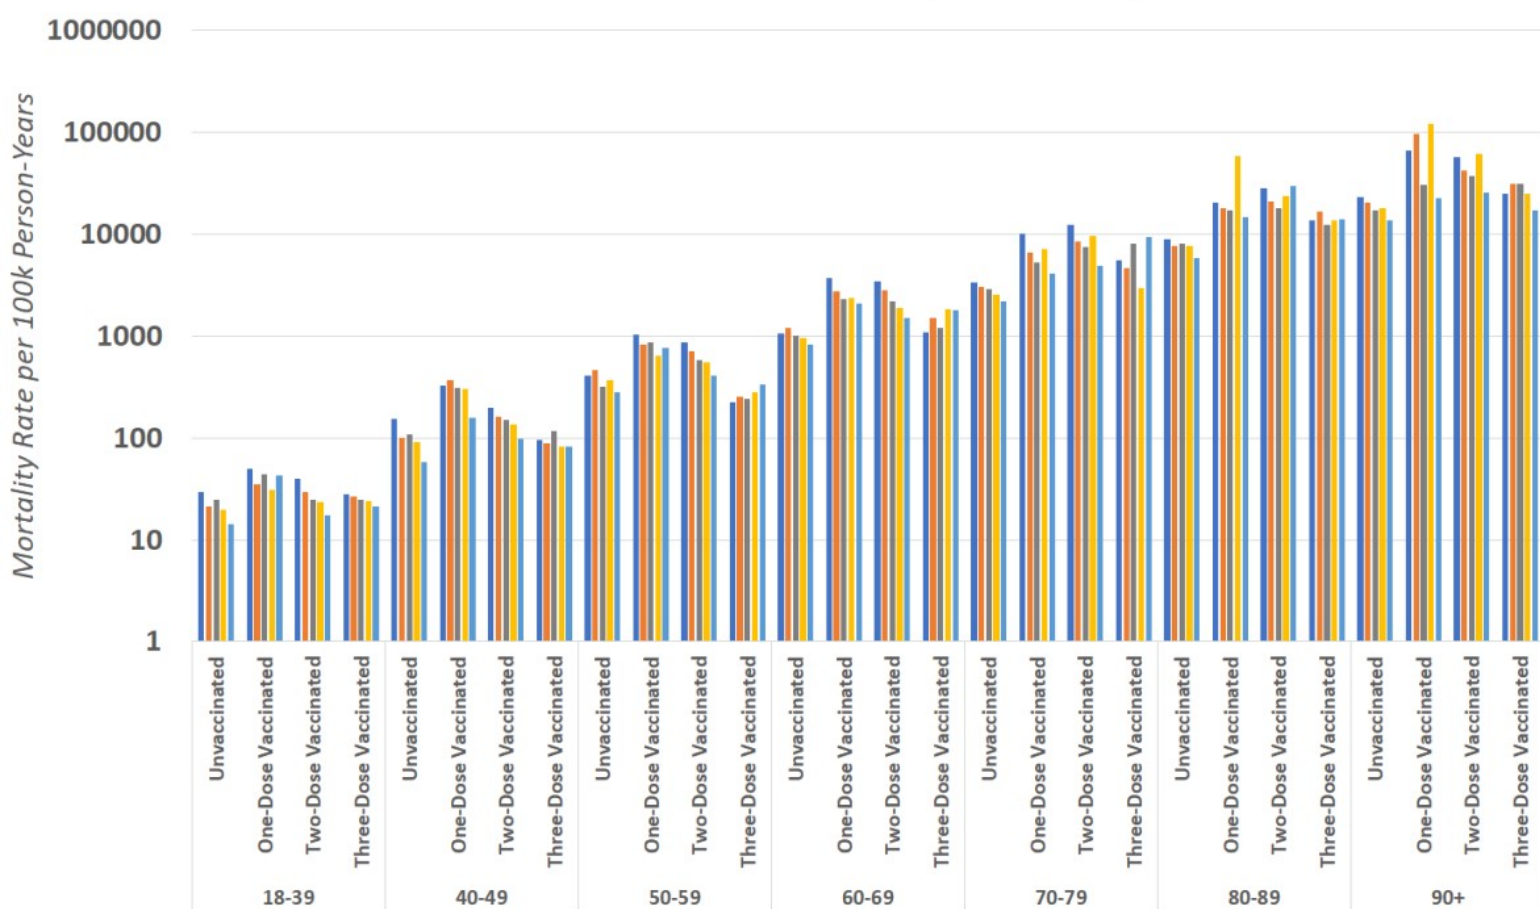

- **More evidence shows the unvaccinated are less likely to die of than the unvaccinated**

Statistics released by the Office of National Statistics in the UK clearly show the unvaccinated are less likely to die across all age groups

## Monthly Age-Standardised Mortality Rates by Vaccination Status by Age Group for Non-Covid-19 Deaths in England January to May 2022

Source: (UK Gov.) Office for National Statistics

■ Jan ■ Feb ■ March ■ April ■ May

**Sources:** Office of National Statistics in UK

<https://www.ons.gov.uk/peoplepopulationandcommunity/birthsdeathsandmarriages/deaths/datasets/deathsbyvaccinationstatusengland> and

<https://www.ons.gov.uk/file?uri=/peoplepopulationandcommunity/birthsdeathsandmarriages/deaths/datasets/deathsbyvaccinationstatusengland/deathsoccurringbetween1january2021and31may2022/referencetable06072022accessible.xlsx>

and <https://expose-news.com/2022/10/16/covid-jab-killing-millions-gov-knew-it-would-happen/>

Other sections of this book of evidence and other books show that 8 or 9 out of 10 deaths are among the covid vaccinated.

- **9 in every 10 covid19 deaths in UK are covid vaccinated people**

According to the Office for National Statistics between 1st January 2022 and 31st May 2022, the vaccinated population accounted for 9 in every 10 Covid-19 deaths, and 91% of those deaths were among the triple/quadruple vaccinated.

Sources:

<https://www.ons.gov.uk/file?uri=/peoplepopulationandcommunity/birthsdeathsandmarriages/deaths/datasets/deathsbyvaccinationstatusengland/deathsoccurringbetween1january2021and31may2022/referencetable06072022accessible.xlsx>

and

<https://www.ons.gov.uk/peoplepopulationandcommunity/birthsdeathsandmarriages/deaths/dataset/deathsbyvaccinationstatusengland>

- According to the Office of National Statistics in the UK, 62,000 people died within 48 days of receiving the third dose of the covid19 vaccine in Britain in 2022.

**Source:** Office of National Statistics, UK

<https://www.ons.gov.uk/file?uri=/peoplepopulationandcommunity/healthandsocialcare/healthandlifeexpectancies/datasets/characteristicsassociatedwiththeriskofdeathinvolvingcoronaviruscovid19amongpeopleceivingaboostervaccinationenglandjanuarytomarch2022/current/referencetable08092022accessible.xlsx>

- **Evidence of autoimmune disease where immune system attacks the organs and causes death in covid19 vaccinated people**

A German doctor, Professor Peter Schirmacher, investigated forty autopsies of people who died within two weeks of covid-19 vaccination. He showed microscopic details of severe tissue damage caused by the vaccines; he concluded that one-third of the people died from the vaccination directly, either via cerebral vein thrombosis or autoimmune diseases.

Source: <https://freewestmedia.com/2021/08/03/german-chief-pathologist-sounds-alarm-on-fatal-vaccine-injuries/>

German pathology professors Arne Burkhardt and Walter Lang held a press conference presenting ten autopsies of people who died shortly after taking Covid-19 vaccines. The pathologists pinpoint the occurrence of a “lymphocyte riot” among the ten autopsied bodies. The pathologists found an obscene number of lymphocytes in several tissues, including the liver, kidneys, spleen, and uterus. The lymphocytes aggressively attacked the tissue in these organs, causing organ damage.

Source: <https://pathologie-konferenz.de/en/> and news report at <https://freewestmedia.com/2021/09/22/lymphocyte-riot-pathologists-investigate-deaths-after-corona-vaccination/>

The Pfizer vaccine trial documents released under Federal court order in 2022 show that autoimmune disease was identified in the trial and there were serious concerns about it. These facts were not revealed to the general public. And many other relevant facts were not revealed to the general public. This meant informed consent was not possible from a legal perspective.

**Table 5. Important Potential Risk**

Topic	Description
<b>Important Potential Risk</b>	<b>Post Authorization Cases Evaluation (cumulative to 28 Feb 2021) Total Number of Cases in the Reporting Period (N=42086)</b>
Vaccine-Associated Enhanced Disease (VAED), including Vaccine-Associated Enhanced Respiratory Disease (VAERD)	<p>No post-authorized AE reports have been identified as cases of VAED/VAERD, therefore, there is no observed data at this time. An expected rate of VAED is difficult to establish so a meaningful observed/expected analysis cannot be conducted at this point based on available data. The feasibility of conducting such an analysis will be re-evaluated on an ongoing basis as data on the virus grows and the vaccine safety data continues to accrue.</p> <p>The search criteria utilised to identify potential cases of VAED for this report includes PTs indicating a lack of effect of the vaccine and PTs potentially indicative of severe or atypical COVID-19<sup>a</sup>.</p> <p>Since the first temporary authorization for emergency supply under Regulation 174 in the UK (01 December 2020) and through 28 February 2021, 138 cases [0.33% of the total PM dataset], reporting 317 potentially relevant events were retrieved:</p> <p>Country of incidence: UK (71), US (25), Germany (14), France, Italy, Mexico, Spain, (4 each), Denmark (3); the remaining 9 cases originated from 9 different countries;</p> <p>Cases Seriousness: 138;</p> <p>Seriousness criteria for the total 138 cases: Medically significant (71, of which 8 also serious for disability), Hospitalization required (non-fatal/non-life threatening) (16, of which 1 also serious for disability), Life threatening (13, of which 7 were also serious for hospitalization), Death (38).</p> <p>Gender: Females (73), Males (57), Unknown (8);</p> <p>Age (n=132) ranged from 21 to 100 years (mean = 57.2 years, median = 59.5);</p> <p>Case outcome: fatal (38), resolved/resolving (26), not resolved (65), resolved with sequelae (1), unknown (8);</p> <p>Of the 317 relevant events, the most frequently reported PTs (<math>\geq 2\%</math>) were: Drug ineffective (135), Dyspnoea (53), Diarrhoea (30), COVID-19 pneumonia (23), Vomiting (20), Respiratory failure (8), and Seizure (7).</p> <p>Conclusion: VAED may present as severe or unusual clinical manifestations of COVID-19. Overall, there were 37 subjects with suspected COVID-19 and 101 subjects with confirmed COVID-19 following one or both doses of the vaccine; 75 of the 101 cases were severe, resulting in hospitalisation, disability, life-threatening consequences or death. None of the 75 cases could be definitively considered as VAED/VAERD.</p> <p>In this review of subjects with COVID-19 following vaccination, based on the current evidence, VAED/VAERD remains a theoretical risk for the vaccine. Surveillance will continue.</p>

Source: [https://phmppt.org/wp-content/uploads/2022/04/reissue\\_5.3.6-postmarketing-experience.pdf](https://phmppt.org/wp-content/uploads/2022/04/reissue_5.3.6-postmarketing-experience.pdf)

Pfizer writes in the description section that –

‘an expected rate of VAED is difficult to establish so a meaningful observed / expected analysis cannot be conducted at this point based on available data. The feasibility of conducting such an analysis will be re-evaluated on an ongoing basis as data on the virus grows and the vaccine safety data continues to accrue’.

There was no re-evaluation done. There was a cover up of these facts.

BNT162b2

### 5.3.6 Cumulative Analysis of Post-authorization Adverse Event Reports

**Table 7. AESIs Evaluation for BNT162b2**

AESIs <sup>a</sup> Category	Post-Marketing Cases Evaluation <sup>b</sup> Total Number of Cases (N=42086)
	2021). Study C4591021, pending protocol endorsement by EMA, is also intended to inform this risk.
<b>Immune-Mediated/Autoimmune AESIs</b> <i>Search criteria: Immune-mediated/autoimmune disorders (SMQ) (Broad and Narrow) OR Autoimmune disorders HLGT (Primary Path) OR PTs Cytokine release syndrome; Cytokine storm; Hypersensitivity</i>	<ul style="list-style-type: none"> <li>• Number of cases: 1050 (2.5 % of the total PM dataset), of which 760 medically confirmed and 290 non-medically confirmed;</li> <li>• Country of incidence (&gt;10 cases): UK (267), US (257), Italy (70), France and Germany (69 each), Mexico (36), Sweden (35), Spain (32), Greece (31), Israel (21), Denmark (18), Portugal (17), Austria and Czech Republic (16 each), Canada (12), Finland (10). The remaining 74 cases were from 24 different countries.</li> <li>• Subjects' gender (n=682): female (526), male (156).</li> <li>• Subjects' age group (n=944): Adult (746), Elderly (196), Adolescent (2).</li> <li>• Number of relevant events: 1077, of which 780 serious, 297 non-serious.</li> <li>• Most frequently reported relevant PTs (&gt;10 occurrences): Hypersensitivity (596), Neuropathy peripheral (49), Pericarditis (32), Myocarditis (25), Dermatitis (24), Diabetes mellitus and Encephalitis (16 each), Psoriasis (14), Dermatitis Bullous (13), Autoimmune disorder and Raynaud's phenomenon (11 each);</li> <li>• Relevant event onset latency (n = 807): Range from &lt;24 hours to 30 days, median &lt;24 hours.</li> <li>• Relevant event outcome<sup>1</sup>: resolved/resolving (517), not resolved (215), fatal (12), resolved with sequelae (22) and unknown (312).</li> </ul> <p>Conclusion: This cumulative case review does not raise new safety issues. Surveillance will continue</p>

Source: [https://phmpt.org/wp-content/uploads/2022/04/reissue\\_5.3.6-postmarketing-experience.pdf](https://phmpt.org/wp-content/uploads/2022/04/reissue_5.3.6-postmarketing-experience.pdf)

- **Massive Blood Clots or Bio-structures continue to be found in dead covid vaccinated people by Embalmers and Scientists. These are only found in covid vaccinated people and were first seen in 2021.**

In an exclusive interview with RAIR Foundation USA, an Alabama-based embalmer and licensed funeral director revealed a massive increase in strange blood clots found in the bodies that he is now embalming.

<https://rairfoundation.com/embalmer-sounds-alarm-massive-increase-in-strange-blood-clots-and-cancer-its-not-normal-its-drastic-exclusive-interview/>

Pictures of blood clots removed from dead bodies of covid vaccinated people by Hirschman (Embalmer) and Adams (Scientist) and O'Looney (Funeral Director). Also being found by other Embalmers and Scientists. See news reports below.

News interviews at <https://www.bitchute.com/video/PxgZt4AYrqKs/>

and <https://forbiddenknowledge.tv/microscopic-video-of-engineered-bio-structures-removed-from-blood-vessels/>

and

SARS-CoV-2 Vaccination and Myocarditis in a Nordic Cohort Study of 23 Million Residents

Husby et al. 2022

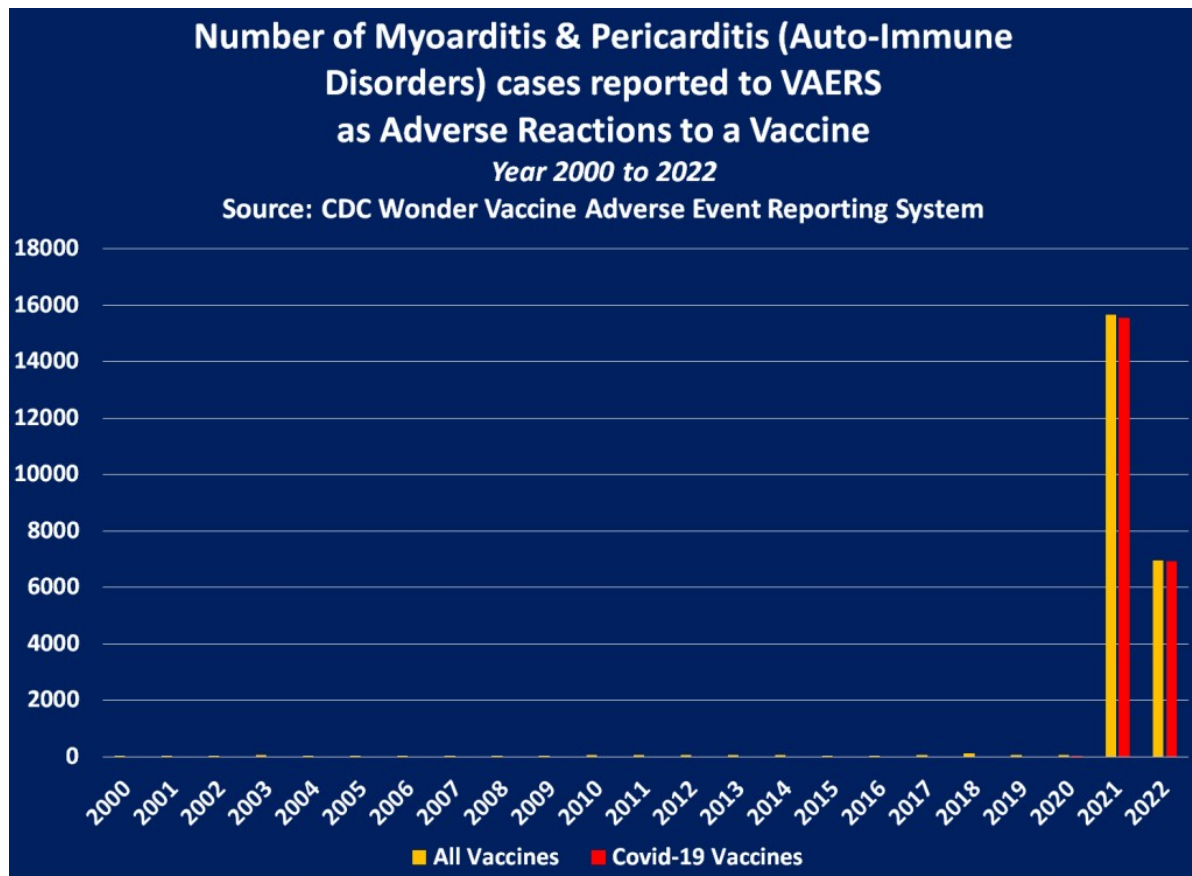

<https://jamanetwork.com/journals/jamacardiology/fullarticle/2791253>

Risk of hospitalization is 28 times higher for vaccinated men.

A recent case report in *Vaccines* of an autopsy conducted on a 76-year-old man who died three weeks after receiving his third COVID-19 vaccination confirms the role of the vaccine.

<https://www.mdpi.com/2076-393X/10/10/1651>

Covid19 vaccines are causing more cases of myocarditis and pericarditis than all the other vaccines combined in the last 22 years.

- **European Society of Cardiology - Subclinical Myocarditis and heart damage after covid19 vaccination presented by Dr. Christian Mueller**

<https://esc365.escardio.org/presentation/255414?query=myocardial%20injury%20after%20mrna>

and news report at

[https://www.youtube.com/watch?v=vveMHtVk\\_mY](https://www.youtube.com/watch?v=vveMHtVk_mY)

New evidence has emerged that the mRNA COVID-19 vaccines are routinely injuring the heart of all vaccine recipients, raising further questions about their safety and their role in the recent elevated levels of heart-related deaths. The latest evidence comes in a study from Switzerland, which found elevated troponin levels – indicating heart injury – across all vaccinated people, with 2.8% showing levels associated with subclinical myocarditis.

- The NHS is at breaking point – and it's about to get worse

**10 November 2022, The Spectator**

<https://www.spectator.co.uk/article/the-nhs-is-at-breaking-point-and-its-about-to-get-worse/>

**Vaccine injuries, illnesses, disabilities and deaths in Britain are creating a massive crisis for the NHS there.**

In 2022, the HSE and hospitals in Ireland experienced a record number of accident and emergency admissions, people stuck on trolleys, new hospital admissions and massive waiting lists. As covid19

vaccine injuries, illnesses and disabilities and deaths increase, the hospital situation will continue to worsen, creating a new crisis.

More than 100,000 patients have gone without beds in Irish hospitals so far this year. In analysis released on Tuesday, 8<sup>th</sup> November 2022, the INMO said **more than 1,903 children have been waiting on trolleys in hospitals**. This is the earliest in the year that this high number of admitted patients has ever been recorded, according to the INMO. The INMO has been warning of unprecedented overcrowding in 2022 since early summer. So this is strong evidence that Irish children are suddenly and unexpectedly being struck down with new illnesses and disabilities requiring hospital attention and the hospitals themselves are swamped with a high and unprecedented number of admissions. This is now a national disaster and the grim and devastating effects of these vaccines are making themselves known.

This is from breakingnews.ie on 8<sup>th</sup> November 2022 and is on their web site at

- New UK government data shows the COVID vaccines kill more people than they save

<https://stevekirsch.substack.com/p/uk-government-data-shows-nobody-should>

Risk-Benefit analysis table below

Age group	Risk/benefit
10-14	1600.8
15-19	44.6
20-24	18.8
25-29	15.0
30-34	*
35-39	4.8
40-44	*
45-49	4.8
50-54	2.7
55-59	4.0
60-64	3.4
65-69	2.5
70-74	2.0
75-79	1.2

Figure 1. Risk/benefit determination from the UK data shows that for all ages, the vaccines kill more people than they save. A value of 15 means we kill 15 people from the vaccine to save 1 life from COVID.

- US Government statistics show a huge spike in pulmonary embolisms which are over 1,000 times above normal since January 2021 when covid19 vaccinations began

<https://stevekirsch.substack.com/p/the-cdc-knew-in-january-2021-that>

- Minnesotans share horror stories of alleged COVID-19 vaccine injuries in State Capitol

<https://www.youtube.com/watch?v=tNuvsl67tmw>

- Sepsis and covid19 vaccines

Data released from the Pfizer vaccine trial shows an increased risk of sepsis in vaccinated people compared to unvaccinated people and the general public. The risk is increased by 20 times. Sepsis normally accounts for 1.1 to 1.3 of all deaths. In the covid 19 vaccine trial it accounted for 23%. The high rate of blood clots and heart and circulatory disorders and immune dysfunctions found in covid19 vaccinated people may play a role in this.

Pfizer Phase I-II-III Trial Group	21,926 doubly vaxxed	%	21,921 unvaxxed	%	21,923 randomised population	%
Deaths from all causes during 6 months trial	17	100%	19	100%	111.2	100%
Death from all vaccine relevant causes.	15	88.2%	14	73.7%		
Covid-19 deaths	1	5.9%	2	10.5%	11.4	10.3%
Cardiovascular deaths (Heart Disease + Stroke) - C	9	52.9%	5	26.3%	22.9 + 5.3 = 28.2	20.6% + 4.7% = 25.3%
Sepsis deaths - I	4	23.5%	0	0%	1.3	1.1%

- **Cancers and the covid19 vaccines**

Scientific evidence that COVID-19 mRNA “Vaccines” cause Cancer

<https://expose-news.com/2022/08/02/the-covid-19-mrna-vaccines-cause-cancer/>

and

Dr. Ute Kruger is a researcher and senior physician at Lunds University in Sweden. She’s the former Chief of Pathology, a field that she’s worked in for the last 25 years, with a specialty in breast cancer diagnosis for the past 18 years. She’s studied thousands of autopsies and breast cancer samples. She has noticed an increase in cancers including new and aggressive cancers among the covid19 vaccinated in 2021 and 2022.

<https://rumble.com/v1do1rb-covid-vaccination-and-turbo-cancer-pathological-evidence-with-english-subti.html>

and <https://etana.substack.com/p/turbo-cancer>

### **Cancer statistics for covid19 vaccinated VS flu vaccinated**

A quick search of the [CDC VAERS database](#) on the number of cancer cases reported as adverse reactions to the Covid-19 injections since they were first rolled out in the USA, reveals that from December 2020 up to 5th August 2022, a total of 2,579 adverse events related to cancer were made in just 1 year and 8 months.

Source: VAERS, CDC and Our World in Data

<https://wonder.cdc.gov/controller/datarequest/D8;jsessionid=A8D352B5CD270809AAD44783F2EB>

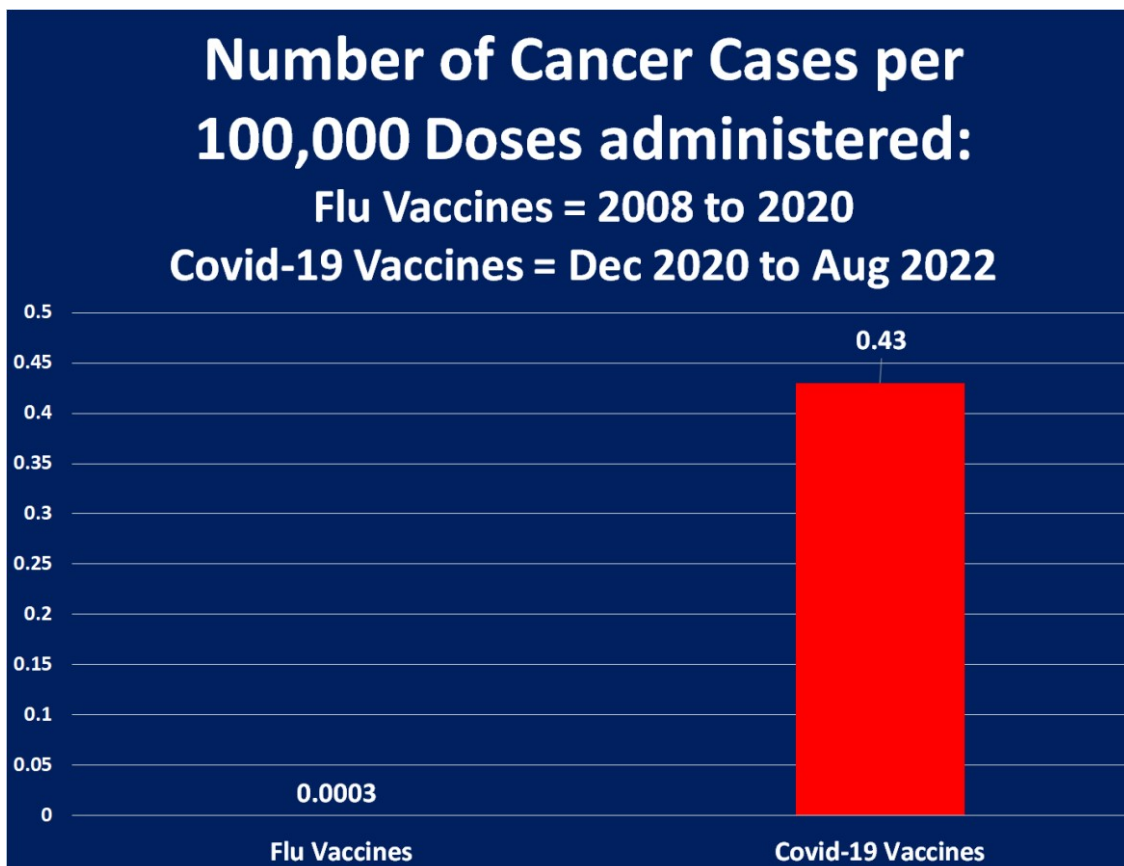

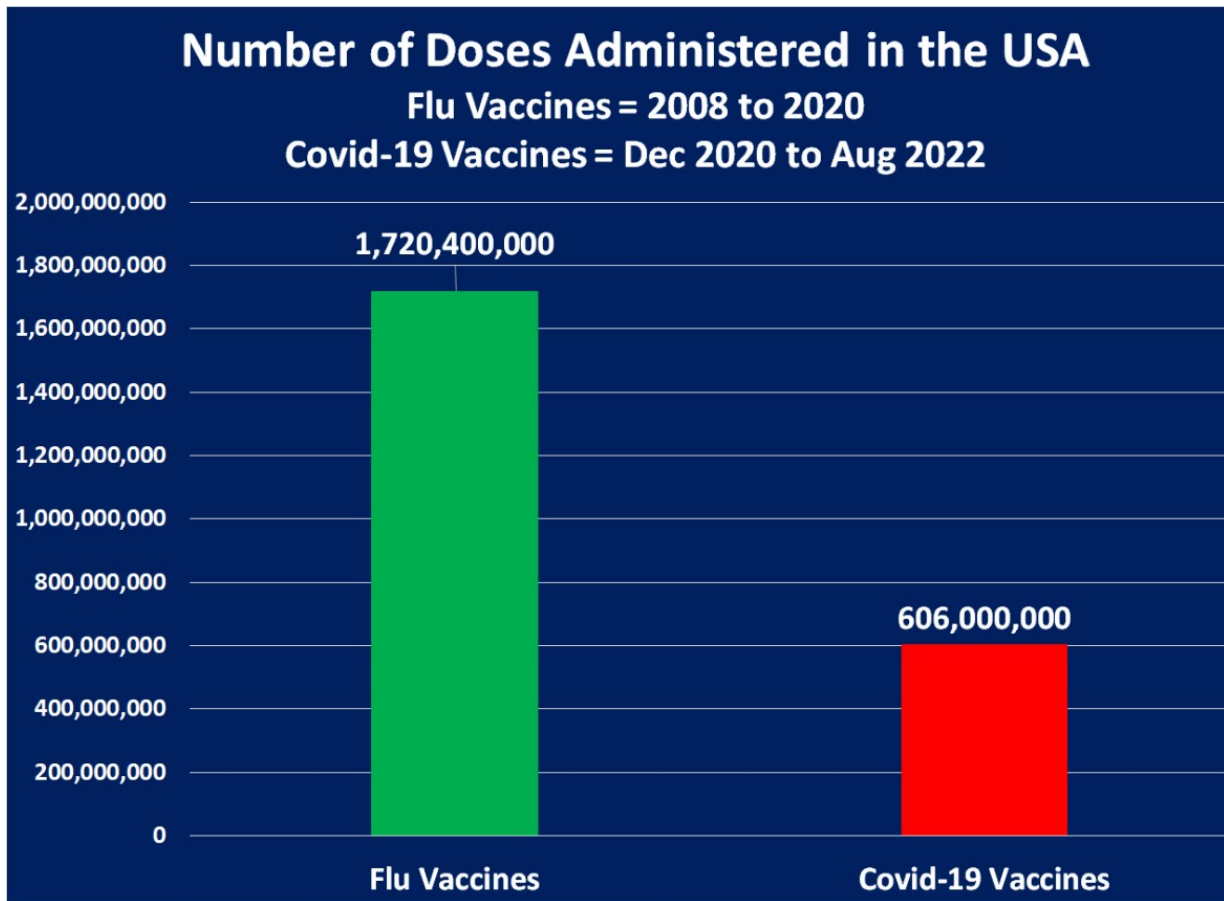

and <https://ourworldindata.org/covid-vaccinations?country=USA>

Between the 08/09 flu season and the 19/20 flu season, there were a total of 1,720,400,000 (1.7204 billion) doses of the flu jab administered in the USA. The CDC also confirms that between 2008 and 2020, a period of 13 years, there were just 64 events related to cancer reported as adverse reactions to the influenza vaccines.

Source: VAERS, CDC

<https://wonder.cdc.gov/controller/datarequest/D8;jsessionid=A8D352B5CD270809AAD44783F2EB>

and <https://www.cdc.gov/flu/prevent/vaccine-supply-historical.htm>

This means Covid-19 vaccination is 1433.33 times or 143,233.33% more likely to cause cancer

than flu vaccination.

- **More evidence of Menstrual disorders and Fertility disorders in women caused by the covid19 vaccines**

In a previous book of evidence it was stated that mRNA and spike proteins were found in significant quantities in the ovaries and other organs of vaccinated women. This is cumulative over time, as the body continues to make spike proteins indefinitely, and this has serious consequences for women.

Source: [https://phmpt.org/wp-content/uploads/2022/03/125742\\_S1\\_M4\\_4223\\_185350.pdf](https://phmpt.org/wp-content/uploads/2022/03/125742_S1_M4_4223_185350.pdf)

The Pfizer vaccine trial data released under Federal Court order in the USA show a high rate birth abnormalities and losses among covid vaccinated women ; this is also in prior books of evidence.

<https://i0.wp.com/expose-news.com/wp-content/uploads/2022/06/image-348.png?resize=1200%2C183&ssl=1>

## **Big increase in neonatal deaths in Scotland and England in 2021 and 2022**

BBC news - <https://www.bbc.com/news/uk-scotland-63097142>

Public Health Scotland's 'Covid-19 Wider Impacts' dashboard reveals

Neonatal death rates, two spikes over six-months

September 2021, at least 21 babies under 4 weeks died

March 2022, at least 18 babies under 4 weeks died

Average mortality rate among newborns 2 per 1,000 births.

In September 2021, 4.9 per 1,000 births

March 2020, 4.6 per 1,000 births

This means the neonatal mortality rate breached an upper warning threshold known as the 'control limit' for the second time in the last 7 months. Although the rate fluctuates month to month, the figure for both September 2021 and March 2022 is on a par with levels that were last typically seen in the 1980s.

Public Health Scotland has refused to investigate a link between covid19 vaccinations of mothers and the loss of their babies, as it may harm confidence in the vaccine. They do not want any investigation into covid19 vaccines. Their response is "We do not have any plans to examine maternal vaccination status, as there is no public health reason to do so". This appears to be a cover up. Dr. John Campbell provided a video lecture about this at <https://www.youtube.com/watch?v=wj4rEOLrpR0>

### **The NHS logging baby deaths as stillbirths 'to avoid scrutiny' by Coroners**

A similar scandal has arisen in England, where the NHS is illegally and unethically logging babies who were born alive but died shortly after birth as 'stillbirths' so as to avoid scrutiny by Coroners. This is causing uproar for parents of these babies.

- **An advertisement in the UK telling people who are injured, disabled or lost somebody from the covid19 vaccines to go to a government web site for compensation.**

HM Government

**Have you noticed your health declining since receiving the Covid-19 injection?**

**If you weren't made fully aware of the health risks from the Covid 19-vaccines, you are entitled to compensation of £120,000**

[www.gov.uk/vaccine-damage-payment](https://www.gov.uk/vaccine-damage-payment)

in Ireland the Irish government and politicians elected to Dail Eireann were too incompetent or too corrupt to set up a vaccine injury and death compensation scheme. This has been the case for many years and decades. This is disgraceful. The government expect severely injured or disabled people to fight long and expensive cases in the High Court against the state. In circumstances where the state hires the best barristers and lawyers at taxpayers expense to deny a person has a vaccine injury or disability or lost a loved one from the vaccine. And the state can and often has used lies, deception, and misdirection to try and convince the court that the person was not injured or disabled or killed by the vaccine. This is an outrageous abuse of international human rights, civil rights, legal rights and Constitutional rights in Ireland.

- The US Social Security Death Master File showed a 60% increase in the all-cause death rate in September 2021 vs. September 2020 for ages 18 to 55. This coincided with the mass covid vaccinations in the USA in the 5 – 6 months previous to this. This corroborates the findings of the life insurance companies in USA and statistics for excess mortality internationally in a section below.

- An Italian study published in the ***International Journal of Vaccine Theory, Practice, and Research*** revealed almost everyone who had been injected had serious blood abnormalities after Covid vaccination. In 94% of vaccinees' blood, there was an aggregation of red blood cells and the presence of particles of various shapes and sizes.  
<https://ijvtpr.com/index.php/IJVTpr/article/view/47/80>

- The Pfizer trial 6 month report showed that more people died and were injured who got the drug than who got the placebo. In other words, the cure was worse than the disease. The drug maker refused to publicly admit this and refused to release the all cause mortality figures for the vaccinated vs the placebo. The previous books of evidence detail this. The trial papers released by federal court order in USA so far show a cover up and fraud in relation to the covid19 vaccine trial and the (false) information released to the public.

#### **COVID-19 Vaccine Boosters for Young Adults: A Risk-Benefit Assessment and Five Ethical Arguments against Mandates at Universities**

*Bardosh et al. September 2022*

[https://papers.ssrn.com/sol3/papers.cfm?abstract\\_id=4206070&utm\\_source=substack&utm\\_medium=email](https://papers.ssrn.com/sol3/papers.cfm?abstract_id=4206070&utm_source=substack&utm_medium=email)

‘Students at North American universities risk disenrollment due to third dose COVID-19 vaccine mandates. We present a risk-benefit assessment of boosters in this age group and provide five ethical arguments against mandates.

We estimate that 22,000 - 30,000 previously uninfected adults aged 18-29 must be boosted with an mRNA vaccine to prevent one COVID-19 hospitalisation. Using CDC and sponsor-reported adverse event data, we find that booster mandates may cause a net expected harm: **per COVID-19 hospitalisation prevented in previously uninfected young adults, we anticipate 18 to 98 serious adverse events, including 1.7 to 3.0 booster-associated myocarditis cases in males, and 1,373 to 3,234 cases of grade  $\geq 3$  reactogenicity which interferes with daily activities.** Given the high prevalence of post-infection immunity, this risk-benefit profile is even less favourable. University booster mandates are unethical because: 1) no formal risk-benefit assessment exists for this age group; 2) vaccine mandates may result in a net expected harm to individual young people; 3) mandates are not proportionate: expected harms are not outweighed by public health benefits given the modest and transient effectiveness of vaccines against transmission; 4) US mandates violate the reciprocity principle because rare serious vaccine-related harms will not be reliably compensated due to gaps in current vaccine injury schemes; and 5) mandates create wider social harms. We consider

counter-arguments such as a desire for socialisation and safety and show that such arguments lack scientific and/or ethical support. Finally, we discuss the relevance of our analysis for current 2-dose CCOVIDovid-19 vaccine mandates in North America.'

Read that again- for each young adult who is prevented from hospitalization for COVID-19 previously uninfected young adults, we anticipate 18 to 98 serious adverse events, including 1.7 to 3.0 booster-associated myocarditis cases in males, and 1,373 to 3,234 cases of grade  $\geq 3$  reactogenicity which interferes with daily activities.

Most young adults have already been infected with COVID-19, but this paper uses uninfected young adults as its baseline. This means that the adverse event ratio cause by the vaccines to prevent one hospitalization is even higher than this analysis. These vaccines are clearly causing more harm than good - as this paper concludes.'

- **Natural Immunity is superior to vaccine immunity according to another large scientific study**

Duration of immune protection of SARS-CoV-2 natural infection against reinfection in Qatar

Chemaitelly et al. July 2022

<https://www.medrxiv.org/content/10.1101/2022.07.06.22277306v1>

"Effectiveness of primary infection against severe, critical, or fatal COVID-19 reinfection was 97.3% (95% CI: 94.9- 98.6%), irrespective of the variant of primary infection or reinfection, and with no evidence for waning. Similar results were found in sub-group analyses for those  $\geq 50$  years of age."

- Dr. Meryl Nass, a medical doctor points out that a recent scientific paper from Kaiser Permanente shows negative Vaccine Efficacy (VE) after 3 shots compared to the unvaccinated comparison group.

<https://merylnass.substack.com/p/negative-vaccine-efficacy-keeps-rearing>

**More evidence that Regulators admitted in October 2020 that they knew the COVID Vaccines would cause Heart Damage, Blood Clots, Serious Illnesses and harm to Children but refused to inform the general public in USA, the EU, Ireland and other countries**

This news report covering an important FDA meeting about authorizing covid19 vaccines presents the facts and evidence. These risks of serious illness, disability and death were not given to members of the

general public before they got their covid19 vaccines.

<https://expose-news.com/2022/08/27/medicine-regulators-knew-harms-of-covid-vaccines/>

Informed consent was not given by those who received the vaccines.

## **Covid19 vaccine based on a computer generated DNA sequence not on an isolated sars-cov2 virus**

The Covid19 vaccine is not like other vaccines. It is based on a computer generated sequence not an actual live virus called 'sars-cov2'. It has no relationship to the virus sars-cov2. This is not real science, it is fake science based on assumptions, presumptions and computer calculations. The MHRA confirmed this fact publicly in Britain recently.

<https://expose-news.com/2022/10/30/mhra-confirms-covid-19-is-man-made/>

## **Natural Immunity is far superior to covid19 vaccine induced immunity for covid19 and it's variants. More evidence showing the negative effectiveness of these vaccines meaning the vaccinated are more likely to get infected.**

Duration of immune protection of SARS-CoV-2 natural infection against reinfection in Qatar  
Ayoub et al, 2022

<https://www.medrxiv.org/content/10.1101/2022.07.06.22277306v1>

*" Effectiveness of primary infection against severe, critical, or fatal COVID-19 reinfection was 97.3%"*

News report - <https://www.gulf-insider.com/natural-immunity-97-effective-against-severe-covid-19-after-14-months/>

Protection against omicron (B.1.1.529) BA.2 reinfection conferred by primary omicron BA.1 or pre-omicron SARS-CoV-2 infection among health-care workers with and without mRNA vaccination: a test-negative case-control study

Carazo et al. 2022. Lancet.

[https://www.thelancet.com/journals/laninf/article/PIIS1473-3099\(22\)00578-3/fulltext](https://www.thelancet.com/journals/laninf/article/PIIS1473-3099(22)00578-3/fulltext)

*' Omicron BA.1 primary infection was associated with greater protection against BA.2 infection (risk reduction of 72%, 95% CI 65–78)'*

Associations of BMI with COVID-19 vaccine uptake, vaccine effectiveness, and risk of severe COVID-19 outcomes after vaccination in England: a population-based cohort study

Pierns et al. 2022

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC9246477/>

*'Surprisingly, we observed a higher risk of test positivity after vaccination with one or two doses across all BMI groups, which is contrary to evidence reported by the UK ONS'*

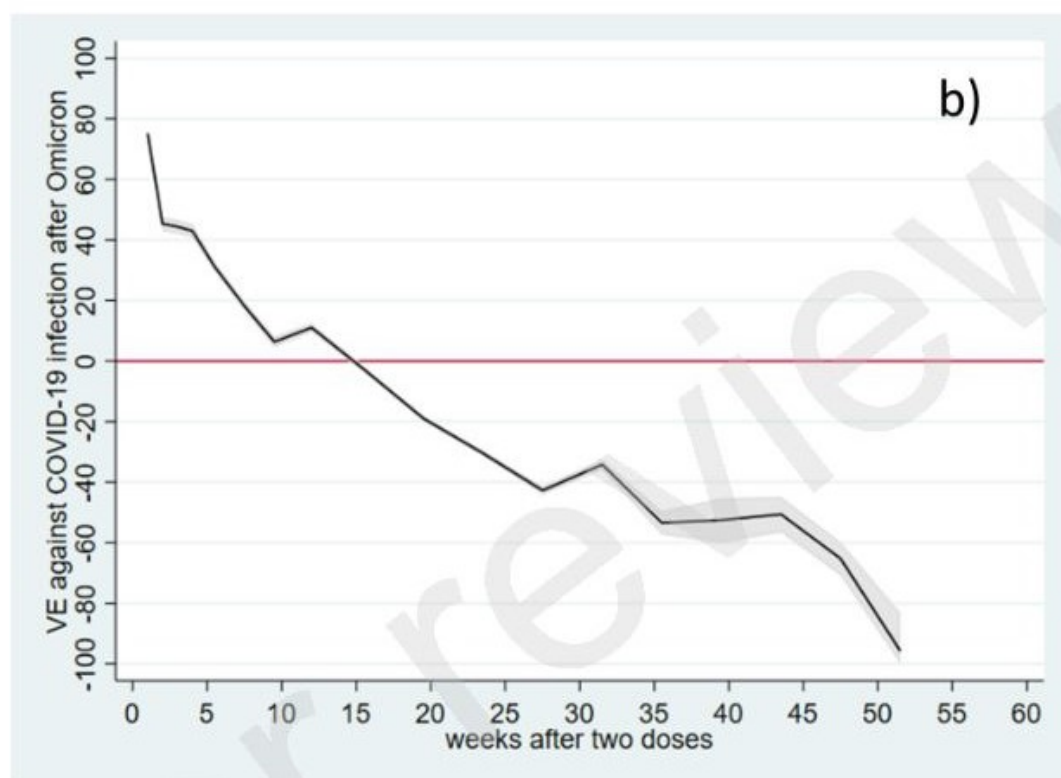

Effectiveness of COVID-19 Vaccines Over 13 Months Covering the Period of the Emergence of the Omicron Variant in the Swedish Population

Xu et al. 2022

[https://papers.ssrn.com/sol3/papers.cfm?abstract\\_id=4224504](https://papers.ssrn.com/sol3/papers.cfm?abstract_id=4224504)

*'Our results were similar to the UK study, albeit with even more rapidly waning effectiveness. Somewhat implausibly, we even observed a negative VE against Omicron infection from week 14, indicating that vaccinated individuals experienced a higher risk of infection than those unvaccinated.'*

Vaccine effectiveness is negative after 14 weeks. See Chart below.

Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) Naturally Acquired Immunity versus Vaccine-induced Immunity, Reinfections versus Breakthrough Infections: A Retrospective Cohort Study  
Gazit et al, 2022

<https://academic.oup.com/cid/advance-article/doi/10.1093/cid/ciac262/6563799>

BNT162b2 COVID-19 vaccination uptake, safety, effectiveness and waning in children and young people aged 12–17 years in Scotland

Rudan et al. 2022. Lancet

*'The waning of the protective effect against the symptomatic disease began after five weeks post-first and post-second dose.'*

Vaccine effectiveness in negative figures and low figures

Vaccine Status (dose,week)	N	Delta Period				Omicron Period			
		Events	VE%	L95%CI	U95%CI	Events	VE%	L95%CI	U95%CI
None	16722	3368				1365			
1 <sup>st</sup> 0–1	2927	615	13.0	1.4	23.3	60	–18.4	–89.3	26.0
1 <sup>st</sup> 2–5	4510	499	64.2	59.2	68.5	116	22.8	–6.4	44.0
1 <sup>st</sup> 6–9	1792	309	39.8	27.0	50.3	179	11.9	–16.1	33.1

2 <sup>nd</sup> 10–13	645	0				234	8.9	–19.1	30.3
2 <sup>nd</sup> 14+	219	0				89	1.2	–49.3	34.6

**Table 3: Effectiveness of the BNT162b2 in 16–17 year-olds. Odds ratios are shown for Delta and Omicron periods. Odds ratios were estimated using a conditional logistic regression model, with positive tests matched to negative controls by age, location, and date of test. The model contains adjustments for sex, deprivation, urban/rural classification, previous positivity, number of previous tests and risk group category. (VE=vaccine effectiveness; L95%CI=lower 95% confidence limit; U95%CI=upper 95% confidence limit; “N” is the number of persons contributing to each sub-sample; “events” is the number of episodes of symptomatic infections with positive tests that were recorded among those persons in each sub-sample. Due to lack of events in the period post-second dose for the Delta period, we collapsed them all into a 6+ weeks category, while for the Omicron period we report categories 6–9, 10–13 and 14+ weeks categories).**

Immune imprinting, breadth of variant recognition, and germinal center response in human SARS-CoV-2 infection and vaccination

Nielsen et al. 2022

<https://www.sciencedirect.com/science/article/pii/S0092867422000769>

## More Evidence that the Sudden and Continuing Rise of covid19 vaccine injuries and deaths being misconstrued and misrepresented as “Sudden Adult Death Syndrome”

The rise in excess mortality since mid 2021 due to covid19 vaccines is being misrepresented as “sudden adult death syndrome”. Healthy men and women below 45 who got the covid19 vaccines are dying in increasing numbers since mid 2021 and this is continuing into 2022. News reports listed on

[https://duckduckgo.com/?q="sudden+adult+death+syndrome"](https://duckduckgo.com/?q=)

This is corroborated by the large rise excess mortality figures and massive increase in life insurance pay

outs for persons under 50 in highly covid vaccinated countries since 2021.

### **More Corroborating Evidence from a Grand Jury in Europe that the response of governments including the Irish to covid19 was based on lies, frauds and criminality**

In the UK, a special government team advocated the use of applied psychology in order to make people fearful. This involved use of lies, propaganda, manipulation, and concealment of facts in government announcements and in the paid press and media to promote fear, panic and paranoia around covid19 in 2020 and 2021. This had an indirect impact on Ireland as Irish government policies are often based on British government policies. And there is evidence that the Irish government used similar tactics in Ireland. This has been the subject of Grand Jury Investigation in Europe. See

<https://stopworldcontrol.com/downloads/GrandJurySummary1.pdf>

### **Criminal and Terrorist activities for the attention of Police forces, the Military, Security Forces and the Courts. Breach of the Biological Weapons Act 2011 (Ireland).**

**More corroborating evidence that the sars-cov2 virus was engineered in a lab and patented. And the both the virus and vaccine were invented and patented prior to 2019. Criminal conspiracy to kill and injure vast amounts of people including people living in Ireland for financial gain.**

The US government funded Peter Daszak's ECO Health Alliance to the tune of \$61,491,183 to make new coronaviruses that are infectious to humans. It also directly or indirectly funding the Wuhan Institute of Virology to the tune of \$7.4 million dollars to make new coronaviruses that are infectious to humans. Meanwhile the National Institute of Allergy and Infectious Diseases funded Ralph Baric to the tune of \$46,958,414 to make new coronaviruses that are infectious to humans. This totals more than \$114 million in the period from 2000 to 2020 to make new coronaviruses which are infectious to humans.

In 2018, US Patent 7279327 for the chimeric adaption of the naturally occurring animal SARS Coronavirus to become infectious to humans targeting lung epithelial cells is transferred from University of North Carolina to the US National Institute for Health (NIH) – who funded it in the first place.

In 2018, March 27, Peter Daszak and the Eco Health Alliance in 2018 submitted a proposal to DARPA to do gain of function research on SARS coronaviruses to insert a furin cleavage site (such as is found in HIV1) in an optimal position into the coronavirus gene. COVID-19 has a furin cleavage site optimally positioned to infect humans. <https://theintercept.com/2021/09/23/coronavirus-research-grant-darpa/>

From 2010 to 2019, many gain of function studies for coronaviruses were funded by the NIH and US government. All to make them more infectious and deadly. See news report at <https://expose-news.com/2022/10/23/covid-is-man-made-fauci-gates-daszak-moderna/>

This has continued into 2022. In 2022, a new gain of function study for sars-cov2 to make it deadlier and more transmissible was funded by the NIH and carried out in Boston University. It kills 80% of mice in trials. And this was funded by the NIH in the USA. More evidence of criminal behavior. See study below.

Role of spike in the pathogenic and antigenic behavior of SARS-CoV-2 BA.1 Omicron

Chen et al. 2022

<https://www.biorxiv.org/content/10.1101/2022.10.13.512134v1>

*'We generated chimeric recombinant SARS-CoV-2 encoding the S gene of Omicron in the backbone of an ancestral SARS-CoV-2 isolate and compared this virus with the naturally circulating Omicron variant. The Omicron S-bearing virus robustly escapes vaccine-induced humoral immunity, mainly due to mutations in the receptor binding motif (RBM), yet unlike naturally occurring Omicron, efficiently replicates in cell lines and primary-like distal lung cells. In K18-hACE2 mice, while Omicron causes mild, non-fatal infection, the Omicron S-carrying virus inflicts severe disease with a mortality rate of 80%.'*

The authors made a "chimaeric" version of the severe acute respiratory syndrome-coronavirus-2 (SARS-CoV-2), which is the causative agent of the coronavirus disease that was first identified in 2019 (Covid-19). A chimaera is a combination of two different biological entities. The creation of a deadlier covid19 virus which is more transmissible. This is evidence of biological warfare being conducted against the general public.

Dr. Byram Bridle provided his analysis of this at

<https://viralimmunologist.substack.com/p/lab-in-boston-made-what-could-be>

and Steve Kirsch at <https://stevekirsch.substack.com/p/bu-creates-new-sars-cov-2-strain>

Dr. Jessica Rose wrote "They created a new virus that has an 80% mortality rate in the mice ... What is perhaps even more frightening to me, is the specific damage done to epithelial cells and to the central nervous system ... Do you guys understand how dangerous this potentially is to humans?"

<https://jessicar.substack.com/p/this-new-pre-print-pretty-much-summarizes>

Daily Mail news report in the UK

‘EXCLUSIVE: ‘This is playing with fire - it could spark a lab-generated pandemic’: Experts slam Boston lab where scientists have created a new deadly Covid strain with an 80% kill rate’

<https://www.dailymail.co.uk/health/article-11323677/Outrage-Boston-University-CREATES-Covid-strain-80-kill-rate.html>

*Professor Shmuel Shapira, a leading scientist in the Israeli Government, said: ‘This should be totally forbidden, it's playing with fire.’*

*Dr Richard Ebright, a chemist at Rutgers University in New Brunswick, New Jersey, told DailyMail.com that: ‘The research is a clear example of gain of function research.’*

Zero Hedge also reported on this scandal

<https://www.youtube.com/watch?v= WTZo9ieBKY>

The NIH is allegedly investigating why this dangerous research was done

<https://palexander.substack.com/p/cover-your-arse-cya-boston-university>

Moderna is suing Pfizer in 2022 for infringing their copyright over the sars-cov2 virus and vaccine which they developed in 2016. Moderna had been involved in gain of function studies into sars prior to 2019 and sars vaccine research and mRNA technologies prior to 2019. This was long before the pandemic of 2020. Evidence for this is presented below.

News report

<https://www.accesswire.com/713614/Moderna-Sues-Pfizer-and-BioNTech-for-Infringing-Patents-Central-to-Modernas-Innovative-mRNA-Technology-Platform>

Secret and Confidential agreement to transfer covid19 vaccine technology to other companies or organizations - <https://s3.documentcloud.org/documents/6935295/NIH-Moderna-Confidential-Agreements.pdf>

This was signed on December 12<sup>th</sup> and 17<sup>th</sup> 2019, 2 weeks before the WHO became aware of covid19 cases in China on December 31, 2019. It was January 9<sup>th</sup> 2020 when the WHO and Chinese authorities established it was a sars coronavirus outbreak in China. And it was declared a pandemic by WHO on March 11, 2020. This agreement shows that the NIH and the University of North Carolina and Ralph Baric and Moderna had foreknowledge about a sars coronavirus pandemic and the need for specific

vaccines for this long before WHO and medical authorities and Chinese authorities and the rest of the world knew about a sars coronavirus pandemic or a need for sars coronavirus vaccines.

And evidence has emerged that the covid19 virus was patented by Moderna 3 years before the 2020 pandemic began.

#### **News reports at**

Scientists claim Covid virus contains tiny chunk of DNA that 'matches sequence patented by Moderna THREE YEARS before pandemic began'

Daily Mail, 23 February 2022

<https://www.dailymail.co.uk/news/article-10542309/Fresh-lab-leak-fears-study-finds-genetic-code-Covids-spike-protein-linked-Moderna-patent.html>

and

<https://expose-news.com/2022/09/04/real-reason-moderna-suing-pfizer/>

There is scientific evidence of manipulation of the furin cleavage site which makes it easier for a coronavirus to infect humans. Scientists claim there is a one-in-three-trillion chance Moderna's sequence randomly appeared through natural evolution.

Scientists Discover DNA Chunk in COVID That Matches Moderna Patented Sequence from Before Pandemic

<https://www.swfinstitute.org/news/91484/scientists-discover-dna-chunk-in-covid-that-matches-moderna-patented-sequence-from-before-pandemic>

and scientific paper at <https://www.frontiersin.org/articles/10.3389/fviro.2022.834808/full>

Moderna did not merely apply for a patent in 2016 with **US9587003B2**: as reported in the Daily Mail. They actually applied in 2013 for 4 patents with **US9149506B2**, **US9216205B2**, **US9255129B2**, **US9301993B2**. Moderna had developed the 19 nucleotide gene sequence containing the Furin Cleavage Site which gives Covid-19 its infectivity to humans by patented gain of function research as early as 2013, 6 years before the Wuhan outbreak took place. Not 3 years, as reported in the Mail and virally elsewhere. The final codon completed inserted gene sequence, 'CTCCTCGGCGGGCA', patented by Moderna, does not exist in natural viruses and neither does the CGG-coded Furin Cleavage site CCTCGGCGGGCACGT.

Documentary film from the USA corroborates the data and evidence in our prior books of evidence

Available at: <https://www.bitchute.com/video/jaiyAdPMdzfJ/>

and <https://www.bitchute.com/video/RITRi608ztYy/>

and <https://yandex.com/search/?text=the+viral+delusion+wallach>

Former Sky News and ITV Chief Mark Sharman produced a documentary film about covid19 vaccine deaths, injuries and disabilities in Britain. This film is titled **“Safe & Effective: A Second Opinion.”**

It can be viewed at <https://www.oraclefilms.com/safeandeffective>

And another documentary film from the USA corroborates these vaccine injuries, disabilities and deaths

- 'UNINFORMED CONSENT - FULL UNCENSORED DOCUMENTARY'

Available at: <https://www.bitchute.com/video/C1t2UvcSEl3H/>

and <https://www.bitchute.com/search/?query=%20uninformed%20consent%20film&kind=video>

These scientists and medical doctors can be subpoenaed into court over video link.

This corroborates the evidence supplied by Dr. Tess Lawrie, a top scientist in Britain which she supplied to the British government in 2021. The following letters from Dr. Tess Lawrie to Dr. June Raine of the MHRA itemises the science and data around covid19 vaccines, lockdowns and use of Ivermectin and early treatment for covid19

<https://ukfreedomproject.org/wp-content/downloads/Urgent%20Preliminary%20Report%20of%20Yellow%20Card%20Data%209-6-2021.pdf>

and <https://ukfreedomproject.org/wp-content/downloads/updated-report-to-mhra-from-dr-tess-lawrie-09-08-2021.pdf>

**The sars-cov2 virus which allegedly causes covid19 has not been isolated according to official HSE records in Ireland. And the alleged virus has not been subjected to Koch's Postulates.**

The HSE is the national health service of Ireland. Signed HSE Records Management Department Records, including record C839 states there is no proof that the virus exists and it has not been isolated.

And record C848 shows NO proof that masks work, and record C849 shows proof that masks are dangerous, and record C850 shows NO proof social distancing works. Record C846 shows NO proof

General lockdowns work, and record C851 and C852 show NO PROOF mRNA works.

These documents can be provided to the court.

## **Criminal breach of the Constitutional Rights to Freedom of the Press and Freedom of Speech**

The **Trusted News Initiative** was set up in Britain in 2020. It includes news and media stations from many countries including Ireland. They have signed up to an agreement to accept only one narrative alone and to censor all other narratives and censor the facts and evidence if it disagrees with the narrative. And censor top scientists, medical doctors and top experts if they disagree with the narrative. This is illegal censorship of the press and media. This is comparable to the George Orwell's 'ministry of truth' which censored all press and media and all persons in his book '1984'. It is a criminal breach of the Irish Constitution which provides for a free press and freedom of speech. This has prevented important facts to be broadcasted about covid19 and the lockdowns and vaccines and vaccine mandates. This censorship led to the deaths, and injuries and illnesses of many people in Ireland and other countries. This The Irish press and media stations which signed up to this agreement are involved in crime against the Irish people and nation.

In the UK, a special government team advocated the use of applied psychology in order to make people fearful. This involved use of lies, propaganda, manipulation, and concealment of facts in government announcements and in the paid press and media to promote fear, panic and paranoia around covid19 in 2020 and 2021. This had an indirect impact on Ireland as Irish government policies are often based on British government policies. And there is evidence that the Irish government used similar tactics in Ireland. This has been the subject of Grand Jury Investigation in Europe. See

<https://stopworldcontrol.com/downloads/GrandJurySummary1.pdf>

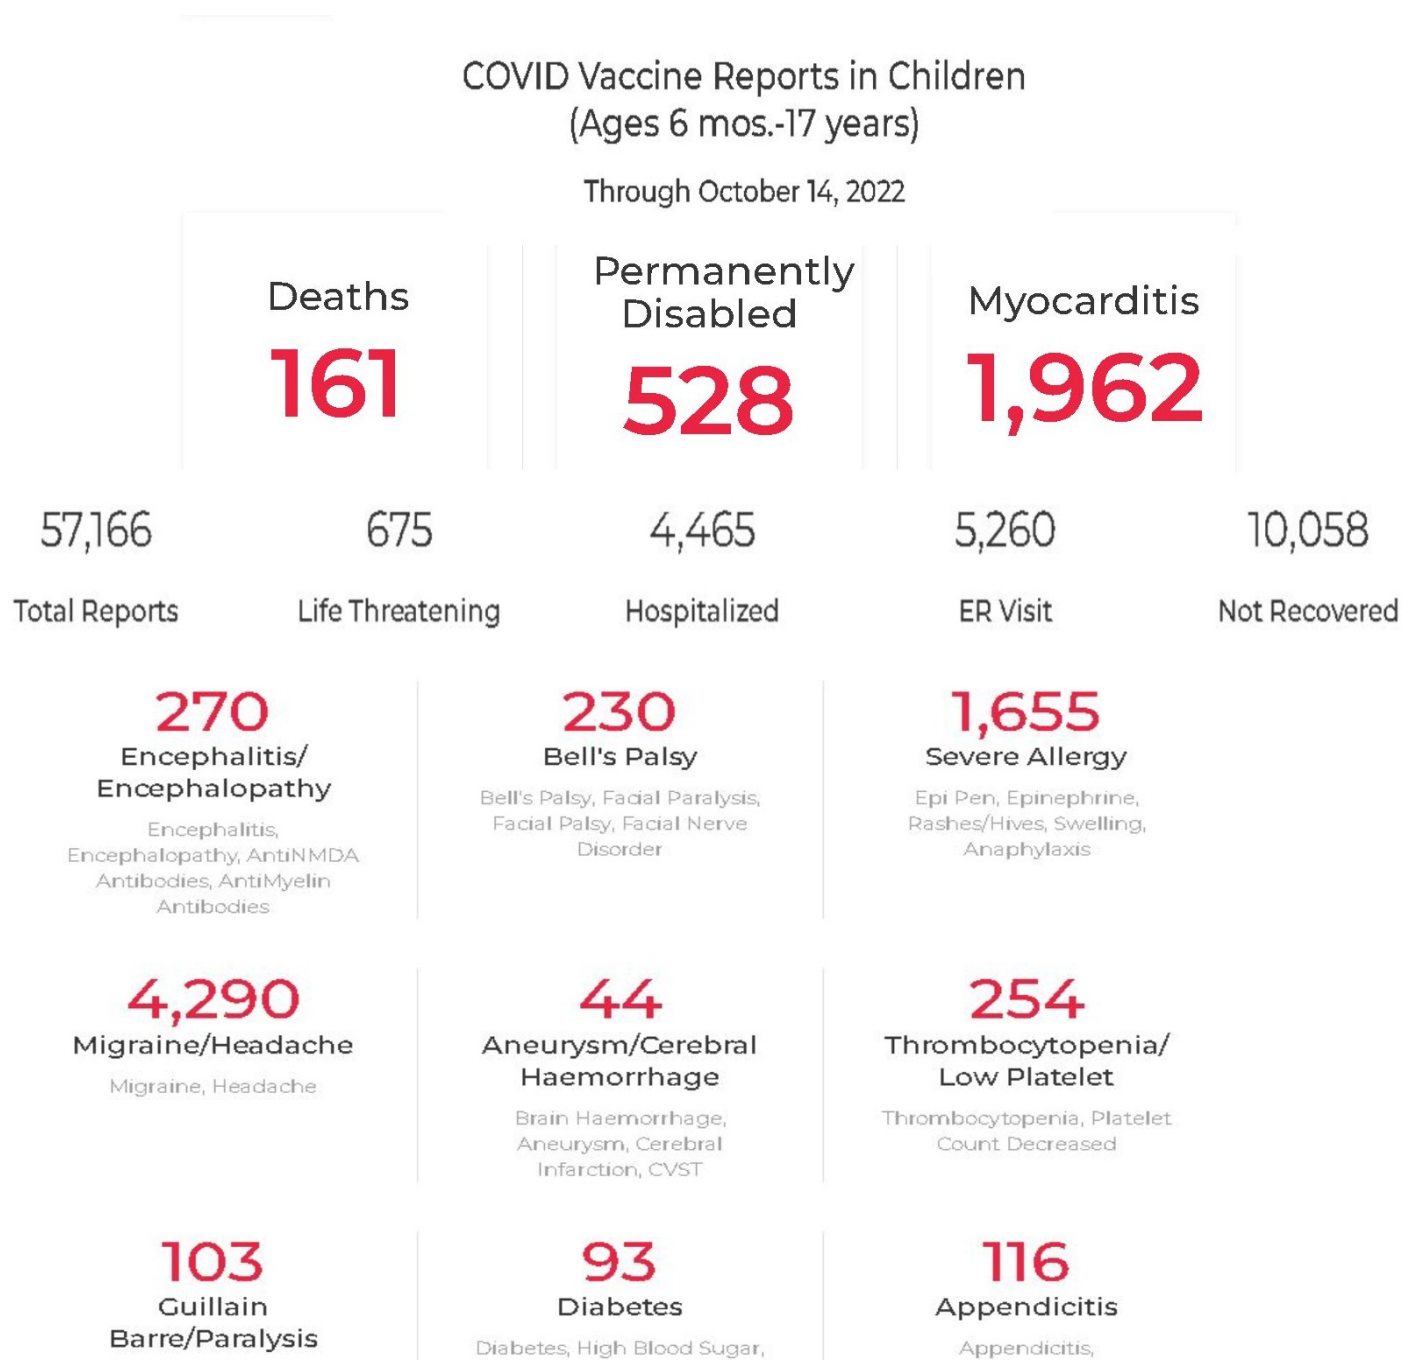

A published scientific paper in 2022 outlines many aspects of this illegal and unlawful censorship

<https://link.springer.com/article/10.1007/s11024-022-09479-4>

## More Corroborating Evidence of the Reckless Endangerment of Children from the covid19 vaccines

- VAERS CDC data for children in USA in October 2022

Source: VAERS database of CDC <https://openvaers.com/covid-data/child-summaries>

**VAERS data is under reported by a factor of 10 to 100 according to scientific studies**

The VAERS system is a US Government vaccine monitoring system which tracks vaccine deaths and injuries in the USA. This system identifies 10% of vaccine deaths and 1% of vaccine caused injuries, side effects, disabilities and new illnesses according to a Harvard Medical School study in 2010.

' Adverse events from drugs and vaccines are common, but underreported. Although 25% of ambulatory patients experience an adverse drug event, less than 0.3% of all adverse drug events and 1 - 13% of serious events are reported to the Food and Drug Administration (FDA). Likewise, fewer than 1% of vaccine adverse events are reported. Low reporting rates preclude or slow the identification of "problem" drugs and vaccines that endanger public health. New surveillance methods for drug and vaccine adverse effects are needed.'

Harvard Medical School study 2010

Source: [Electronic Support for Public Health–Vaccine Adverse Event Reporting System \(ESP:VAERS\)](https://digital.ahrq.gov/ahrq-funded-projects/electronic-support-public-health-vaccine-adverse-event-reporting-system/final-report) and <https://digital.ahrq.gov/ahrq-funded-projects/electronic-support-public-health-vaccine-adverse-event-reporting-system/final-report>

This scientific research by Harvard University Medical School means Reports to VAERS will need to be multiplied by 100 and that deaths and serious injuries / disabilities / new illnesses multiplied by 10 to get accurate statistics for injuries and deaths caused by covid19 vaccines in the USA.

A recent scientific study on the covid19 vaccines found anaphylaxis occurred at a rate of 2.47 per 10,000 vaccinations which is 247 per million and is 10 times higher than officially reported.

Source: <https://jamanetwork.com/journals/jama/fullarticle/2777417>

A scientific study by Dr. Jessica Rose and Mathew Crawford and Steve Kirsch in the USA found in 2021 that there is under-reporting to VAERS and the most credible estimate for deaths and illnesses is 41 times the rate reported to VAERS. This means the real figures are 41 times higher. This gives 7.2 million hospitalisations, 1.2 million deaths, 2.3 million permanently disabilities and 2.1 million cases of myocarditis. Underreporting factor of 41 is scientifically presented on

<https://www.skirsch.com/covid/Deaths.pdf>

Links to scientific studies at <https://expose-news.com/2021/09/20/covid-19-vaccines-have-killed-at-least-150000-people-in-the-usa/>

See scientific papers in our other books of evidence.

- Statistics from the MHRA system in Britain which tracks covid19 vaccine deaths, injuries, illnesses and disabilities shows 1,517,540 injuries, illnesses and disabilities, many of them serious. The total number of deaths reported is 2,272. There are over 100,000 people with new illnesses or disabilities as a result of these vaccines in Britain. This is truly shocking. Up to September 28th, 2022 the MHRA reports a total of 4,459 adverse events for children, comprising 4,121 Pfizer, 266 AstraZeneca, 37 Moderna . This includes 83 reported cases with Pfizer of myocarditis/pericarditis, suggesting a current reported risk of 12 cases per million

for first doses and 9 per million for second dose for this age group.

Sources: <https://dailysceptic.org/2022/11/04/vaccine-safety-update-35/>

- More Than 1,000 Reports of Adverse Events After COVID-19 Vaccination in Children 5 and Younger, CDC Data Shows  
<https://childrenshealthdefense.org/defender/adverse-events-covid-19-vaccination-children-cdc-et/>
- **The real and nefarious reason for vaccinating children which has not been disclosed to the general public**

The Pfizer covid19 vaccine got emergency use authorisation and this gave the company liability protection under the Prep Act and Cares Act in the USA and similar laws in the EU. To get full approval for the vaccine and liability protection, the vaccine must be given to children, even if many children die or are injured or disabled by this vaccine. The evidence and facts show the covid vaccine causes a high and rising death rate for children and high rates of illness and disability. This serves profit interests, it does not serve the Public Interest and the Common Good. In fact it goes against the Public Interest and the Common Good.

- **New Scientific Study in Thailand shows a rate of Myocarditis of 1 in 43 for covid19 vaccinated children**

Cardiovascular manifestation of the BNT162b2 mRNA COVID-19 Vaccine in Adolescents

Mansanguan et al. August 2022

<https://www.mdpi.com/2414-6366/7/8/196>

This scientific study shows a high risk of children developing Myocarditis or other heart conditions and diseases after covid19 vaccinations. **A rate of 1 in 43 is very high, furthermore 29% of children developed various heart abnormalities and conditions, some subclinical.** This is serious as this lasts for the rest of their lives and indicates higher risk of early death or premature death. The high numbers of young people under 18 dying suddenly in Ireland since Summer 2021 and into 2022, especially of heart conditions, bleeding and haemorrhages, and published on [www.rip.ie](http://www.rip.ie) corroborates the scientific findings in many scientific studies. And also the grim findings found in the Pfizer trial of the covid19 vaccine, released under Federal Court order in the USA. And in 2021 many American schools introduced defibrillators for children due to the growing rate of heart illnesses in American children. And defibrillators are being put into all English schools from 2021 onwards. This is a new, strange, unexpected and unprecedented development of children getting heart attacks after covid19 vaccinations in 2021 and this threat will continue into the future.

Source: <https://www.theguardian.com/education/2022/jul/17/defibrillators-to-be-installed-in-all-english-state-schools-by-end-of-next-school-year>

News interview with Dr. Peter McCullough, a doctor and top Cardiologist, about this finding in Thailand

A comprehensive review and meta-analysis of published research confirm that young adults (40 years old and younger) have an elevated risk for myocarditis or pericarditis after mRNA COVID-19 vaccination. The analysis is reported in a new study in the *American Journal of Preventive Medicine*, published by Elsevier.

and

### **Comparative Safety of the BNT162b2 Messenger RNA COVID-19 Vaccine vs Other Approved Vaccines in Children Younger Than 5 Years**

Toepfner et al. JAMA 2022

<https://jamanetwork.com/journals/jamanetworkopen/fullarticle/2797451>

This study published in *The Journal of the American Medical Association*, included 7,806 children aged five or younger who were followed for an average of 91.4 days after their first Pfizer vaccination. The study showed that one in 500 children under five years of age who received a Pfizer mRNA—messenger ribonucleic acid—covid vaccine were hospitalised with a vaccine injury, and one in 200 had symptoms ongoing for weeks or months afterwards.

This was debated in the British Parliament in October 2022

<https://hansard.parliament.uk/Commons/2022-10-24/debates/FF880636-BC3B-4BDB-A5E0-D6D4B82B2888/Covid-19VaccinesSafety?highlight=excess%20deaths#contribution-76C612FC-E196-4082-8B1B-1E5ACC5D54BF>

and

### **Serious adverse events of special interest following mRNA COVID-19 vaccination in randomized trials in adults**

Fraiman, Doshi, et al. August 2022

<https://www.sciencedirect.com/science/article/pii/S0264410X22010283>

#### **Results**

Pfizer and Moderna mRNA COVID-19 vaccines were associated with an excess risk of serious adverse events of special interest of 10.1 and 15.1 per 10,000 vaccinated over placebo baselines of 17.6 and 42.2 (95 % CI -0.4 to 20.6 and -3.6 to 33.8), respectively. Combined, the mRNA vaccines were associated with an excess risk of serious adverse events of special interest of 12.5 per 10,000 vaccinated (95 % CI 2.1 to 22.9); risk ratio 1.43 (95 % CI 1.07 to 1.92). The Pfizer trial exhibited a 36 % higher risk of serious adverse events in the vaccine group; risk difference 18.0 per 10,000 vaccinated (95 % CI 1.2 to 34.9); risk ratio 1.36 (95 % CI 1.02 to 1.83). The Moderna trial exhibited a 6 % higher risk of serious adverse events in the vaccine group: risk difference 7.1 per 10,000 (95 % CI -23.2 to

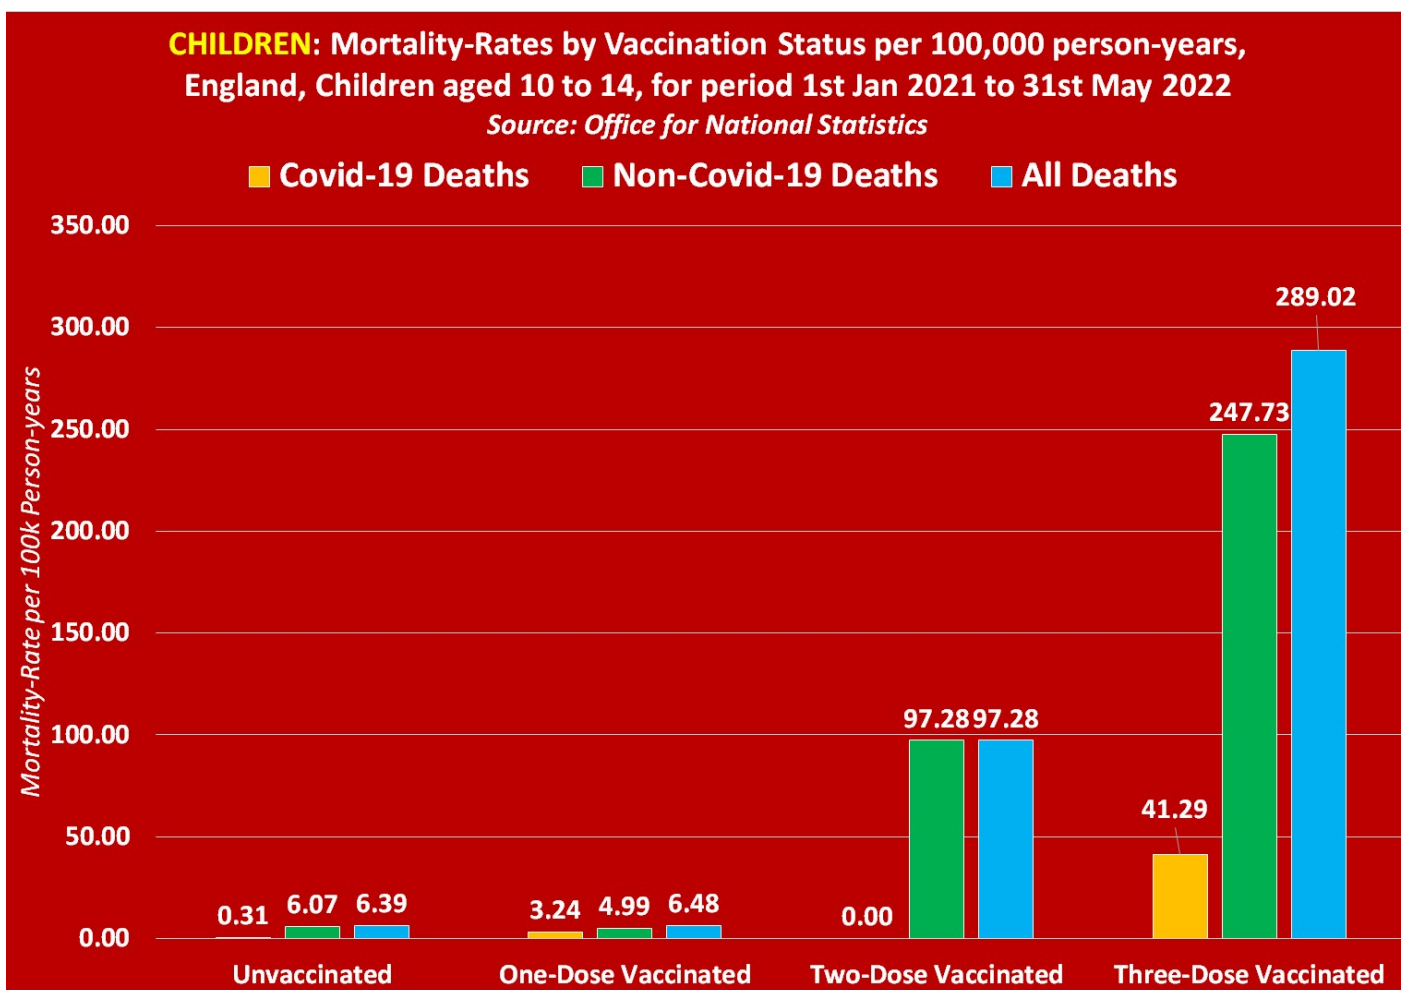

37.4); risk ratio 1.06 (95 % CI 0.84 to 1.33). Combined, there was a 16 % higher risk of serious adverse events in mRNA vaccine recipients: risk difference 13.2 (95 % CI –3.2 to 29.6); risk ratio 1.16 (95 % CI 0.97 to 1.39).

### Analysis

They found that the Pfizer and Moderna mRNA vaccines were associated with an increased risk of serious adverse events of special interest: 10.1 events per 10,000 vaccinated for Pfizer and 15.1 events per 10,000 for Moderna. When combined, the mRNA vaccines were associated with an increased risk of 12.5 per 10,000 vaccinated.

The research stated that this level of increased risk post-vaccine is greater than the risk reduction in COVID-19 hospitalization in both Pfizer and Moderna trials, which was 2.3 per 10,000 participants for Pfizer and 6.4 per 10,000 for Moderna. This means that on this measure, the Pfizer vaccine results in a net increase in serious adverse events of 7.8 per 10,000 vaccinated and the Moderna vaccine of 8.7 per 10,000 vaccinated.

Big Rise in Excess Mortality for children after covid19 vaccinations throughout Europe

Year-to-date excess death figures for children aged 0-14, up an incredible 2,555% in 2022 on the 2020 figure! <https://www.euromomo.eu/graphs-and-maps#excess-mortality>

See chart below

Fig 2.

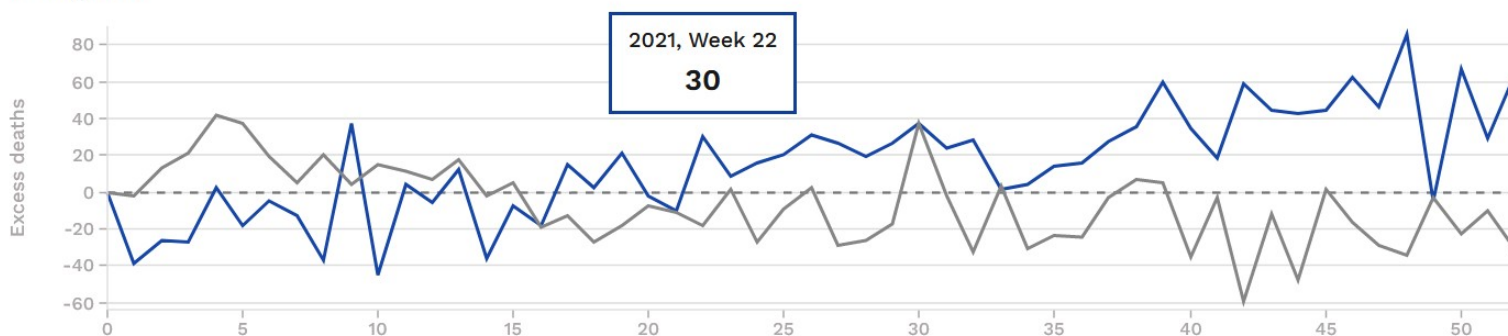

and News report at <https://dailysceptic.org/2022/08/15/why-are-all-cause-excess-deaths-in-the-under-45s-so-much-higher-this-year-than-at-the-height-of-the-pandemic/>

The following chart shows the weekly excess deaths throughout 2020 and 2021 among children aged 0 to 14 across Europe. The graph has been taken from the EuroMOMO website

..... Baseline — 2021 — 2020

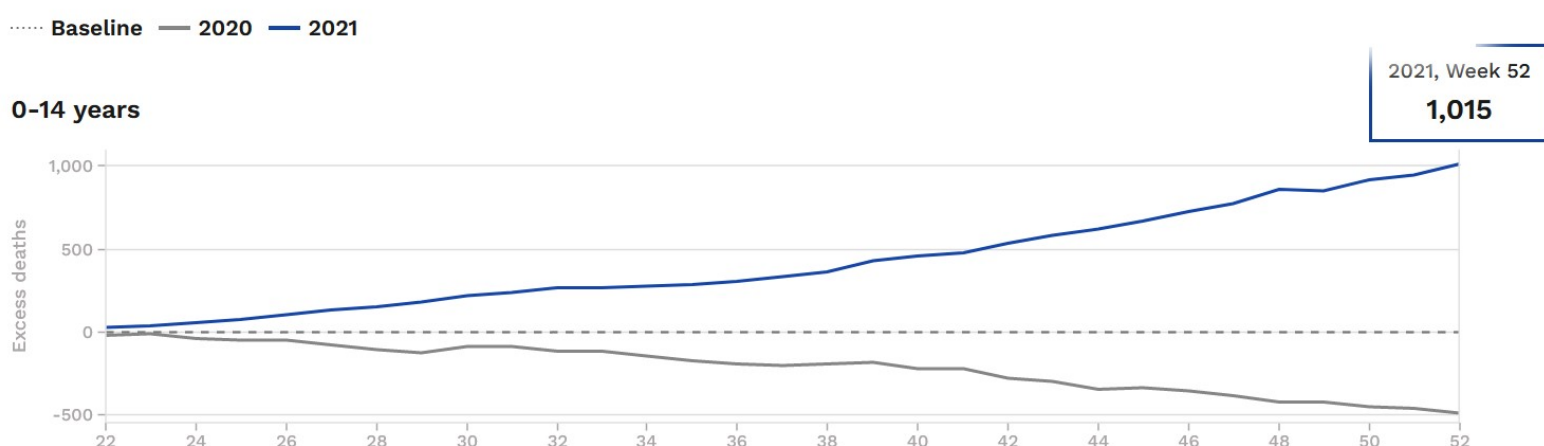

**0-14 years**

Source: <https://www.euromomo.eu/graphs-and-maps>

Deaths among children throughout 2020 were generally below the expected number of deaths. This trend continued throughout 2021 up to week 22, at which point excess deaths were recorded week on week until the end of the year. The covid19 vaccines for children were approved by the EMA and other health bodies in EU countries from week 22 onwards. And the vaccine was approved for 5-11 year olds from November 2021 onwards. We see a big rise in excess mortality for children from mid 2021 onwards and into 2022. This coincides with the covid19 vaccines for children. We are seeing the same rise in excess deaths for vaccinated adults in 2021 and 2022.

To reinforce the point, we compare excess mortality for children for 2020 and 2021. **The evidence is clear that high numbers of children are being killed.**

Source: <https://www.euromomo.eu/graphs-and-maps>

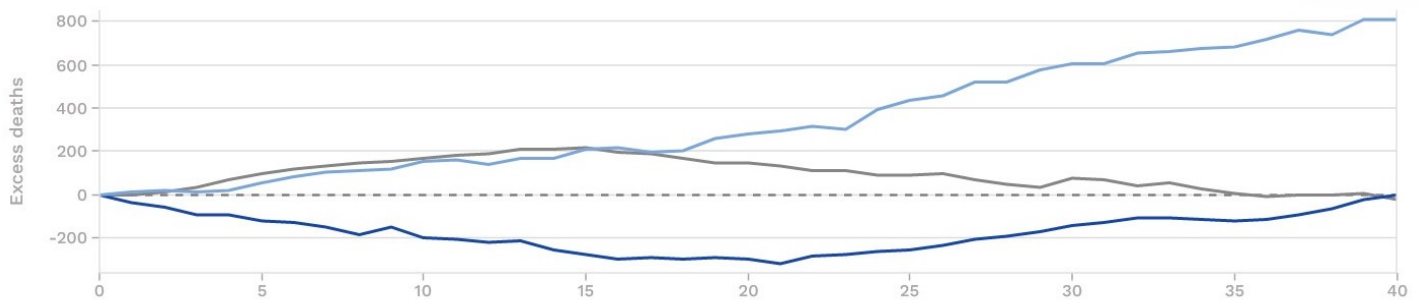

**These excess deaths or more accurately the killing of children has continued into 2022, according to the Euromomo statistics**

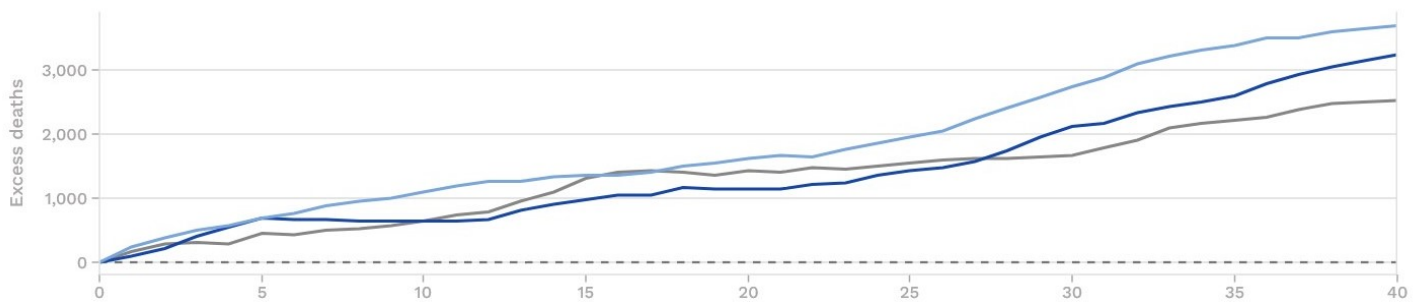

Source: <https://www.euromomo.eu/graphs-and-maps>

---- Baseline    — 2020    — 2021    — 2022

#### 0-14 years

#### 15-44 years

Source: <https://www.euromomo.eu/graphs-and-maps/>

The charts above from Euromomo show a big increase in excess mortality for children in 2022. This corroborates the evidence showing the covid19 vaccines are dangerous for children, and increase the risk of death or serious illness for children.

#### Further Evidence

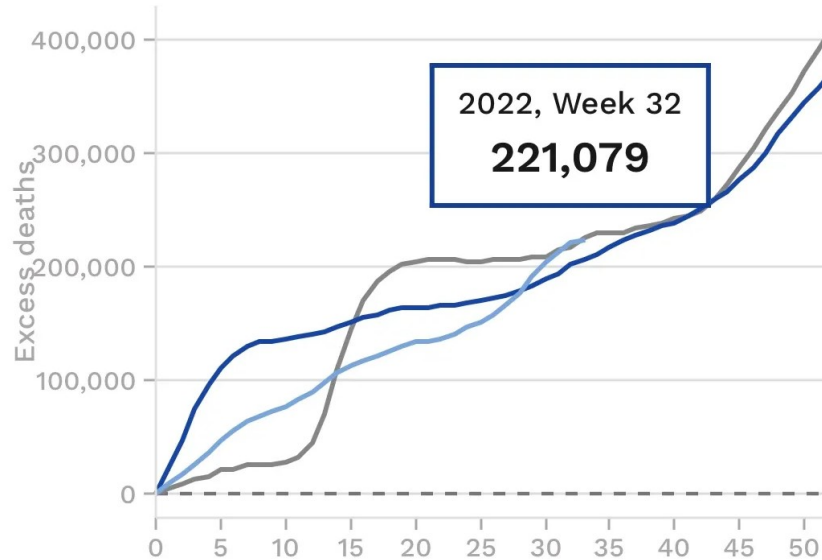

The first chart below shows a big rise in excess mortality in 2022, it is now higher at this point in 2022 than it was at the same point in either 2020 or 2021. The second chart shows a massive rise in excess mortality for children aged 0 -14 from Autumn 2021 when covid vaccinations began to the end of 2021 and this rise has continued into 2022.

News report at <https://alexberenson.substack.com/p/another-week-with-deaths-far-above>

Latest Euromomo statistics in August 2022 show a big increase in excess mortality from mid 2021 into 2022 after covid19 vaccinations of children began in mid 2021

..... Baseline — 2022

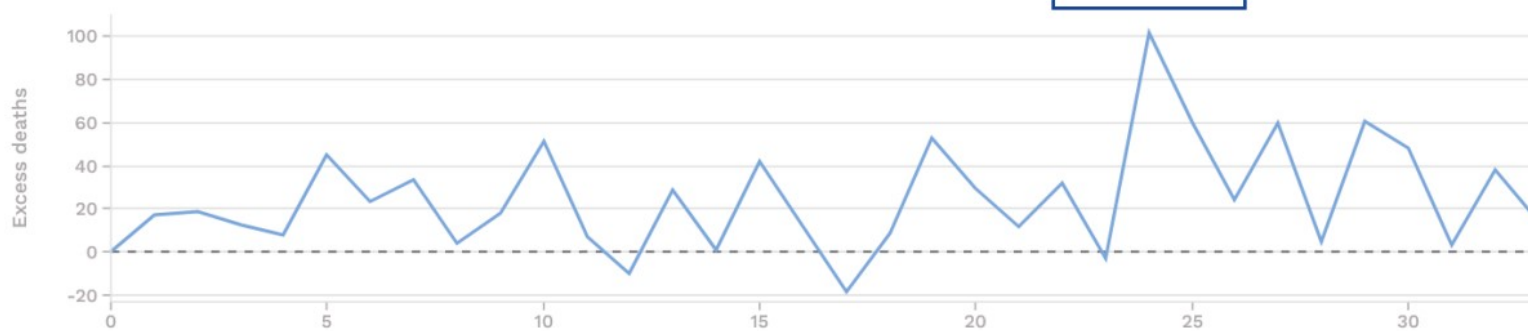

0-14 years

Source: <https://web.archive.org/web/20220829112527/https://www.euromomo.eu/graphs-and-maps>

..... Baseline — 2022

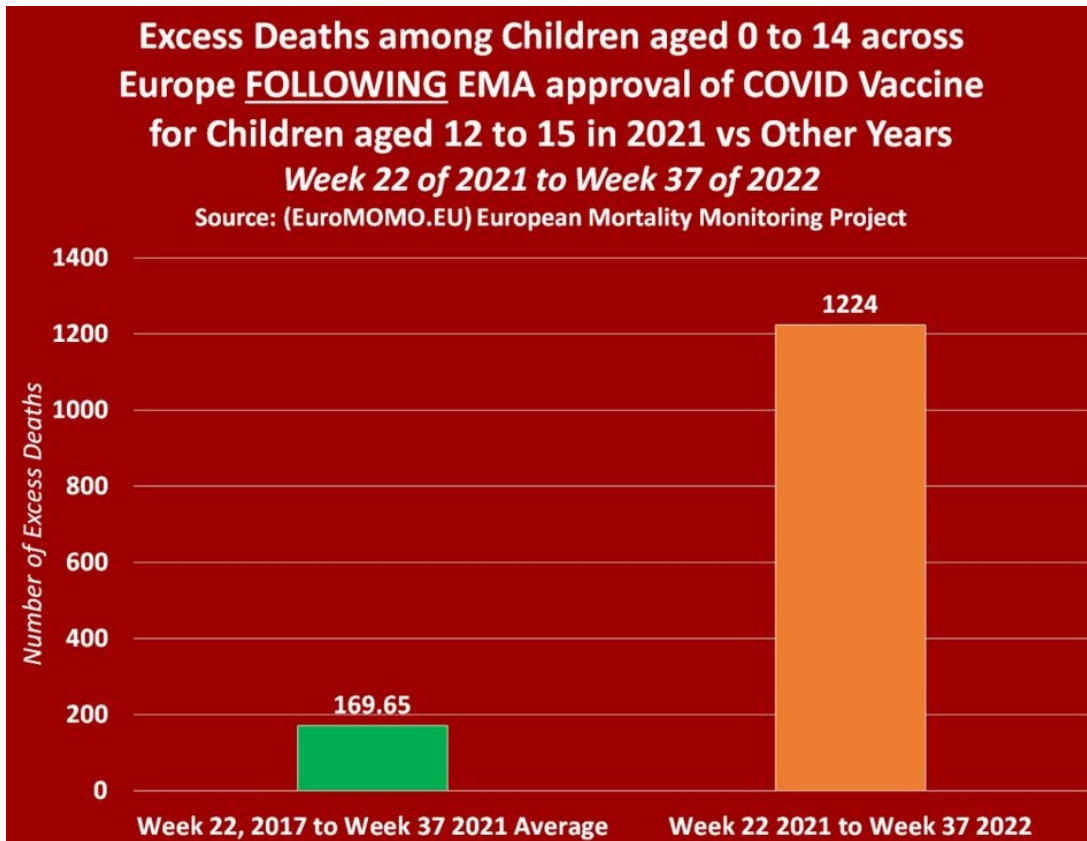

0-14 years

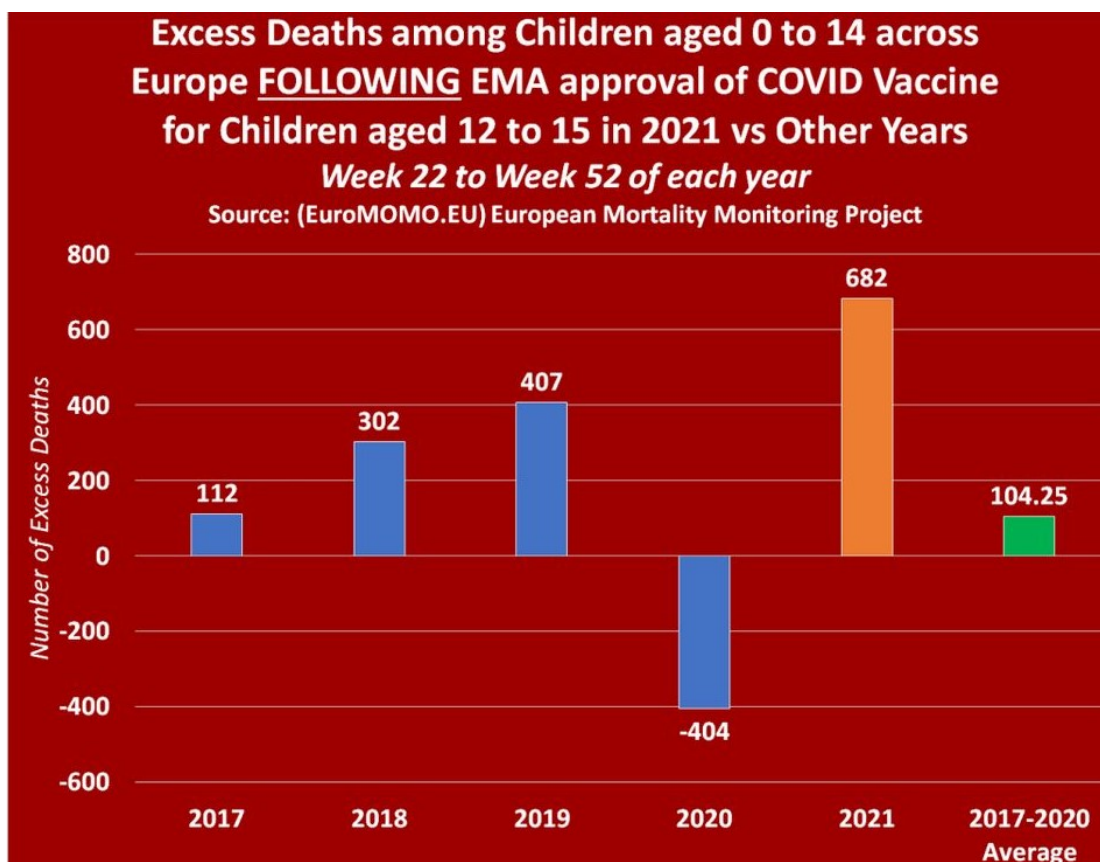

Source: <https://www.euromomo.eu/graphs-and-maps>

Since the EMA first approved the Pfizer Covid-19 injection for use in children in May 2021, Europe has recorded 1,224 excess deaths among children aged 0 to 14 since covid vaccines were introduced for them. This is much higher than previous years. Week 22 is when the EMA approved covid vaccines for children. Week 22 of 2021 to week 37 of 2022 are compared against the average for a similar time period from 2017 to 2021. Child deaths in 2021-2022 are 7 times higher than the average for previous years.

Source: <https://www.euromomo.eu/graphs-and-maps>

Source: <https://www.euromomo.eu/graphs-and-maps>

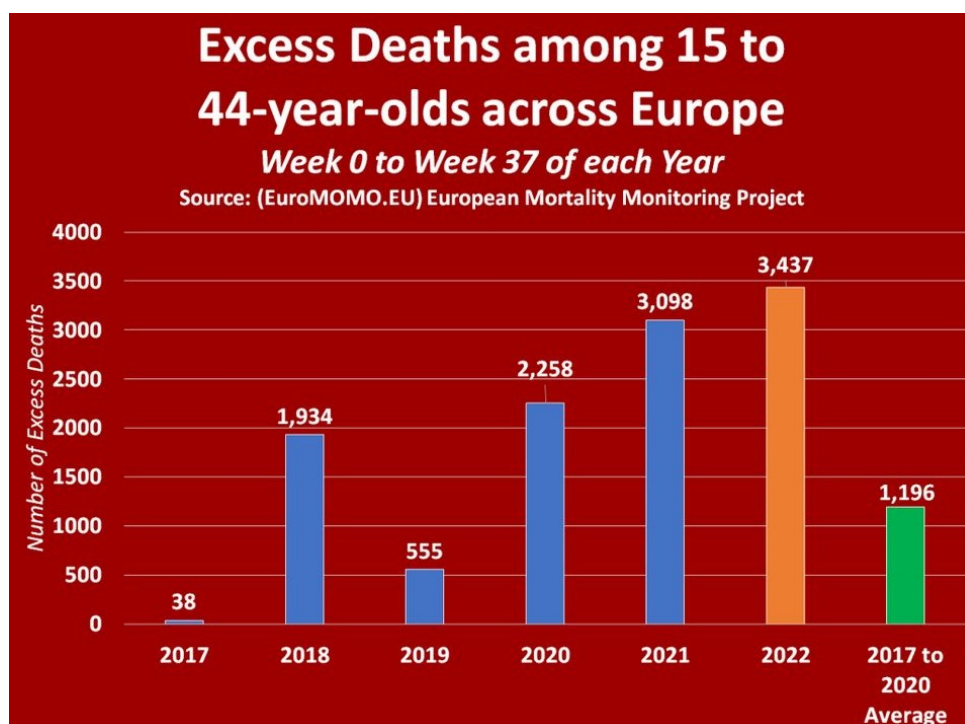

In 2021 the first half of the year saw a reduction in excess mortality for children while the second half of the year saw a big increase in excess mortality after covid vaccines were given to them.

Source: <https://www.euromomo.eu/graphs-and-maps>

In 2021 the first half of the year saw a reduction in excess mortality for children while the second half of the year saw a big increase in excess mortality after covid vaccines were given to them. By week 33 in 2021, this increase was slow but growing.

There has also been a big increase in excess mortality among the youth aged 15 to 44 after the introduction of covid19 vaccines

Source: <https://www.euromomo.eu/graphs-and-maps>

- EuroMomo Investigations are ongoing into excess mortality for children in the European Union from Autumn 2021 and all of 2022. This corresponds to the covid19 vaccinations of children.

## EuroMOMO pooled estimates show an elevated level of excess mortality

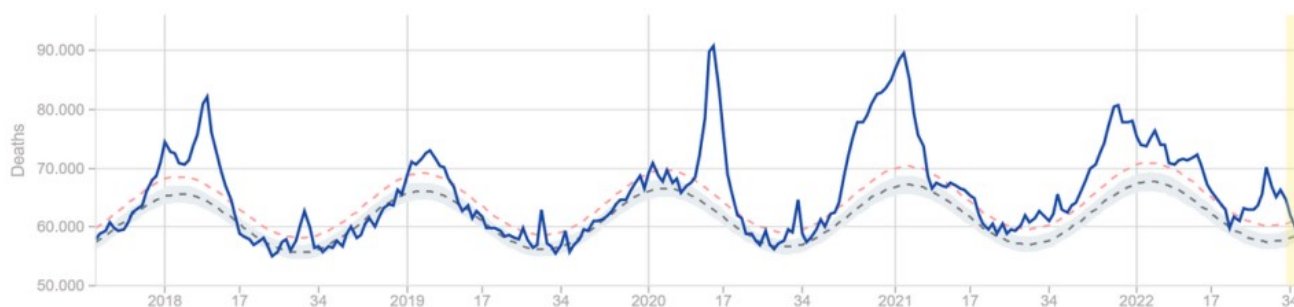

This week's overall pooled EuroMOMO estimates of all-cause mortality for the participating European countries show elevated excess mortality. Since mid-2021, the accumulated level of mortality in Europe in the age group of 0-14 years seems to have increased. The possible explanations are being investigated.

Data from 24 European countries or subnational regions were included in this week's pooled analysis of all-cause mortality.

Spain does not participate in EuroMOMO outputs in week 36/2022, due to an adjustment process related with mortality data sources at national level.

**Source:**

<https://www.ons.gov.uk/file?uri=/peoplepopulationandcommunity/birthsdeathsandmarriages/deaths/datasets/weeklyprovisionalfiguresondeathsregisteredinenglandandwales/2022/publicationfileweek352022.xlsx>

**Total in 2021 - 86**

**Total in 2020 - 85**

**UK government data shows a 53% increase in excess mortality among teenagers after receiving the covid19 vaccines in UK in 2021. This correlates to the introduction of covid19 vaccines for teenagers in the UK.**

The increases are very high especially after week 23 when covid19 vaccinations of teenagers began. And this increase has been sustained as vaccinations continue. Deaths among teenage boys were virtually the same between week 1 and 17 in 2020 and 2021 but then increased by 53% between week 18 and 52 following the introduction of the Covid-19 vaccine to this age group. This is strong proof of causation. This is the ‘smoking gun’.

**Table 3:** Effectiveness of the BNT162b2 in 16–17 year-olds. Odds ratios are shown for Delta and Omicron periods. Odds ratios were estimated using a conditional logistic regression model, with positive tests matched to negative controls by age, location, and date of test. The model contains adjustments for sex, deprivation, urban/rural classification, previous positivity, number of previous tests and risk group category. (VE=vaccine effectiveness; L95%CI=lower 95% confidence limit; U95%CI=upper 95% confidence limit; “N” is the number of persons contributing to each sub-sample; “events” is the number of episodes of symptomatic infections with positive tests that were recorded among those persons in each sub-sample. Due to lack of events in the period post-second dose for the Delta period, we collapsed them all into a 6+ weeks category, while for the Omicron period we report categories 6–9, 10–13 and 14+ weeks categories).

- **Rise in “sudden deaths” and “sudden adult deaths syndrome” of healthy young people under 18 years old and under 40 years old who were covid19 vaccinated in 2021 and 2022 provides more corroborating evidence**

The web site [www.rip.ie](http://www.rip.ie) provides information about deaths of people around Ireland on a daily basis and is a reliable and credible indicator of deaths in Ireland. The rise in “sudden deaths” of healthy young people under 18 years old and under 40 years old who were covid19 vaccinated in 2021 and 2022 provides more evidence for our case against the covid19 vaccines. The rise in “sudden child death syndrome” and “sudden adult death syndrome” in Ireland and other highly covid19 vaccinated countries has appeared in the news and media in Ireland and many other countries. One can access the [www.rip.ie](http://www.rip.ie) database online. Pictures of many young people who “died suddenly” in 2021 and 2022. Some links provided below.

<https://www.google.com/search?q=www.rip.ie+suddenly+2021>

<https://www.google.com/search?q=www.rip.ie+suddenly+2022>

This is occurring in all highly covid19 vaccinated countries. And excess mortality figures in these countries and life insurance claims data is corroborating this rise in deaths among young people. We have provided data on this in this book of evidence and in prior books of evidence.

- **Video about the mass killing and injuring and disabling of children by covid19 vaccines**

The Vaccine Safety Research Foundation produced a video showing the facts and evidence about the effects of covid19 vaccines on children. Its at

Public Assessment Report of the British government – advised against it

<https://www.gov.uk/government/publications/regulatory-approval-of-pfizer-biontech-vaccine-for-covid-19/summary-public-assessment-report-for-pfizerbiontech-covid-19-vaccine>

Dr. John Campbell in Britain provides an important lecture about this contradiction in video below:

<https://www.youtube.com/watch?v=7gLLay852jM>

and news report at

<https://expose-news.com/2022/08/31/prof-fenton-catches-out-uk-government-lying/>

- Dr. John Campbell, a very experienced and respected medical doctor in Britain presented medical and scientific findings and evidence of increased risk from covid19 vaccines for children aged 5 -11 years old in July 2022. And that these vaccines lose effectiveness after a few weeks. He claims that the risk-benefit analysis has changed and shows very little or no benefit for children. The All Cause Mortality risk for children has not been measured, but scientific studies show that this risk is higher after covid19 vaccinations.

<https://www.youtube.com/watch?v=uIFSvnB1WlQ>

- Data from Israel shows myocarditis post-jab is occurring at a rate of 1 in 6,000. Hong Kong data from male children and teens found a rate of 1 in 2,700.

Comparing the flu vaccines to the covid19 vaccines is useful in terms of doses given and adverse effects, injuries and deaths

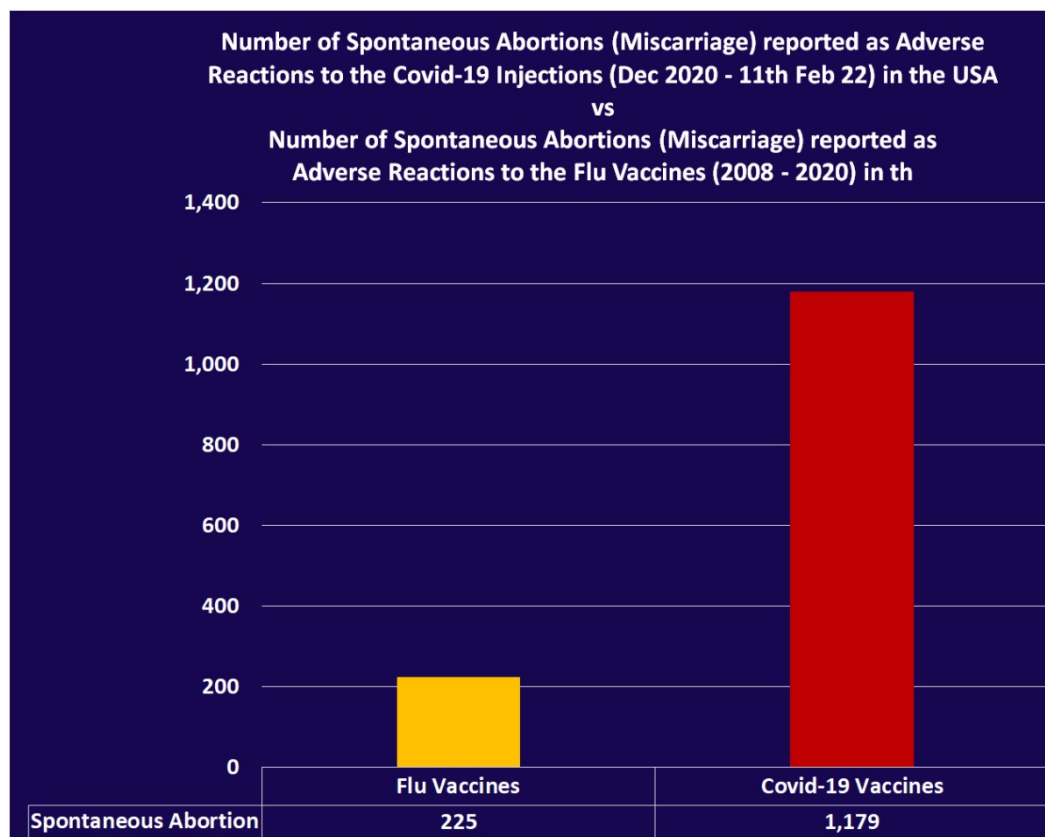

The following information from the VAERS system of the CDC provides the comparison. Between the 08/09 flu season and the 19/20 flu season, there were a total of 1,720,400,000 (1.7204 billion) doses of the flu jab administered in the USA. Whereas from the start of the Covid-19 vaccination campaign up to 11th Feb 22 there were a total of 557,637,223 (557.6 million) doses of the Covid-19 vaccine administered in the USA.

Sources: <https://www.cdc.gov/flu/prevent/vaccine-supply-historical.htm>

and <https://wonder.cdc.gov/vaers.html>

The following chart shows the number of adverse event reports made to VAERS against the Covid-19 vaccines that resulted in a pregnant woman suffering a miscarriage up to 11th Feb 22 in the USA, and the number of adverse event reports made to VAERS against the flu vaccines that resulted in a pregnant woman suffering a miscarriage between 2008 and 2020 in the USA.

There are similar findings for adult deaths, child deaths, guillain barre syndrome, bell's palsy, anaphylaxis, thrombocytopenia, hospitalizations to treat side effects, shingles, severe allergic reactions, heart inflammation and diseases, and nervous system diseases for covid19 vaccines. They are much higher for covid19 vaccines, despite the fact that 3 times more flu vaccines were administered.

Scientists such as Dr. Jessica Rose and Steve Kirsch have researched this and concluded that covid19 vaccines are under-reported by a factor of 20 – 40 times. These findings are presented in our previous books of evidence.

## Excess Mortality

### More Corroborating evidence of Excess Mortality in 2021 and 2022 after covid19 vaccinations and boosters

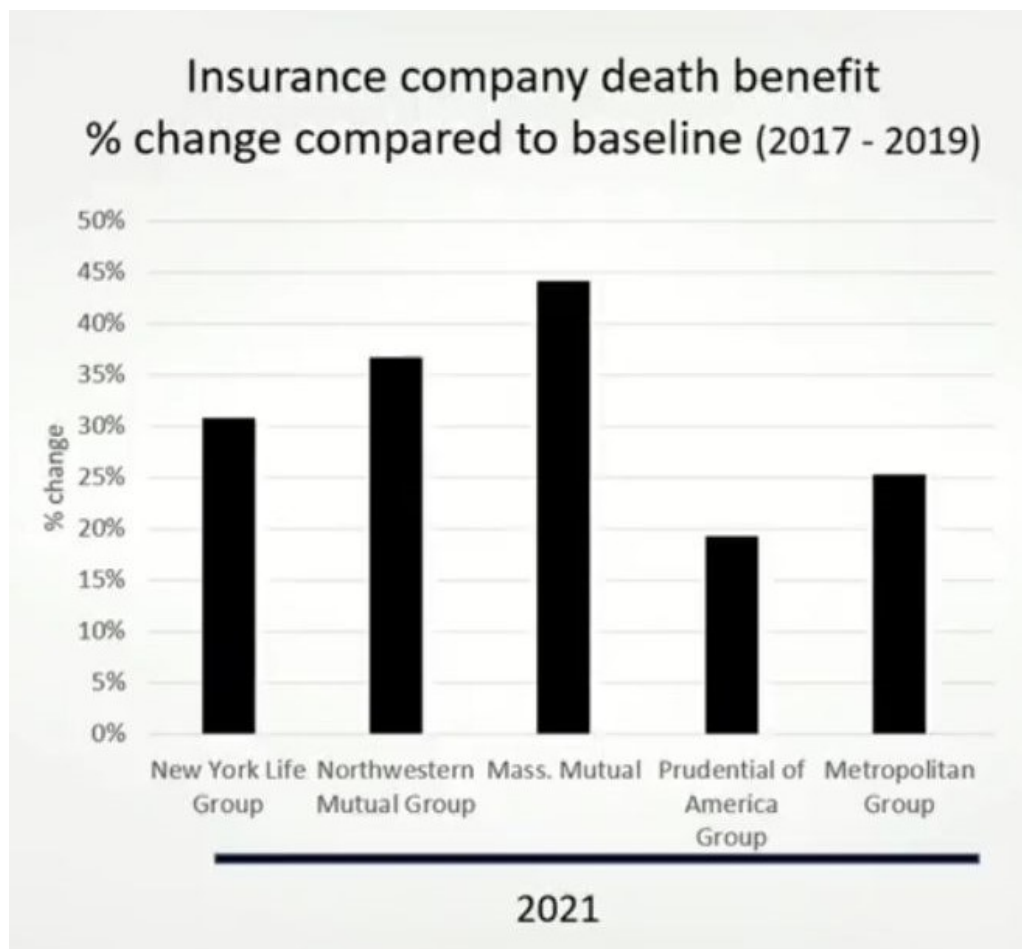

- **More Corroborating Evidence from Life Insurance Companies about a big rise in Excess deaths after covid19 vaccinations began in 2021 which has continued into 2022**

Research by the lawyers and legal team of the Informed Consent Action Network (ICAN) in the USA shows that the 5 largest life insurance companies in the USA had massive increases in life insurance payouts in 2021 after covid19 vaccination began. The rise was sudden and much higher than previous years. This corroborates the big rise in excess mortality in 2021 after covid19 vaccinations began.

#### Ordinary Death Benefit Numbers

Company	2017	2018	2019	2020	2021

Large German Insurance Company Estimates 2.5 - 3 Million People in Germany 'under treatment for side effects of vaccination after Covid shot'

<https://thehighwire.com/news/large-german-insurance-company-estimates-2-5-3-million-people-in-germany-under-treatment-for-side-effects-of-vaccination-after-covid-shot/>

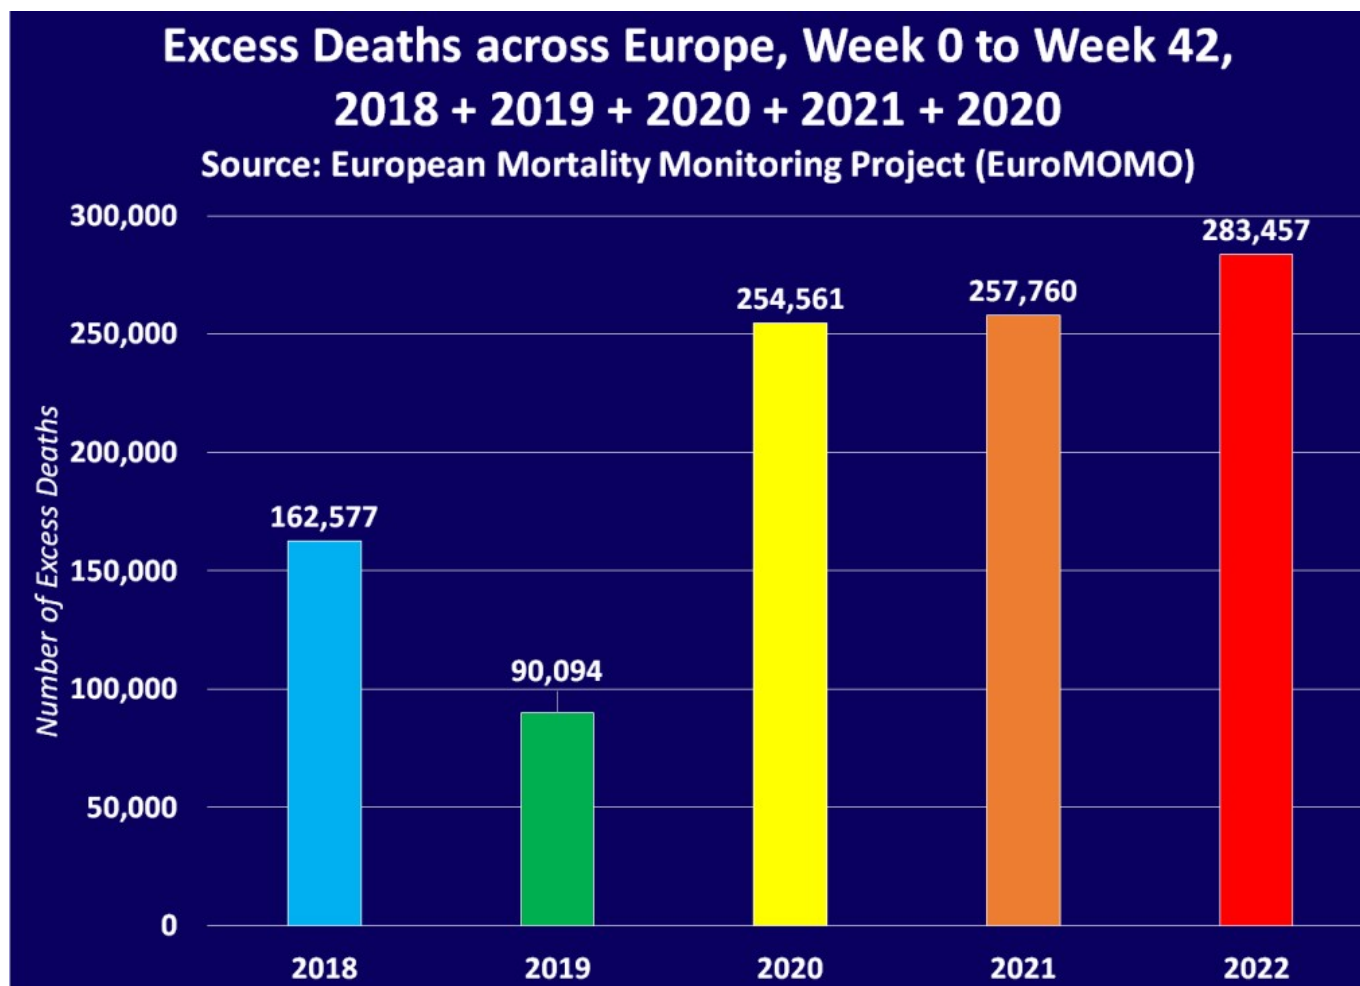

In February, the German health insurance company BKK ProVita analysed data from 10.9 million people insured with BKK - <https://expose-news.com/2022/02/26/german-vaccine-injuries-10x-higher-than-reported/> , the analysis produced alarming data that proved gross underreporting of Covid vaccine injuries by the Paul Ehrlich Institute ("PEI"): around 217,000 of just under 11 million BKK policy holders had been treated for Covid injection adverse effects while PEI showed only 244,576 adverse effects reported based on 61.4 million vaccinated people.

In July, according to data from Techniker Krankenkasse ("TK") - <https://fragdenstaat.de/anfrage/abrechnungszahlen-fur-impfnebenwirkungen/716055/anhang/2022-07-19-ergebnisfragdenstaatvom2019-2021.xlsx> , the largest German medical insurance company, there were a total of 437,593 insurance claims billed under the four diagnostic codes for vaccine injury in 2021. To put those numbers in perspective, the total numbers billed for a vaccine injury code in the two preceding years were 13,777 and 15,044, respectively. Given that TK insures 11 million people, that means 1 in 23, or 4.3%, had a medical treatment billed for vaccine injury. And that assumes all 11 million were vaccinated.

Read more: German insurance claims hint at millions of unreported vaccine injuries, Daniel Horowitz, Conservative Review, 15 August 2022, <https://www.conservativereview.com/horowitz-german-insurance-claims-vaccine-injury-2657863726.html>

German Health Insurance Company Discovers "Vaccine Side Effects" Are 10x Higher Than Officially Reported <https://expose-news.com/2022/02/26/german-vaccine-injuries-10x-higher-than-reported/>

- **Excess mortality in 2022 is far higher than in 2020 when we had the covid19 pandemic**  
Excess mortality for all age groups has risen very high in 2021 and 2022 according to EuroMomo. has coincided with covid19 vaccines and the first, second and third boosters. The chart below shows that excess mortality by week 42 in 2022 was far higher than 2020 and 2021. The figure for 2022 is 30,000 higher than 2020.

Source: <https://www.euromomo.eu/graphs-and-maps/>

- Eurostat an official body of the European Union found an excess mortality of 16% for 2022 in the EU. The excess mortality for Europe ranges from 10% to 55% for 2022. The data shows low excess mortality for lowly covid vaccinated countries and high excess mortality figures for highly covid vaccinated countries

‘Excess mortality in the EU climbed to +16% in July 2022 from +7% in both June and May. This was the highest value on record so far in 2022, amounting to around 53,000 additional deaths in July this year compared with the monthly averages for 2016-2019. This was an unusually high value for this month.’

Source: <https://ec.europa.eu/eurostat/web/products-eurostat-news/-/ddn-20220916-1>

#### High Excess Mortality in EU countries with high covid19 vaccination rates

Ireland + 16.3%

Iceland, + 55.8%

Spain +37%

Cyprus +33%

Greece +31%  
Portugal +28.8%  
Switzerland +25.9%  
Italy + 24.9  
Austria + 17.5%  
Slovenia + 16.5%  
Germany +15.2  
Norway + 14.8%  
Netherlands + 14.7%  
Croatia + 14.6%  
France + 14.1%  
Estonia + 12.3%  
Luxemburg + 11.%%  
Denmark +10.3%

**Very Low Excess Mortality in countries with very low covid19 vaccination rates**

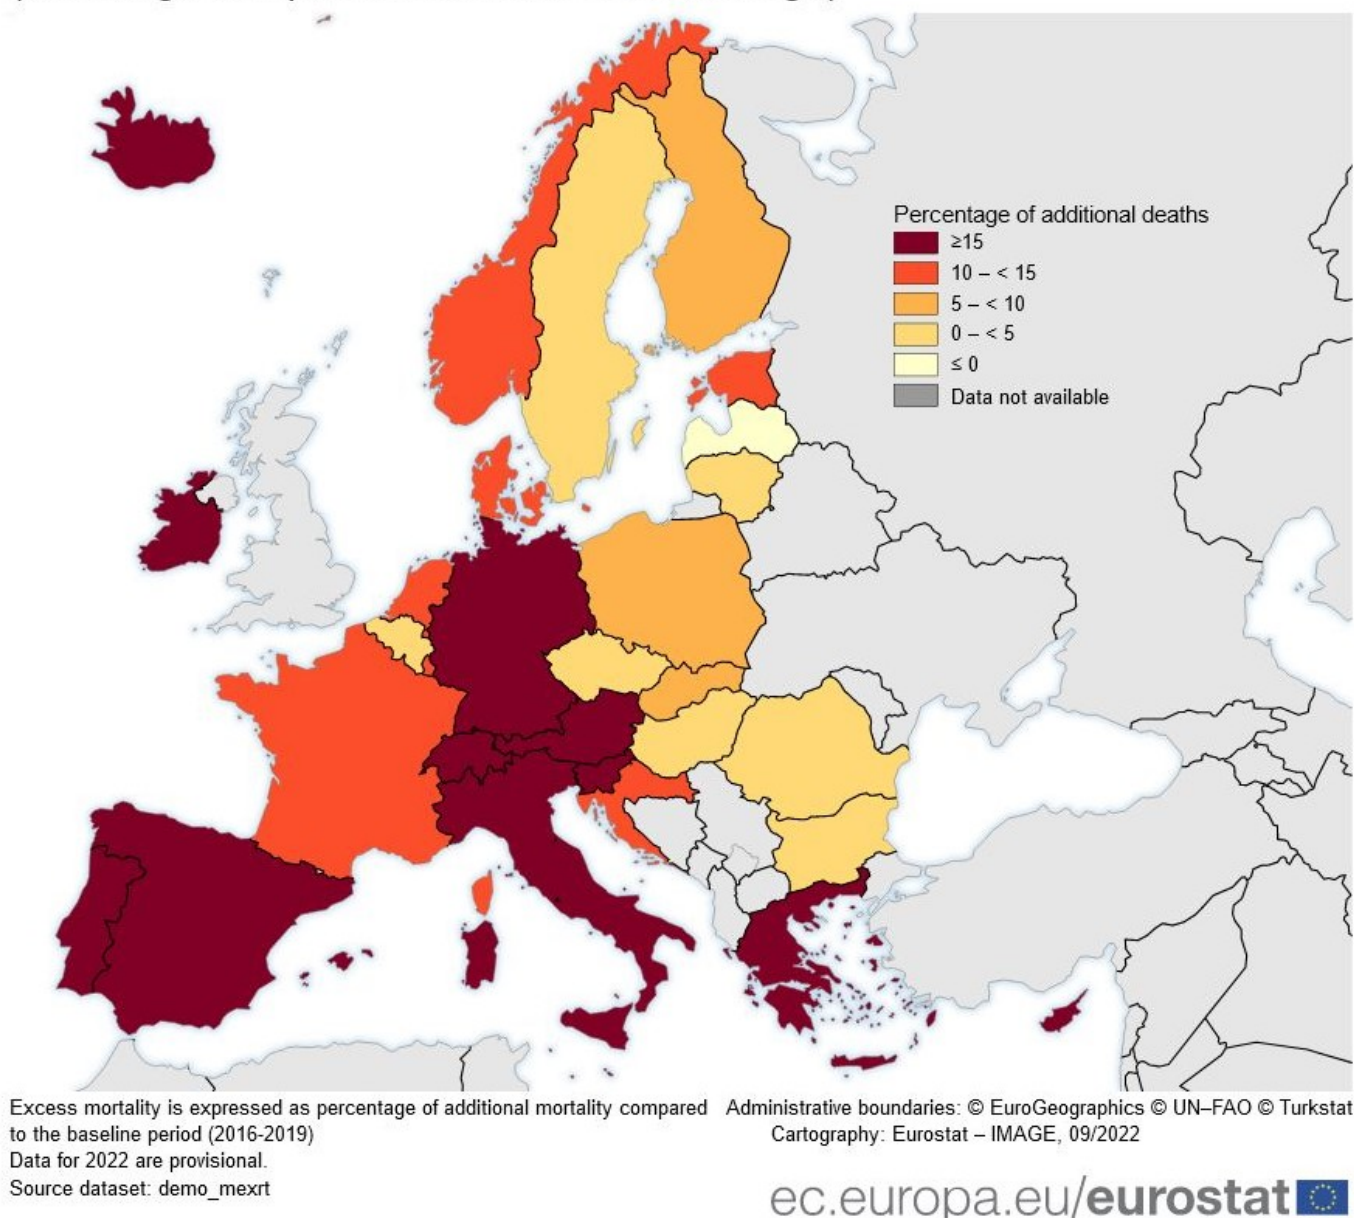

Bulgaria + 1.4%  
Romania + 2.4%

Chart below illustrates this point

## Excess Mortality in July 2022

(% change compared with 2016-2019 average)

In August 2022, the excess mortality in Ireland rose to 16.8% according to Eurostat

[https://ec.europa.eu/eurostat/statistics-explained/index.php?title=Excess mortality - statistics](https://ec.europa.eu/eurostat/statistics-explained/index.php?title=Excess_mortality_statistics)

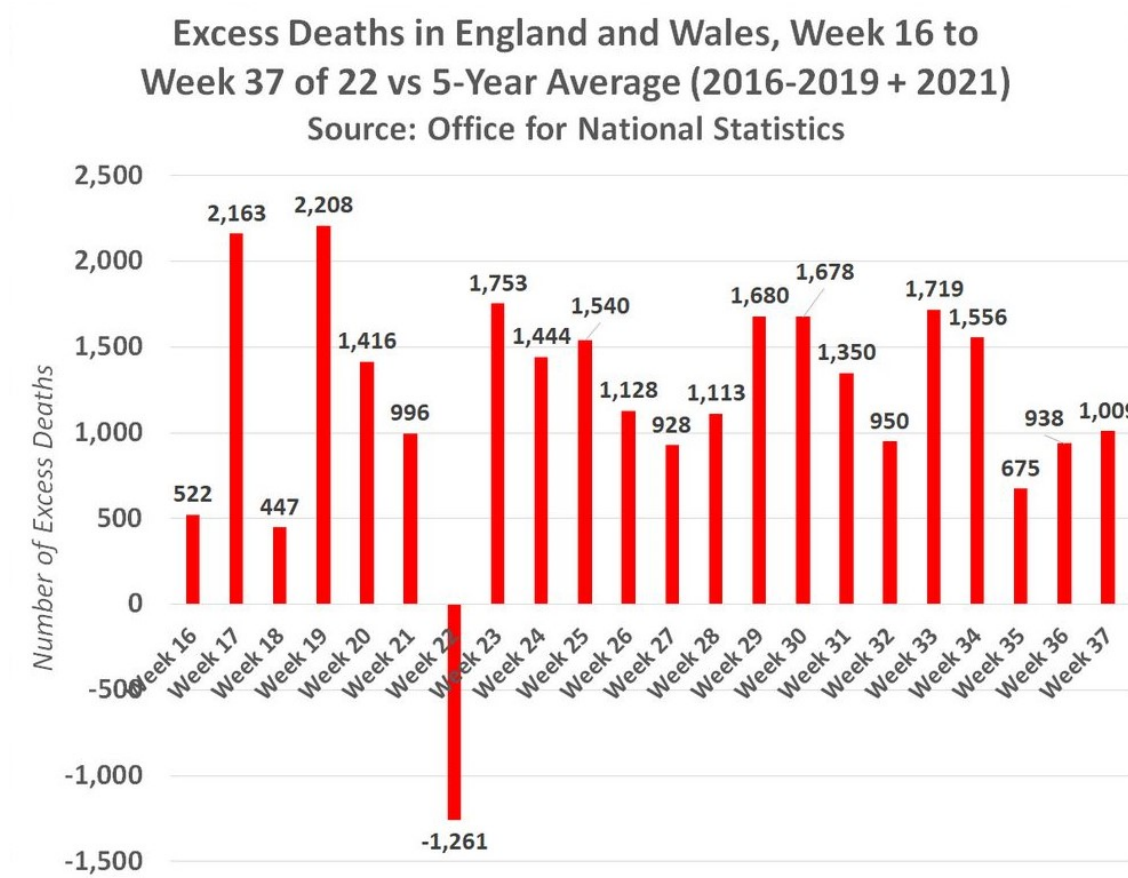

In November 2021, the excess mortality across the EU was 26% according to Eurostat. This corresponds to the rollout of covid19 vaccines from Spring 2021 onwards

[https://ec.europa.eu/eurostat/statistics-explained/index.php?title=Excess mortality - statistics](https://ec.europa.eu/eurostat/statistics-explained/index.php?title=Excess_mortality_statistics)

### British Excess Mortality figures for 2022 corroborates this rise in excess mortality in the EU and EU countries

The only week England and Wales did not record any excess deaths in the 22 weeks between 16th April and 16th September is week 22. This is most likely due to underreporting of deaths due to this

week being the extended bank holiday weekend for the late Queen Elizabeth II's Platinum Jubilee. 25,952 excess deaths in total. Over 12% increase in excess mortality so far this year.

- **Official insurance industry statistics from the USA analysed by Ed Dowd and Josh Stirling**

From their web site at <https://www.theyliedpeople died.com/>

‘ On August 17th the Society of Actuaries Research Institute (SOA) published their Group Life Covid 19 Mortality Survey Report. This report represents approximately 80 percent of the group life US revenues.

Table 5.7 in the report is Excess Mortality by Detailed Age Band and as you can see below there was an event that occurred in Q3 of 2021 (highlighted in red) for the two age groups 25-34 and 35-44 which represented excess mortality of 78% and 100% respectively.

In March, we reported 84% excess mortality into the fall of 2021.

Bottom line... Our analysis has been verified by SOA and their group life claims into the third quarter as well.

It is clear that a causative event which occurred in Q3 of 2021. We are 100% of the belief it was the vaccine mandates ordered by the Biden administration.

This is what we call "democide",  
or death by government action.

*Table 5.7 PDF #3 ( below ) shows how excessive amounts of millennials died at the same times that lockdowns, vaccinations, mandates and boosters were rolled out.’*

Table 5.7

## EXCESS MORTALITY BY DETAILED AGE BAND

Statistician Joel Smalley analysed these CDC figures in the USA and found a direct correlation between the introduction of covid19 vaccines and a big rise in excess mortality in those people under 45 years old. See chart below.

Source: <https://metatron.substack.com/p/soaring-deaths-of-young-americans>

### Excess Deaths, United States Under 45 Year Olds

More evidence of this excess mortality in the young is provided in the chart below.

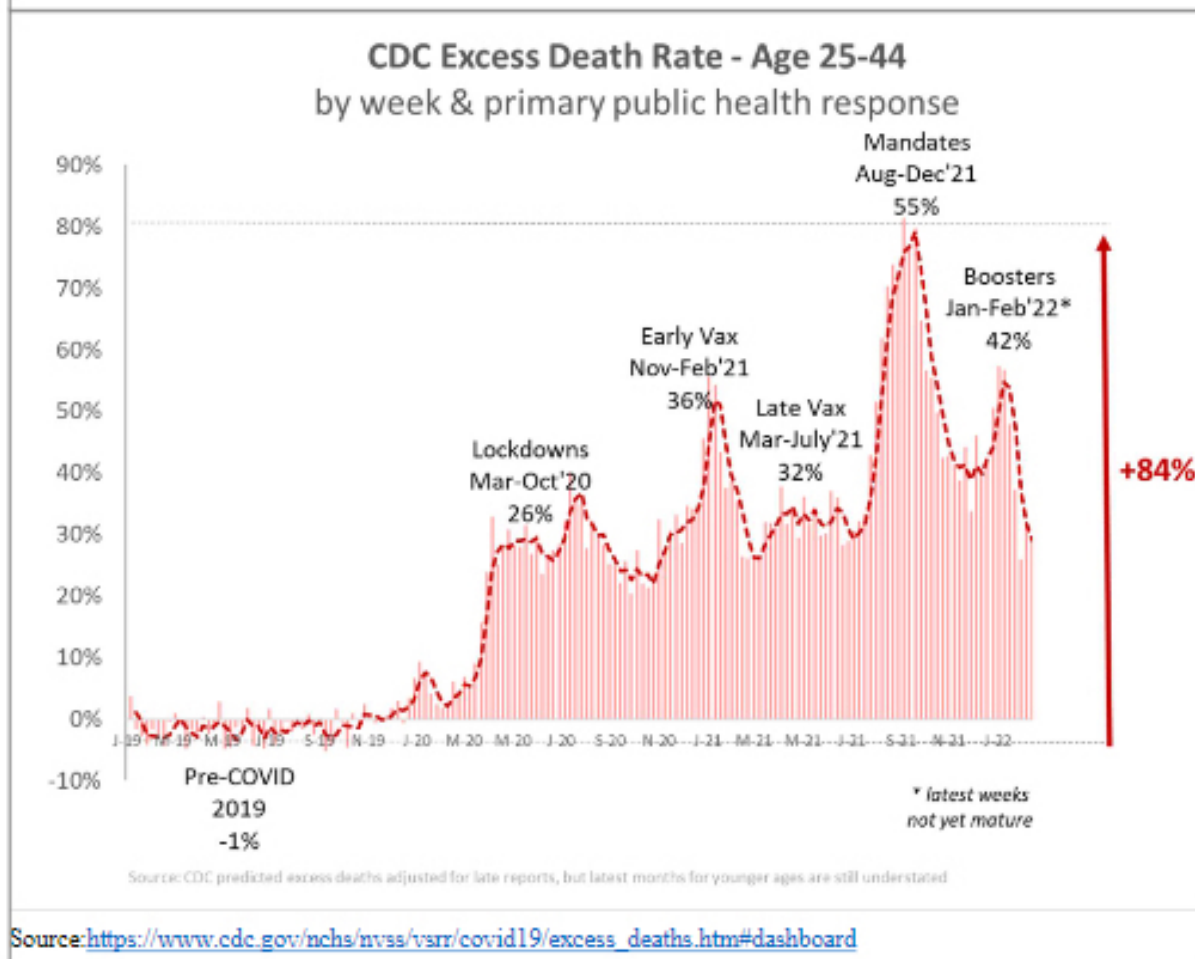

**The Millennial generation suffered its worst-ever excess mortality last fall**, and these deaths occurred the same time as vaccine mandates were announced, and boosters approved.

This younger population is not particularly at risk to COVID, and the size and timing of this spike in fall of 2021, raises clear questions about potential contribution from the vaccines and boosters.

As you know, mortality reporting for younger age people is also typically much slower (due to slower reporting of non-hospital deaths), so the recently elevated levels for this age group persisting into early 2022 will most likely develop further, and may signal for continuing elevated mortality among working age in 2022.

**Exhibit 4 | Millennials Suffered Rapid and Record Rate of Excess Deaths in Fall '21**

This was exposed publically by Ed Dowd a former executive at Blackrock. News report at

[https://www.lewrockwell.com/2022/03/no\\_author/edward-dowd-on-future-recession-shocking-findings-in-](https://www.lewrockwell.com/2022/03/no_author/edward-dowd-on-future-recession-shocking-findings-in-)

[the-cdc-covid-data-and-democide/](https://www.cdc.gov/covid-data-and-democide/)

and <https://www.bitchute.com/video/q1gDVth1CzoC/>

*“shows that the Millennial age group, 25 to 44 experienced an 84% increase in excess mortality into the fall. It’s the worst-ever excess mortality, I think, in history.”*

*“Basically, Millennials experienced a Vietnam War in the second half of 2021. 58,000 people died in the Vietnam War, US troops [over the course of 10 years], so this generation just experienced a Vietnam War in 6 months.”*

- Excess Mortality Doubled for Americans Aged 35 to 44: Edward Dowd on New Society of Actuaries Data [https://www.theepochtimes.com/84-percent-rise-in-excess-deaths-among-millennials-edward-dowd-on-new-society-of-actuaries-data\\_4710431.html](https://www.theepochtimes.com/84-percent-rise-in-excess-deaths-among-millennials-edward-dowd-on-new-society-of-actuaries-data_4710431.html)

- **US Bureau of Labor statistics has seen a big rise in disability claims since mid 2021 when covid19 vaccinations were given to Americans, and many workers were coerced into taking the vaccines to stay in work.**

News report with Ed Dowd at

<https://www.redvoicemedia.com/2022/09/this-is-a-signal-people-with-jobs-are-all-of-a-sudden-becoming-disabled-at-alarming-rates-video/ref/8/>

- disability rose by 3 standard deviations in 2021
- 6.6% rise in disability for year, 2021
- 22% rise in disability among working Americans in 2021
- from 2020 to 2022 the number of disabled rose from 29 million to 33 million, an increase of 4 million which is very significant.

Ed Dowd a former executive at Blackrock gave another news interview about this.

- **There was 25,792 excess deaths by week 44 in 2022 in England and Wales.**

This is from the Office of National Statistics in England and shows a large rise in excess mortality in England and Wales in 2021 and 2022. This started within a few months of the introduction of covid19 vaccines in January 2021. And the trend is continuing, this excess mortality will continue rising until the end of 2022. This is one of the highest excess mortality rises in history in peace time.

Source: <https://www.ons.gov.uk/visualisations/dvc2339/fig1/datadownload.xlsx>

- **16% increase in excess mortality in October 2022 in UK**

Deaths registered, UK, week ending 21 October 2022 was 13,463

This is 16% above the five-year average

1,822 excess deaths in week ending 21 October 2022 while the figure was 1,379 in week up to 23 March, 2020 which marked the beginning of the lockdowns in the UK.

So excess deaths are much higher now than at the start of the pandemic in March 2020. Something is killing large numbers of people in 2022. The evidence points to the covid19 vaccines.

## Excess mortality: Cumulative deaths from all causes compared to projection based on previous years

The percentage difference between the cumulative number of deaths since 1 January 2020 and the cumulative projected deaths for the same period based on previous years. The reported number might not count all deaths that occurred due to incomplete coverage and delays in reporting.

- There have been 10,153 excess non-Covid deaths registered in England and Wales in the 12 weeks since April 23rd, the latest official data from the Office for National Statistics -

<https://www.ons.gov.uk/peoplepopulationandcommunity/birthsdeathsandmarriages/deaths/bulletins/deathsregisteredweeklyinenglandandwalesprovisional/weekending15july2022> .

In the week ending July 15th, 10,515 deaths were registered in England and Wales, which is 1,113 (11.2%) above the five-year average for the week. This corroborates evidence from Ireland, USA, Australia, and other countries.

News report: <https://dailysceptic.org/2022/07/27/excess-non-covid-deaths-top-10000-in-last-12-weeks-but-government-refuses-to-investigate-why/>

- More Evidence from Israeli government and scientists proves that the covid19 vaccines are unsafe and caused deaths, and serious illnesses and disabilities for many people

Data, statistics, official reports, and government meetings with top scientists provide strong evidence that the covid19 vaccines were unsafe and caused deaths, and serious illnesses and disabilities for large numbers of people. The Israeli Ministry of Health (MoH) was informed by their own hand-selected outside expert group headed by Prof. Mati Berkowitz that the COVID vaccines are not as safe as the MoH had been claiming to the Israeli people. This is causing great concern for the Israeli government and health officials and scientists and medical doctors in Israel. Illegal attempts to cover up this have also been exposed. Dr. Steve Kirsch provides the facts and evidence in a scientific review at :

<https://stevekirsch.substack.com/p/exclusive-proof-that-the-top-israeli>

and a separate news report by an Israeli journalist confirms the above

**The Illegal Suppression and Blocking of Ivermectin for treatment of covid19 in Ireland led to loss of lives in Ireland and other countries. Over 70% of covid19 deaths could have been prevented by using Ivermectin and early medical treatment recommended by the FLCCC. Ivermectin was and is more effective and safer than covid19 vaccines. The advice of top scientists and medical doctors was ignored by HIQA and the Irish government in Ireland.**

The British Ivermectin Recommendation Development (BIRD) group contacted HIQA and the Irish government in March 2021 and provided strong scientific evidence of the effectiveness and safety of Ivermectin in the treatment of covid19.

I attach the email sent from BIRD group to HIQA in Ireland in March 2021

**From:** claire@e-bmc.co.uk <claire@e-bmc.co.uk>  
**To:** dspillane@hiqa.ie <dspillane@hiqa.ie>  
**Cc:** Tess Lawrie <tess@e-bmc.co.uk>  
**Sent:** Wednesday, March 10, 2021, 02:32:19 PM GMT  
**Subject:** guidelines for the treatment of covid-19

Dear Dr Máirín Ryan and Ms. Spillane,

We are writing to share with you the evidence on ivermectin for the prevention and treatment of Covid-19, as well as the drug's safety profile.

We have read the conclusions reached by HIQA's COVID-19 Expert Advisory Group (EAG) regarding the evidence on ivermectin for covid-19. This conclusion differs fundamentally from that reached by Dr. Hill in his WHO-commissioned review, the review conducted by the FLCCC in the USA, and the most recent review by Dr. Tess Lawrie. Especially Dr. Lawrie's review follows the most strict WHO and Cochrane methodologies for systematic reviews and meta-analysis, and could be said to be the most conservative assessment and interpretation of the evidence. Even so, all three reviews concur that ivermectin substantially reduces mortality and morbidity from covid-19, and significantly reduces the spread of infection.

In the interest of saving lives and stemming the spread of infection, we hope you will seriously consider the information we share with you below.

The evidence we present is based on a review and meta-analysis conducted by a team lead by Dr. Tess Lawrie of the Evidence-Based Medicine Consultancy, Ltd., in Bath, UK. Dr. Lawrie specialises in synthesising evidence for the development of guidelines. Her main clients are the World Health Organization, the British National Health Service (NHS), and Cochrane. For more information on Dr. Lawrie's professional credentials, please see her publications list on ResearchGate <https://www.researchgate.net/profile/Theresa-Lawrie>

More recently, Dr. Lawrie presented the evidence on ivermectin at the British Ivermectin Recommendation Development (BIRD) Meeting (Saturday 20th February 2021) via Zoom from Bath, United Kingdom. The expert panel of health and allied professionals and other stakeholders included representatives from 16 countries, namely Argentina, Australia, Belgium, Botswana, Canada, France, Hungary, India, Ireland, Japan, Peru, Nigeria, South Africa, The Philippines, United States, United Kingdom. The ethos of the BIRD meeting was that of scientific rigour and transparency in the spirit of international collaboration towards a common goal – that of saving lives.

The recommendation was developed according *The WHO Handbook of Guideline Development (2014)*. BIRD panel conclusions are that ivermectin should be approved immediately for prevention and treatment of covid-19.

#### The BIRD recommendation on covid-19 prevention and treatment

*The British Ivermectin Recommendation Development Panel recommends ivermectin for the prevention and treatment of covid-19 to reduce morbidity and mortality associated with covid-19 infection and to prevent covid-19 infection among those at higher risk.*

The BIRD Steering Group has taken heed of the WHO statement on 'Developing global norms for sharing data and results during public health emergencies' that states that 'public disclosure of information of relevance to public health emergencies should not be delayed', and also notes the 'very great risks' that can occur from 'withholding data and results arising from analyses'. We are, therefore, sharing this evidence-to decision framework within just a few days of the BIRD meeting to avoid delay.

Information on the process and methods can be found among the annexes, and an Executive Summary is also attached for your convenience. Due to the evolving nature of the situation, we have marked the BIRD recommendation as a 'DRAFT' document. But please consider its contents finalised. Furthermore, for your information, we have attached the safety profile of ivermectin and the official temporary approval of ivermectin for covid-19 issued by the Czech Ministry of Health.

We look forward to hearing from you soon and would be happy meet with you via teleconference if you think this will be helpful.

Please do not hesitate to contact us with any questions.

Kind regards,

Dr. Tess Lawrie, on behalf of the BIRD Steering Group and Recommendation Development Panel

Director

Evidence-based Medicine Consultancy Ltd

## HIQA reply to BIRD group

On 15 Mar 2021, at 14:44, Debra Spillane <[dspillane@hiqa.ie](mailto:dspillane@hiqa.ie)> wrote:

Dear Colleague,

Thank you for your recent emails in relation to the effectiveness of ivermectin in COVID-19. HIQA's COVID-19 Evidence Synthesis Team performed a review in January 2021 to assess the evidence for the effectiveness of (i) pharmaceutical and (ii) non-pharmaceutical interventions, in the community setting, aimed at reducing progression to severe disease in individuals with confirmed or suspected COVID-19.

The evidence included in the HIQA review was subject to pre-defined inclusion and exclusion criteria, which are detailed [here](#). Based on these criteria, two trials of ivermectin were found to be eligible for inclusion in the review; both were published as preprints (i.e. not peer-reviewed). Details of the quality assessments are presented in Appendix 2 of our report, available [here](#).

Upon examination of the evidence, HIQA's COVID-19 Expert Advisory Group (EAG) considered that the trials presented within the review are severely limited with respect to the certainty, quantity, and applicability of the evidence and are insufficient to inform decision-making on treatment options for COVID-19 in Ireland. The EAG agreed that there is currently insufficient evidence that any of the interventions identified may be safely used in the treatment of COVID-19. Furthermore, the EAG confirmed that evidence regarding the effectiveness of therapeutic interventions, particularly for pharmaceutical treatments, must adhere to the usual requirements for robust clinical governance and show sufficient evidence of effectiveness and safety. HIQA's advice to NPHET, which was informed by the evidence synthesis and the review of the evidence by the Expert Advisory Group, is available [here](#).

Kind regards,

Debra Spillane

On behalf of Dr Máirín Ryan, Director of Health Technology Assessment & Deputy Chief Executive Officer

## Reply from BIRD group to HIQA in Ireland

**From:** Tess Lawrie <[tess@e-bmc.co.uk](mailto:tess@e-bmc.co.uk)>  
**Subject: Re: guidelines for the treatment of covid-19**  
**Date:** 15 March 2021 at 15:07:14 GMT  
**To:** Debra Spillane <[dspillane@hiqa.ie](mailto:dspillane@hiqa.ie)>  
**Cc:** "claire@e-bmc.co.uk" <[claire@e-bmc.co.uk](mailto:claire@e-bmc.co.uk)>

Dear Dr Ryan and Mrs. Spillane,

Thank you for your reply. The evidence on ivermectin is a rapidly evolving field with data from many new trials now available since the HIQA's assessment in January. There is evidence on the use of ivermectin against covid from a wide variety of sources, including country case studies and many other study designs, in addition to the 21 randomised trials that we included in our systematic review. In addition, there are now 5 systematic reviews on the subject supporting a large effect of ivermectin on reducing covid deaths.

KORY et al 2021 <https://f.co/B3MRnPAw5R>  
HILL et al 2021 <https://f.co/r8fQlgbgu>  
COBOS-CAMPOS et al 2021 <https://f.co/EDRx8vyqoe>  
BRYANT et al 2021 <https://f.co/u148ZUsvy>  
NARDELI et al 2021 (attached)

In case you are unaware, the individual trials and overall evidence in our review has been strictly quality assessed to take into account the limitations you emphasis below. In failing to adequately and fully evaluate the evidence on ivermectin for covid, your agency and the EAG are acting as gatekeepers to a nation's health and putting Irish lives at risk. I urge you to read the attached review and update your out-of-date evidence base.

If you need help doing so, or have any questions, please don't hesitate to contact me.

Kind regards,

Dr. Theresa Lawrie  
Evidence-based Medicine Consultancy Ltd

+44 1225 618915

HIQA deliberately chose to ignore the scientific and medical evidence showing Ivermectin's effectiveness against covid19. And the fact that Ivermectin was very safe. HIQA's actions led to loss of lives from covid19 in Ireland.

The data showed in mid 2021 and into 2022 that Ivermectin was safer than the covid19 vaccines, and is more effective than the covid19 vaccines. The data and evidence now show that covid vaccinated people continued to get infected and re-infected with sars-cov2 and be hospitalized and die in high numbers ; higher than the unvaccinated. HIQA has ignored this evidence also. The policy of HIQA has been to fob off scientists, doctors, published scientific studies, official statistics and concerned citizens and place people's lives in danger. This will require a public enquiry, tribunals and court cases.

## More Corroborating evidence about the sudden rise in monkey pox cases and relationship to covid vaccines

Professor Shmuel Shapira, M.D., MPH, has made some interesting discoveries about monkey pox and the damage caused by covid19 vaccines, and the relationship between the two. He served as the

Director General of the Israel Institute for Biological Research (IIBR) between 2013 and 2021, where he led Israel's effort to develop a coronavirus vaccine.

Prof. Shapira is also the founder and head of the Department of Military Medicine of the Hebrew University Faculty of Medicine and IDF Medical Corps. He is a Senior Research Fellow at the International Institute for Counter-Terrorism (ICT) at Reichman University in Israel. Shapira previously served as Deputy Director General of the Hadassah Medical Organization and as the Director of the Hebrew University Hadassah School of Public Health. He is a Full Colonel (Res.) in the Israel Defense Forces (IDF) and served as the IDF Head of Trauma Branch.

Twitter Censors Pfizer-Injured Israeli COVID Vaccine Director

## **Covid19 deaths ? Questions for the Defence or the State in the Courts**

Of all covid19 deaths

1. How many had co-morbid or co-existing illnesses which were capable of causing death and mislabelled as covid19 ? and how many co-existing illnesses did they have ?
2. How many were over 75 and had co-morbid illnesses and would have died during that period even if covid19 had never existed ?
3. How many died in accidents and their deaths mislabelled as covid19 ?
4. How many died of natural causes such as heart attacks, strokes, cancers, and their deaths mislabelled as covid19 ?
5. How many died from being deprived of proper medicines for their prior illnesses or co-existing illnesses after the covid19 diagnosis ?
6. How many people were wrongly diagnosed as covid19 ? In Ireland the PCR cycle counts were from 40 - 45. Scientific studies show that a cycle count over 35 gives a 97% false positive rate.
7. In the USA, hospitals were given \$13,000 from the state for every covid19 patient. They were incentivised to label as many people as possible as "covid19". How much money was given here in this country ?
8. How many were put on ventilators at high pressure and were killed by the ventilators ?  
There were 80% - 90% deaths on ventilators at high pressure for covid19 patients.  
This is well acknowledged by the medical and scientific community , and known to have caused many unnecessary deaths. In the USA, hospitals received \$39,000 from the state for every covid19

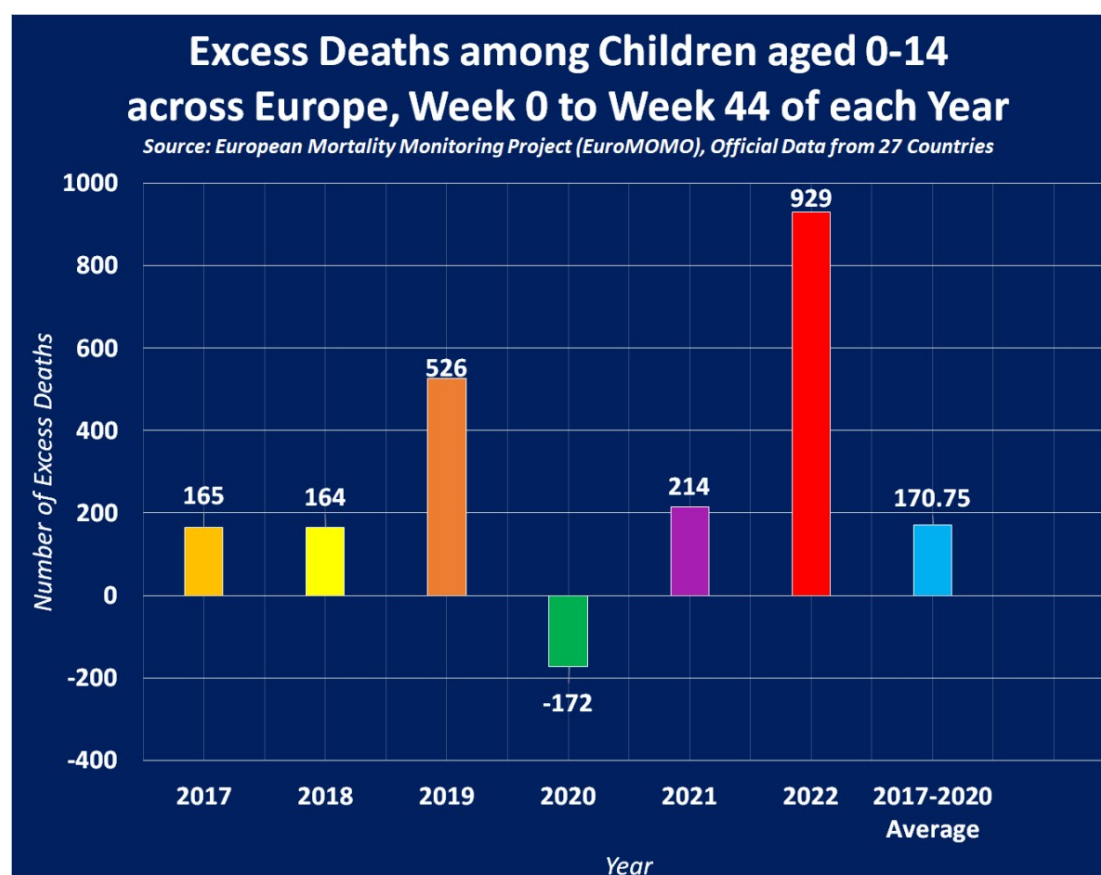

patient put on a ventilator. They were incentivised to put as many people as possible on ventilators. How much money was given here in this country ?

9. How many died as a result of being refused access to an oxygen machine in hospitals ?
10. In the USA, hospitals received \$13,000 from the state for every covid19 patient who died. They were incentivised to label deaths as “covid19”. How much was given here in this country ? How much money was given here in this country ?
11. How many covid19 patients were denied early treatment by doctors. Effective treatments such as Hydroxychloroquine, Ivermectin, Budenoside, the Zelenko Protocol, the Fareed and Tyson Protocol, Paxlovid, and supplemented with Vitamins D and C.
12. How many elderly people were killed by high doses of Midazolam and their deaths called covid19?
13. How many elderly people were killed by high doses of Remdesivir and their deaths called covid19 ?  
In the USA, hospitals received large amounts of money from the state for every covid19 patient who died. How much was given here in this country ?
14. How many were people killed by the experimental covid19 vaccines and mislabelled as covid19 or long covid ?

# Additional Evidence for Book of Evidence 15

## Reckless Endangerment of Children

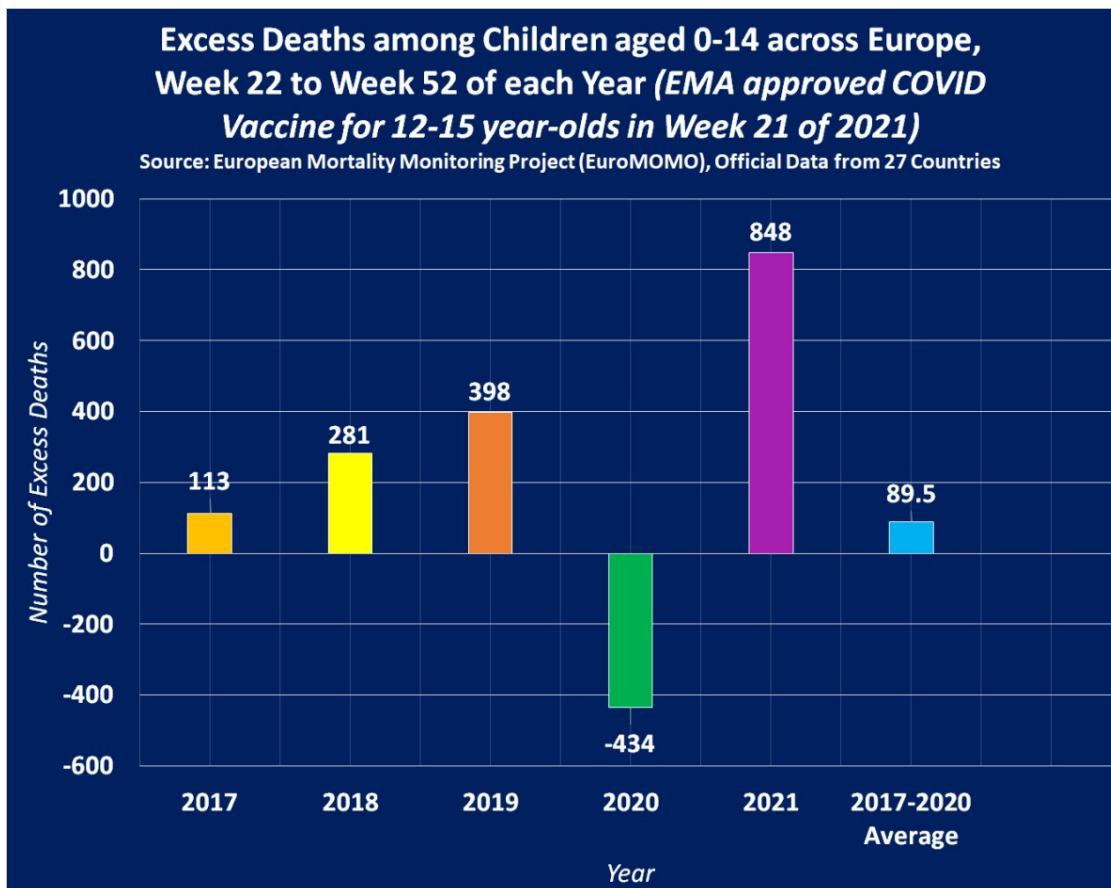

- According to Euromomo statistics excess deaths among children across Europe had increased by a massive 552% from week 22 in 2021 to week 4 in 2022. With an 848% increase recorded up to the end of 2021, and a 444% increase recorded so far in 2022.

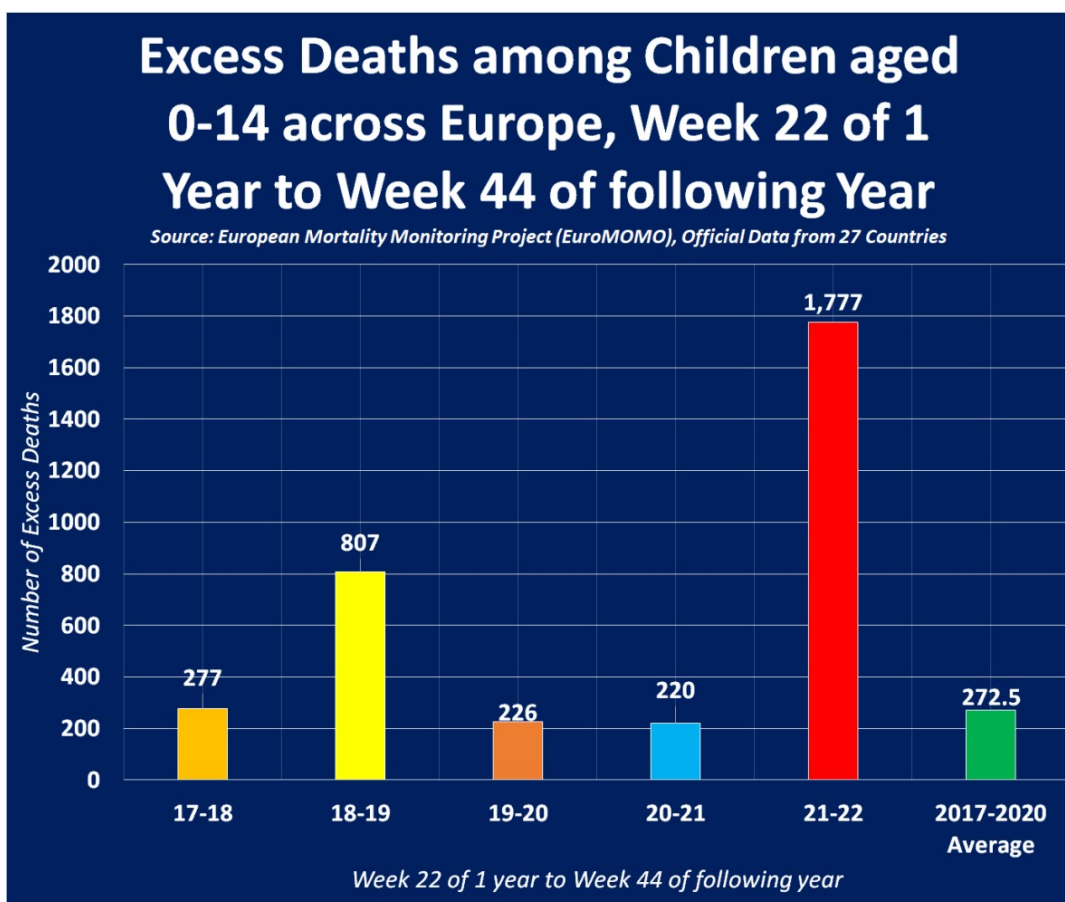

Source: <https://www.euromomo.eu/graphs-and-maps>

444% increase over 2017-2020 average

Covid19 vaccines were approved by the EMA for children from week 22 of 2021. The first chart examines excess mortality over weeks 22 to 52 for a few years and the 2017-2020 average and the second chart examines the excess mortality from week 22 of one year to week 44 of the following year..

848% increase over 2017-2020 average

552% increase over 2017-2020 average

- The big rise in Excess Mortality for children aged 0 – 14 begins after week 22 in 2021 when they start receiving covid19 vaccines. This has continued up the present in 2022

..... Baseline — 2022 — 2021

## 0-14 years

Euromomo statistics continue to show a big increase in excess mortality for children aged 0 to 14 in 2022. This big increase in excess mortality in late 2021 and for 2022 is related to the covid19 vaccinations of children during this time. The following chart tracks excess mortality up to week 44 in 2022.

WEEK RANGE

Week 0 Week 52

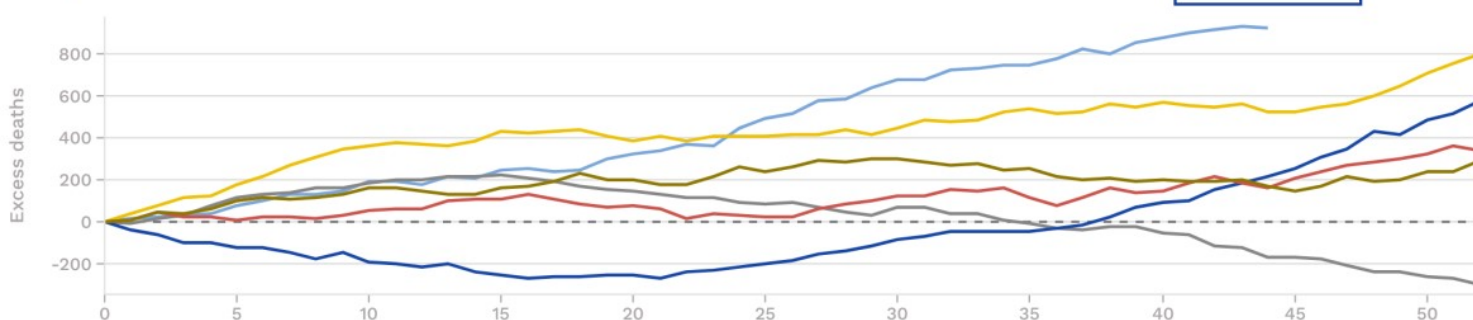

SHOW

Weekly

Cumulated

..... Baseline — 2022 — 2020 — 2021 — 2019 — 2018 — 2016 — 2017

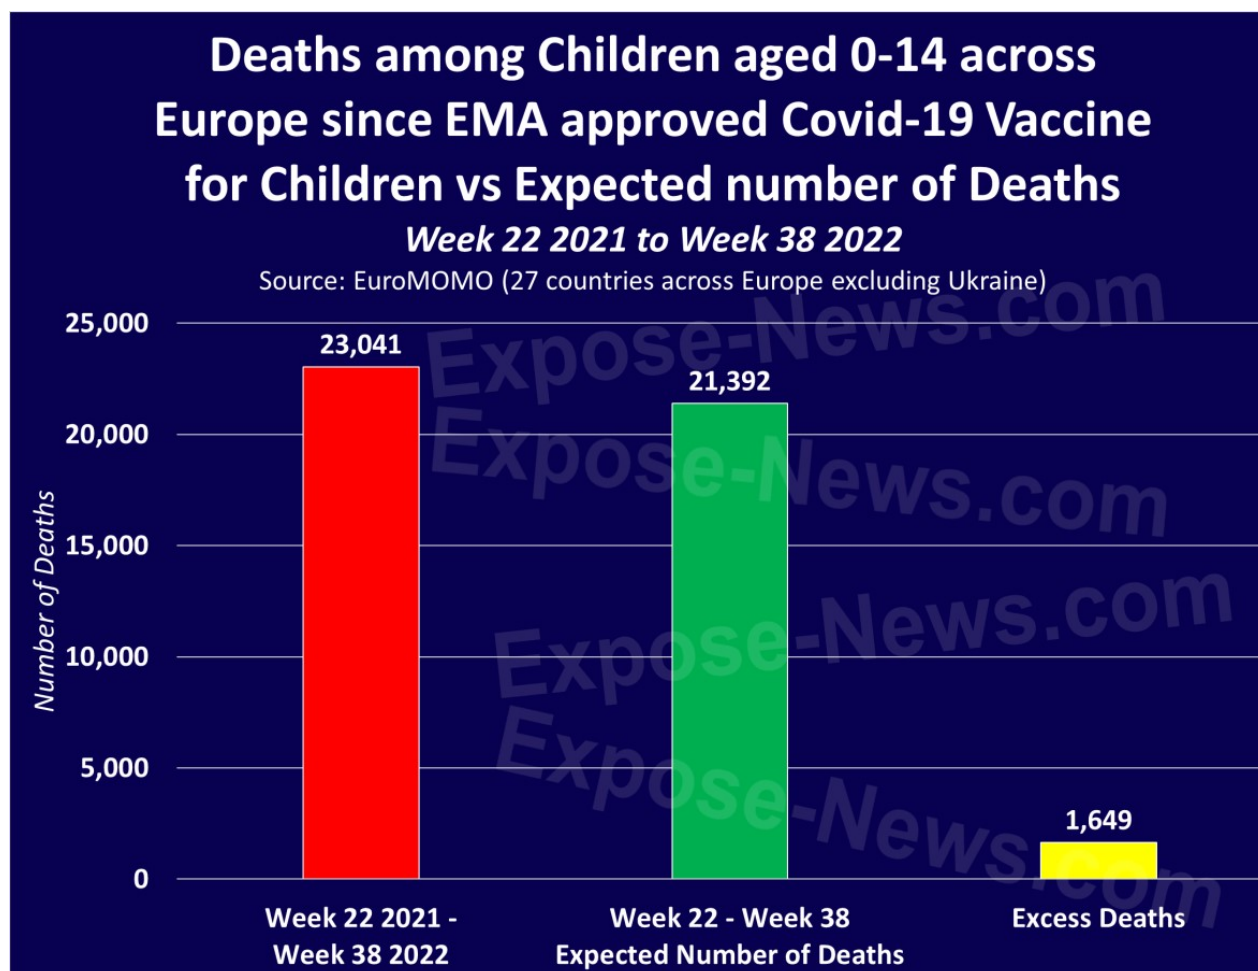

## 0-14 years

Source: <https://www.euromomo.eu/graphs-and-maps/>

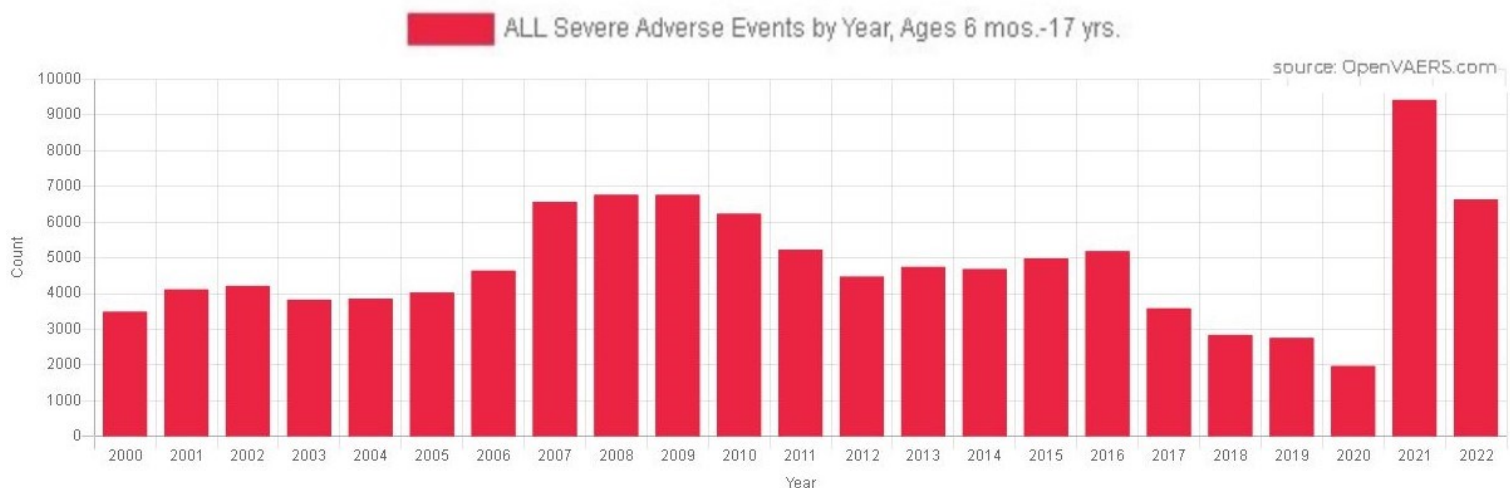

- Rise in excess mortality for children since the EMA approved covid19 vaccines for children in Europe. From week 22 of 2021 to week 38 of 2022

**Sources:** Euromomo <https://www.euromomo.eu/graphs-and-maps/#>  
and <https://expose-news.com>

- The VAERS data also show that these covid19 vaccines have caused more serious adverse effects for children than any other vaccine in the last 22 years.

- **14 year old child in Ireland is killed by the Pfizer covid19 vaccine**

**This news report appeared in the Irish Independent newspaper on November 21<sup>st</sup> 2022.**

## Achill Island boy (14) died three weeks after getting first dose of Pfizer Covid vaccine, inquest hears

[More On Mayo news](#)

<https://www.independent.ie/irish-news/health/achill-island-boy-14-died-three-weeks-after-getting-first-dose-of-pfizer-covid-vaccine-inquest-hears-42162426.html>

The child, Joseph McGinty and his parents were told that the covid19 vaccine was safe and effective by the HSE, the CMO and NPHET and the Irish government. They were lied to. The death was described by Co Mayo coroner Pat O'Connor as an issue is of "significant public concern".

- **Press Conference held by top German medical doctors, Professors and Scientists condemn covid19 vaccines for small children as they pose too many risks of serious injuries, illnesses, disabilities or death. This was held in November 2022.**

- Incidence of Myocarditis/Pericarditis Following mRNA COVID-19 Vaccination Among Children and Younger Adults in the United States

Goddard et al.

<https://www.acpjournals.org/doi/10.7326/M22-2274#t1-M222274>

- In the USA the Pfizer vaccinations in the 5-11 year olds led to very poor efficacy; 31% [according to the CDC](#) and 12% after 7 weeks according to a massive database comprising over 1.3 million children (365,000 of whom were vaccinated) from [the NY Department of Health](#). Five to 11-year-old children dropped into the **negative efficacy** by 8 weeks after receiving the second dose. Negative efficacy means the vaccine is totally ineffective against covid19 and actually increases a child's chance of getting infected with covid19. There was a large, linear drop in efficacy seen with each successive week following full vaccination. Extremely narrow confidence intervals confirm the validity of these data. By 8 weeks following their second dose, vaccinated children were placed at higher risk of developing COVID19 than unvaccinated children. By 9 weeks, their risk was even higher. The fact is that being vaccinated placed these children in a higher risk category for a COVID19 infection than if they had never been vaccinated.

Scientific paper titled 'Effectiveness of the BNT162b2 vaccine among children 5-11 and 12-17 years in New York after the Emergence of the Omicron Variant '

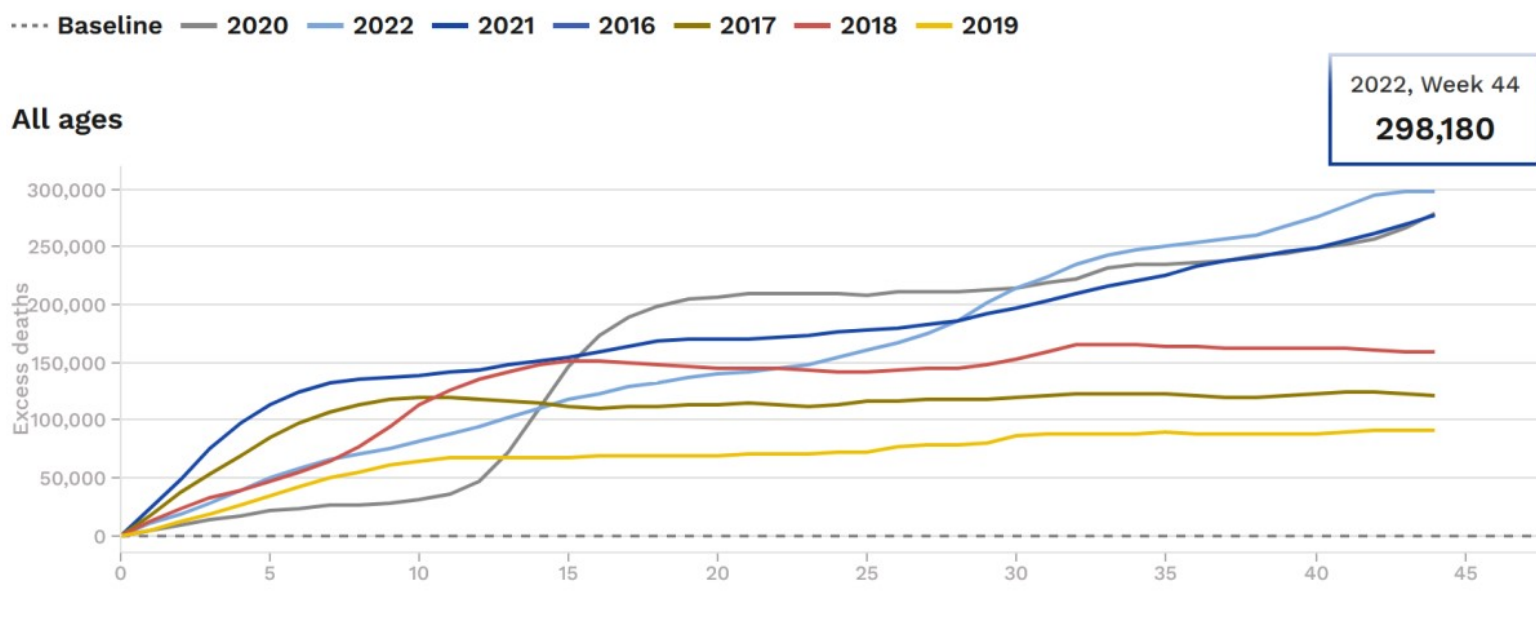

Dorabawila et al. 2022

- Dr. James Thorp is an extensively published 68-year-old physician MD board-certified in obstetrics and gynecology, as well as maternal-fetal medicine, who has practiced obstetrics for over 42 years. He has stated publicly that the covid19 vaccines are very dangerous for pregnant women. News report at [https://www.theepochtimes.com/what-ive-seen-in-the-last-two-years-is-unprecedented-physician-on-covid-vaccine-side-effects-on-pregnant-women\\_4428291.html](https://www.theepochtimes.com/what-ive-seen-in-the-last-two-years-is-unprecedented-physician-on-covid-vaccine-side-effects-on-pregnant-women_4428291.html) and  
<https://stevekirsch.substack.com/p/why-dr-james-thorp-is-a-hero-but>

## Excess Mortality

- Mortality figures published by 27 countries across Europe reveal that the continent has suffered nearly 300,000 excess deaths so far this year. Officially making 2022 a record-breaking year in terms of death.

Source: <https://www.euromomo.eu/graphs-and-maps>

This is much higher than 2020 the year of the pandemic. Yet this is being ignored by the press and media

- **Statistics provided by our World in Data shows high excess mortality in highly vaccinated countries and highly boosted countries**

Statistical Tables of excess mortality, covid19 vaccination rates per country and booster rates per country are provided in the following documents

Vaccinated Countries.doc

Booster Countries.doc

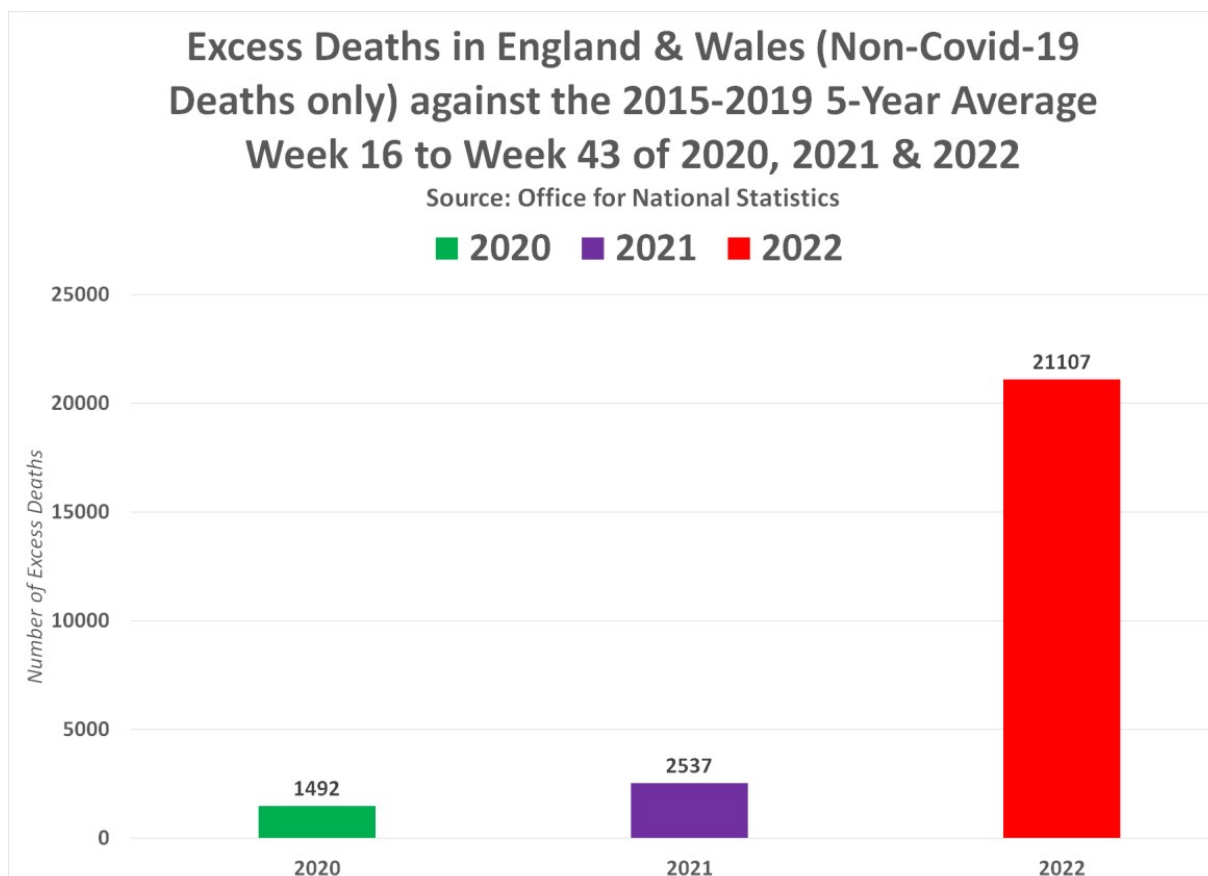

Eurostat.doc

Excess Mortality.doc

- I present Exhibit 15b which are statistics from the Central Statistics Office showing an increase in deaths of 39% in the second quarter of 2022 compared to the second quarter of 2021 in Ireland. The death figures for Quarter 2 of 2022 are also higher than Quarter 2 of 2020, which was the middle of the covid19 pandemic ! This increase in deaths of 39% in Ireland in 2022 is very significant. We have also included statistical projections for quarter 4 of 2022 which show an increase in excess mortality of 25% over 2021 and an increase in excess mortality of 45% over 2020. Something is killing large numbers of Irish people in 2022 !

Chart 2 is from Eurostat and shows big increases in excess mortality in Ireland in 2022. One month had an excess mortality of 19.2%. All of this shows that something is killing large numbers of Irish people in 2022. Its worse than the covid19 pandemic.

- I present Exhibit 15c which compares excess mortality in 2022 to previous years in Australia. Excess mortality in Australia in 2022 is 14 times higher than in 2020 the year of the pandemic. Let me repeat this fact to the court - Excess mortality in Australia in 2022 is 14 times higher than in 2020 the year of the pandemic. This is mass killing.
- I present Exhibit 10b showing excess mortality of 349,348 in the USA by week 38 of 2022 and a second graph comparing 2022 to 2021 and 2020 in terms of excess mortality and a third graph showing an excess mortality of 1.1 million people since covid19 vaccines were introduced in December 2020. These graphs show a strong link between the introduction of covid19 vaccines and a large rise in excess mortality.
- Next I present graphs showing excess mortality for children aged 0 to 14 across Europe to the court now. This shows a massive rise in excess mortality from mid 2021 to the present. This is Exhibit 11.
- I present Exhibit 11a showing a massive rise in excess mortality for children and young adults in 2021 and 2022 after covid19 vaccinations. This is compared to 2002.
- **Official UK Government data states that all-cause excess deaths have increased by a shocking 1,314% over the past 6 months in 2022 compared to the same period in 2020, and 731% compared to the same period in 2021.**

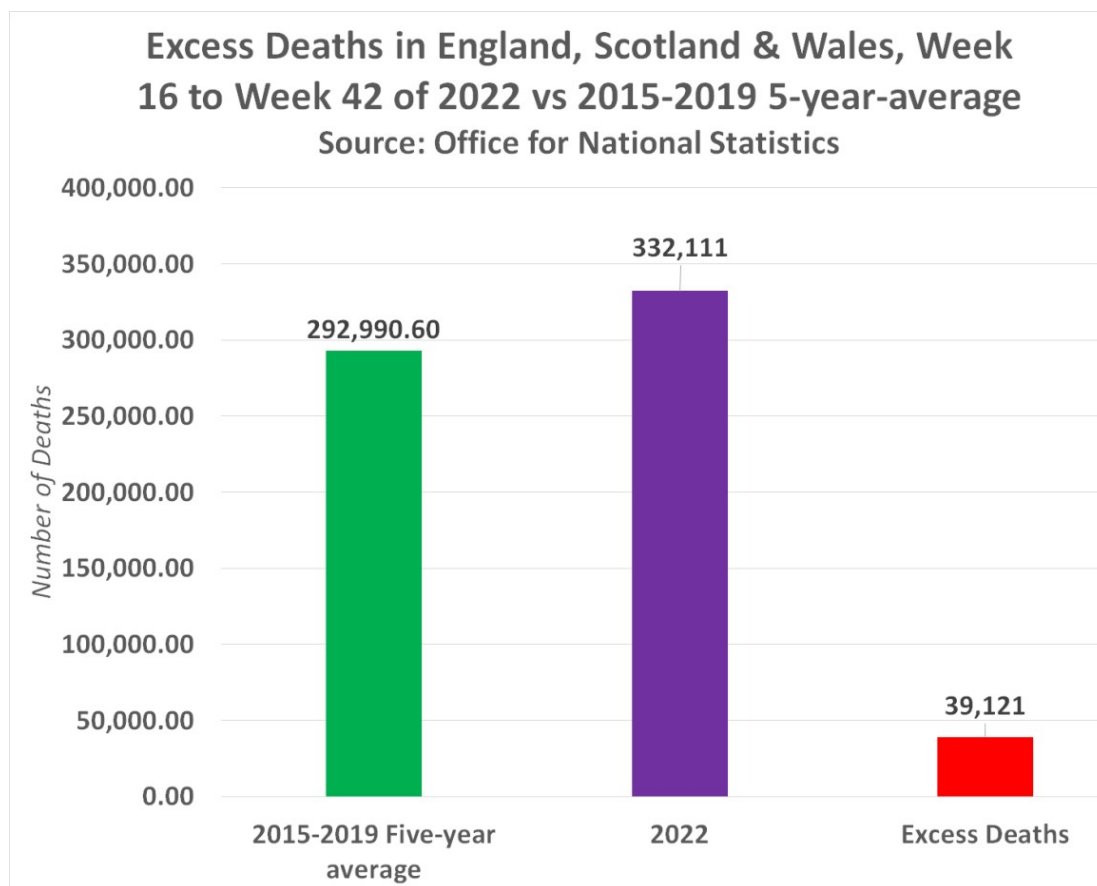

Source: <https://www.ons.gov.uk/visualisations/dvc2329/fig1/datadownload.xlsx>

<https://www.ons.gov.uk/peoplepopulationandcommunity/birthsdeathsandmarriages/deaths/bulletins/deathsregisteredweeklyinenglandandwalesprovisional/weekending28october2022>

This means excess deaths in 2022 not related to Covid-19 are 731% higher than they were in 2021 and a shocking 1,314% higher than they were in 2020.

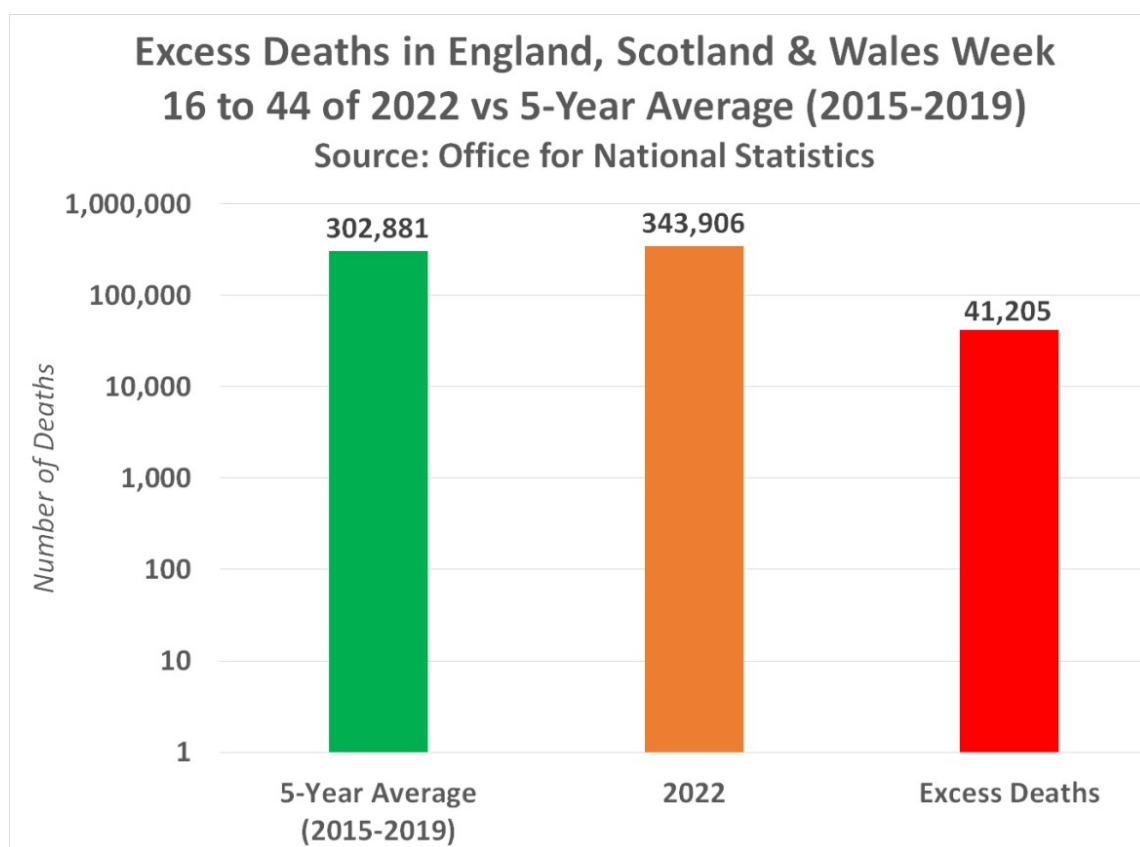

- The total excess death figures (non covid and covid) for England, Scotland, and Wales are below.

<https://www.ons.gov.uk/visualisations/dvc2329/fig1/datadownload.xlsx>

and

Public Health Scotland <https://scotland.shinyapps.io/phs-covid-wider-impact/>

**Source:**

and

<https://scotland.shinyapps.io/phs-covid-wider-impact/>

- **Big rise in Excess Mortality in late 2021 and 2022 after introduction of covid19 vaccines**

In 2022, there were 111,008 deaths that occurred by 31 July, and were registered by 30 September, which is 16,375 (17.3%) more than the historical average.

In July there were 17,936 deaths, 2,503 (16.2%) above the historical average.

<https://www.abs.gov.au/statistics/health/causes-death/provisional-mortality-statistics/latest-release>

- **Official Statistics show very low excess mortality for covid19 in Ireland**

The panic and fear around covid19 was unjustified in Ireland as it had one of the lowest excess mortality in the world for 2020 and 2021. The Republic of Ireland had an excess mortality rate of 12.5 per 100,000 people during 2020 and 2021, according to a major global study in the Lancet.

Published scientific study below.

Estimating excess mortality due to the COVID-19 pandemic: a systematic analysis of COVID-19-related mortality, 2020–21

## **Illnesses, Disabilities and Deaths caused by Covid19 Vaccines. Evidence which shows the covid vaccines are not safe and not effective.**

- In Israel, a study in [Nature](#) observed a similar trend for 16-39 year-olds, with cardiac arrest emergency calls rising and falling with the first and second doses and then rising and falling again after doses for recovered individuals. This is a strong indicator of causality.  
<https://www.nature.com/articles/s41598-022-10928-z#Fig1>
- In New Zealand, economist John Gibson found a temporal association between boosters and excess deaths, estimating “16 excess deaths per 100,000 booster doses” (see below). He noted that the age distribution of the deaths corroborated the hypothesis: “The age groups most likely to use boosters show large rises in excess mortality after boosters are rolled out.”  
<https://repec.its.waikato.ac.nz/wai/econwp/2211.pdf>
- A medical doctor, Vinny Prasad, analyses new scientific studies showing the big rise in myocarditis, subclinical myocarditis and other heart damage after covid19 vaccination in adults and children.  
Video lecture at [https://www.youtube.com/watch?v=vveMHtVk\\_mY](https://www.youtube.com/watch?v=vveMHtVk_mY)

## Subclinical Myocarditis - NEW Report from Switzerland - Vital Findings

[https://www.youtube.com/watch?v=vveMHtVk\\_mY](https://www.youtube.com/watch?v=vveMHtVk_mY)

**News Report:** <https://dailysceptic.org/2022/10/27/mrna-vaccines-injure-the-heart-of-all-vaccine-recipients-and-cause-myocarditis-in-up-to-1-in-27-study-finds/>

- **30,000 excess deaths involving heart disease in the UK since 2020**

The heart diseases associated with covid19 vaccines and identified in covid19 vaccinated people are having serious consequences in Britain

<https://www.bhf.org.uk/what-we-do/news-from-the-bhf/news-archive/2022/november/extreme-heart-care-disruption-linked-to-excess-deaths-involving-heart-disease>

and

the Office for Health Improvement and Disparities in the UK has identified a big rise in excess deaths from Ischaemic heart diseases in 2022

<https://app.powerbi.com/view?r=eyJrIjoiYmUwNmFhMjYtNGZhYS00NDk2LWFMlMTAtOTg0OGRhNmFiNGM0IiwidCI6ImVINGUxNDk5LTRhMzUtNGlyZS1hZDQ3LTVMm2NmOWRlODY2NiIsImMiOiJh9>

- **Expert group HART (Health Advisory and Recovery Team) consisting of top medical doctors and scientists in the UK has pointed to Australia as a "control group" on this matter of covid19 deaths VS covid19 vaccine deaths.** HART notes that even though Australia had not had significant Covid (only 30,000 reported infections and 910 deaths) prior to mid-2021, it still saw a trend in excess non-Covid deaths beginning in June 2021 . **HART notes that Australia "did not have prior Covid as a**

**reason for seeing this rise in mortality and hospital pressure from spring 2021". Instead, "the results from this control group indicate that the cause of this rise in deaths, particularly in young people, must be something in common with Australia, Europe and the USA". That is mass covid19 vaccinations.**

<https://www.hartgroup.org/the-impact-of-synthetic-spike-protein/>

- **Big Rise in Health problems, illnesses and disabilities in the UK in 2022**

According to Office for National Statistics, the number of people on long-term sick other health problems or disabilities, between April and June 2022, was 97,000 higher than the same period in 2019. This is a 41% increase. This coincides with the covid19 vaccinations and the high number of serious illnesses and disabilities known to be associated with it.

Total number of people who are long term disabled or seriously ill since 2020 has risen by 363,000 to 500,000 people in November 2022. The years 2021 and 2022 saw a massive rise in these figures, far higher than 2020 the year of the pandemic. This coincided with the introduction of covid19 vaccines in 2021. Many of these people are covid vaccine injured. This corroborates the evidence in our books of evidence. This sudden and massive increase in the number of long term disabled in addition to the big rise in excess mortality from mid 2021 to the present (Winter 2022) is a national disaster for Britain.

- Review of v-safe Data During August 31–October 23, 2022

211,959 v-safe registrants had a bivalent booster

1,464 (0.7%) were aged 12–17 years

68,592 (32.4%) were aged 18–49 years

59,209 (27.9%) were aged 50–64 years

82,694 (39.0%) were aged ≥65 years

In the week after receipt of the bivalent booster dose

Systemic reactions

43.5% among aged ≥65

67.9% among aged 18–49

Systemic symptoms Fatigue (30.0%–53.1%) Headache (19.7%–42.8%) Myalgia (20.3%–41.3%) Fever (10.2%–26.3%)

Reported inability to complete normal daily activities

10.6% among aged ≥65 years

19.8% among aged 18–49 years

- A published study in the Journal of the American medical Association shows that the number of reinfections increases with every vaccine dose received.

Rate of SARS-CoV-2 Reinfection During an Omicron Wave in Iceland

Sigurdsson et al. 2022

- **Health Insurance data from Germany**

After analyzing data from over 10 million individuals, BKK ProVita board member Andreas Schöfbeck, over a 7.5 month period beginning in early 2021, **216,695 policyholders out of 10.9 million** were treated for vaccine side-effects. This compares to **244,576 reports out of 61.4 million** reported by the Paul Ehrlich Institute - a German federal agency.

Schöfbeck called the data an "alarm signal," adding "The numbers determined are significant and urgently need to be checked for plausibility."

He said "The data available to our company gives us reason to believe that there is a very considerable under-recording of suspected cases of vaccination side-effects after they received the [COVID-19] vaccine."

"If these figures are applied to the year as a whole and to" the entire population of Germany, Schöfbeck estimated, then "probably 2.5 - 3 million people in Germany been under medical treatment because of vaccination side effects after [COVID-19] vaccination."

[https://www.welt.de/bin/brief%20PEI\\_bin-237107021.pdf](https://www.welt.de/bin/brief%20PEI_bin-237107021.pdf)

- Highly vaccinated China records its highest number of covid19 infections in November 2022

‘China shuts down as it records highest number of Covid infections yet’

Telegraph, Britain, November 24<sup>th</sup> 2022

<https://www.telegraph.co.uk/world-news/2022/11/24/iphone-factory-staff-offered-1400-leave-immediately-desperate/>

- In a recent study published in the prestigious New England Journal of Medicine, they reported that individuals fully vaccinated and boosted against COVID-19 recover markedly more slowly from the illness and remain contagious for lengthier periods of time compared to unvaccinated persons. Further, people that are vaccinated remain five times as contagious as those who are unvaccinated ten days after SARS-CoV-2 infection.

Duration of Shedding of Culturable Virus in SARS-CoV-2 Omicron (BA.1) Infection

Boucau et al. New England Journal of medicine 2022

- **The Medicare Study in USA**

<https://web.archive.org/web/20210924082828/https://www.humetrix.com/powerpoint-vaccine.html>

- Waning of BNT162b2 Vaccine Protection against SARS-CoV-2 Infection in Qatar

Chemaitelly et al. 2022

<https://www.nejm.org/doi/full/10.1056/NEJMoa2114114>

- I now draw the court's attention to an open and public letter containing advice given by a medical doctor, Dr. Pierre Kory to a mother of a child in the USA regarding informed consent and whether or not she should give the covid vaccine to her child. This letter provides the medical and scientific information and criteria which a parent should be given in order to make a fully informed decision and provide informed consent for their children. The letter is available online at

<https://pierrekory.substack.com/p/informed-consent-to-parents-contemplating>

The letter is divided into 9 points

1. efficacy of the COVID-19 mRNA vaccine in preventing illness in toddlers
2. risks associated with receipt of a COVID mRNA vaccine
3. risks of a healthy child suffering hospitalization and/or death from COVID
4. efficacy of the protection of natural immunity
5. benefits of health status in preventing severe outcomes
6. efficacy of COVID mRNA vaccine in preventing severe disease
7. efficacy of COVID mRNA vaccine in preventing transmission

8. efficacy of COVID mRNA vaccine in prevention of “long-haul” COVID
9. efficacy of alternatives to vaccination, i.e. early treatment options available

He states that the scientific and medical evidence show that the costs and risks of vaccinating the child far outweigh any benefits. He provides scientific evidence which clearly show the covid vaccines are NOT safe and NOT effective. And he states that there is a significant risk of injury, illnesses, disability or death for the child from this covid19 vaccine.

- **Dr. Pierre Kory mentions many scientific studies showing lack of safety and lack of effectiveness**

<https://pierrekory.substack.com/p/informed-consent-to-parents-contemplating>

- **Vaccine mandates were unlawful, illegal and unConstitutional**

The New York Supreme Court ruled on this in October 2022

<https://www.foxnews.com/us/new-york-supreme-court-reinstates-all-employees-fired-being-unvaccinated-orders-backpay>

- Here are the Danish figures from their Statens Serum Institut: Nov21 to Dec25 2021 –

<https://files.ssi.dk/covid19/omikron/statusrapport/rapport-omikronvarianten-31122021-ct18>

Vaccination status (12+ year olds)	Other variants (No. of cases)	Other variants (%)	Omicron (No. of cases)	Omicron (%)
Not vaccinated	21,390	23.7	3,500	8.5
Received first dose	2,813	3.1	731	1.8
Completed primary vaccination schedule	56,532	62.5	29,781	72.0
Revaccinated	9,704	10.7	7,330	17.7
Total	90,439	100.0	41,342	100.0

So the ratio of double or triple vaccinated Omicron cases to unvaccinated cases is 37,111 to 3500 or 10.6 to 1. The vaccinated are 10 times more likely to get infected than the unvaccinated.

- **Estimated Effectiveness of COVID-19 Vaccines Against Omicron or Delta Symptomatic Infection and Severe Outcomes**

Buchan et al. 2022. JAMA

<https://jamanetwork.com/journals/jamanetworkopen/fullarticle/2796615>

- **Ineffectiveness of covid19 vaccines. Negative Effectiveness of covid19 vaccines.**

The risk of Omicron infection increases dramatically with the number of vaccine doses, by up to 300% for three or more doses, a study has found, in one the most striking illustrations of negative vaccine efficacy yet to emerge. This corroborates the scientific evidence in our books of evidence and sworn affidavits filed in the court.

Effectiveness of the Coronavirus Disease 2019 (COVID-19) Bivalent Vaccine

Shrestha et al. 2022

<https://www.medrxiv.org/content/10.1101/2022.12.17.22283625v1.full.pdf>

This is supported by other scientific studies:

COVID-19 primary series and booster vaccination and immune imprinting

Chemaitelly et al. 2022

<https://www.medrxiv.org/content/10.1101/2022.10.31.22281756v1>

A Cleveland Clinic study of the effectiveness of COVID vaccines in people with a history of previous SARS-CoV-2 infection and those without found those who had COVID but weren't vaccinated appeared to have acquired strong natural immunity. People previously infected with SARS-CoV-2 were less likely to be reinfected than fully vaccinated individuals who never had the virus — suggesting the vaccine is of no benefit to people who already had COVID. Some evidence has emerged that demonstrates that the risk of a COVID infection goes up with number of doses of the jab. **See graph in Exhibit 48 which I present to the court.**

They admit that this is unexpected and they call into question the effectiveness of the mRNA vaccine. The title of the scientific paper is below.

Necessity of Coronavirus Disease 2019 (COVID-19) Vaccination in Persons Who Have Already Had COVID-19

Shrestha et al. 2022

<https://doi.org/10.1093/cid/ciac022>

News report about this in The Defender -

<https://childrenshealthdefense.org/defender/cleveland-clinic-previous-covid-infection-vaccine-no-benefit/>

Other scientific data confirms this. The Ministry for Health in Israel found that most of the people infected with covid19 in Summer 2021 were covid vaccinated. The following chart from the Ministry for Health in Israel shows this:

Israel Confirmed Cases, June 27 <sup>th</sup> – July 3 <sup>rd</sup> , Vaccinated vs. Unvaccinated				
Age Group	Cases, Vaccinated	Cases, Unvaccinated	Percent of Cases Vaccinated	Percent of Population Vaccinated
20-29	95	25	79%	78%
30-39	133	33	80%	83%
40-49	175	33	84%	86%
50-59	127	18	88%	89%
60-69	134	16	89%	91%
70-79	90	7	93%	95%
80-89	23	2	92%	94%
90+	2	0	100%	93%
קבוצת גיל	נדבקים מחוסנים	נדבקים לא מחוסנים	אחוז נדבקים מחוסנים	אחוז מחוסנים באוכלוסיה
ישראל, מקרי קורונה מאומתים, 27 ביוני עד 3 ביולי, מחוסנים לעומת לא מחוסנים

Source: <https://datadashboard.health.gov.il/COVID-19/general>

## Natural Immunity is far superior to Covid Vaccine Induced Immunity

- Protection from previous natural infection compared with mRNA vaccination against SARS-CoV-2 infection and severe COVID-19 in Qatar: a retrospective cohort study  
Chemaitelly et al. 2022  
[https://www.thelancet.com/journals/lanmic/article/PIIS2666-5247\(22\)00287-7/fulltext#cestitle180](https://www.thelancet.com/journals/lanmic/article/PIIS2666-5247(22)00287-7/fulltext#cestitle180)
- **Dr. Pierre Kory mentions many scientific studies showing natural immunity is superior**  
<https://pierrekory.substack.com/p/informed-consent-to-parents-contemplating>
- A new preprint study from Bangladesh found that among 404 people re-infected with COVID, having been vaccinated made someone 2.45 times more likely to get re-infected with a mild infection, 16.1 times more likely to get a moderate infection, and 3.9 times more likely to be re-infected severely relative to someone with prior infection who was *not* vaccinated. Although overall re-infections were rare, vaccination was a greater risk factor of re-infection than co-morbidities.  
<https://www.medrxiv.org/content/10.1101/2021.12.26.21268408v1.full.pdf>
- A new study from Harvard, *Continued Effectiveness of COVID-19 Vaccination among Urban Healthcare Workers during Delta Variant Predominance*, tracked vaccinated and unvaccinated Massachusetts healthcare workers and showed 0 infections in 74,557 person-days for previously

infected patients compared to 49 infections out of 830,084 person-days for fully vaccinated patients.

<https://www.medrxiv.org/content/10.1101/2021.11.15.21265753v1.full-text>

- A study published in the New England Journal of Medicine assessed a cohort of 1,304 patients meeting a very strict definition of “re-infection.” In this cohort, there were no deaths and no ICU admissions during reinfections while 7 deaths and 28 ICU admissions occurred during the primary infections. Overall, there was a statistically significant 90% reduction in the composite outcome of severe, critical, or fatal disease during reinfections.

<https://www.nejm.org/doi/full/10.1056/NEJMc2108120>

- 150 Plus Research Studies Affirm Naturally Acquired Immunity to Covid-19: Documented, Linked, and Quoted

<https://brownstone.org/articles/79-research-studies-affirm-naturally-acquired-immunity-to-covid-19-documented-linked-and-quoted/>

## **More evidence that covid19 emerged from a laboratory in China which was studying how to make sars and coronaviruses more deadly to humans**

There has been further corroboration of scientific findings in our books of evidence regarding the origins of the covid19 virus. Scientists have found the origins of the sars-cov2 virus which causes covid19. The scientific evidence shows the virus has several important modifications to the furin cleavage site in it's spike protein which do not occur in nature and could only have been engineered in a laboratory through gain of function research. This fact has made development of a covid19 vaccine extremely difficult, impossible and dangerous as the spike protein has homology.

Published scientific study

The Evidence which Suggests that This Is No Naturally Evolved Virus

A Reconstructed Historical Aetiology of the SARS-CoV-2 Spike

Birger Sørensen, Angus Dalglish & Andres Susrud

<https://www.minervanett.no/files/2020/07/13/TheEvidenceNoNaturalEvol.pdf>

Scientific analysis of the facts and published scientific studies by Dr. Alex Washburne

<https://alexwasburne.substack.com/p/the-totality-of-the-circumstances>

and by Frisdrom at <https://www.minervanett.no/angus-dalglish-birger-sorensen-coronavirus/the-evidence-which-suggests-that-this-is-no-naturally-evolved-virus/362529>

<https://www.conservativewoman.co.uk/time-to-come-clean-about-covids-lab-origins/>

This corroborates other evidence about this in our books of evidence. The US Congress and US authorities are investigating these gain of function studies which created the sars-cov2 virus enabling it to infect humans and harm them and the motives for this. There are strong indications of criminal motives here driven by massive profits and wealth accumulation.

Government and state emails released under the Freedom of Information law in Britain show that top government scientists and independent scientists and researchers lied about the origins of the sars-cov2 virus and lied about gain of function studies carried out on it. And important information was deliberately concealed from the general public. News report below.
